1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

[illegible]

1. The first part of the paper is devoted to the study of the properties of the function $f(x)$ defined by the equation

THE UNIVERSITY OF CHICAGO

UNIVERSITY CALENDAR, 1960-61

WINTER QUARTER, 1960: term begins, Monday, January 4; final examinations, Monday-Saturday, March 14-19.

SPRING QUARTER, 1960: term begins, Monday, March 28; Memorial Day holiday, Monday, May 30; final examinations, Wednesday-Tuesday, June 8-14; commencement, Wednesday, June 15.

SUMMER SESSION, 1960: term begins, Monday, June 20; Independence Day holiday, Monday, July 4; final examinations, Wednesday-Thursday, August 10-11; commencement, Friday, August 12.

FALL QUARTER, 1960: New Student Week, Friday-Tuesday, September 16-20; term begins, Wednesday, September 21; Thanksgiving recess, Wednesday at noon to Monday, 8 a.m., November 23-28; final examinations, Monday-Saturday, December 12-17.

WINTER QUARTER, 1961: term begins, Tuesday, January 3; final examinations, Monday-Saturday, March 13-18.

BACKGROUND: SOUTHERN ILLINOIS UNIVERSITY

Southern Illinois University emphasizes teaching, research and area services.

Southern was chartered as Southern Illinois Normal University in 1869. Its first classes met July 2, 1874. It remained a normal school and a teachers college until July 1, 1943, when the General Assembly granted it the powers of a university. The name was changed to Southern Illinois University by legislative action in 1947. On July 1, 1949, the "Diamond Jubilee" anniversary of the opening of the school, the university entered into a new period of development under a separate governing board of trustees, appointed for two years. The first permanent board was appointed August 30, 1951.

PRESIDENT MORRIS

Dr. Delyte Wesley Morris was born at Xenia, Illinois, April 11, 1907. Educated in the public schools of Xenia and Flora, he obtained the bachelor's degree from Park College, Parkville, Missouri; the master's degree from the University of Maine; and the doctor of philosophy degree from the University of Iowa. He taught in a public school in Oklahoma, the University of Maine, the Junior College of Kansas City, Missouri, the Indiana State Teachers College, Terre Haute, Indiana; and Ohio State University, where he served as professor of speech and director of the Speech and Hearing Clinic. He came to Southern as eighth president on September 10, 1948. Dr. Morris was inaugurated May 5, 1949.

- - - - -

SOUTHERN'S PAST PRESIDENTS

Robert Allyn, 1874 - 1892

John Hull, 1892 - 1893

Harvey William Everest, 1893 - 1897

Daniel Baldwin Parkinson, 1897 - 1913

Henry William Shryock, 1913 - 1935

George Dorritt Wham, 1935 (acting)

Roscoe Pulliam, 1935 - 1944

Bruce Welch Merwin, 1944 - 1945 (acting)

Chester F. Lay, 1945 - 1948

LOCATION

The central campus of Southern Illinois University is situated attractively in Carbondale, Jackson county, a community of 15,000 located 100 miles southeast of St. Louis. Here is a crossroads transportation center where two important highways, U. S. 51 and State Route 13, intersect; where the Illinois Central railroad has a division point with the St. Louis branch joining the mainline; where north-south and east-west bus connections are good; and where adequate airport facilities are available. Southern Illinois Airport, adjacent to the west city limits, provides air taxi connections with airlines, and facilities for flight instruction. The Williamson county airport near Herrin, 15 miles east, is a stopping point for Ozark Airlines planes.

In addition to the campus at Carbondale, the University includes residence centers in Alton and East St. Louis, a Vocational Technical Institute at its Southern Acres campus 11 miles east of Carbondale, and an outdoor education campus at Little Grassy Lake six miles southeast of Carbondale. Administrative offices for the Southwestern Illinois campus, which includes the centers at Alton and East St. Louis, are located at Edwardsville.

The central campus, located at the southern edge of Carbondale, is undergoing extensive expansion in physical plant facilities and educational programs. The following permanent buildings are in use and others are under construction or planned:

Buildings erected prior to developments of the last decade:

Old Main	1887	Anthony Hall	1913
Altgeld Hall	1896	Shryock Auditorium	1916
Wheeler Building	1903	Gymnasium	1925
Allyn Building	1908	Parkinson Laboratory	1928
		McAndrew Stadium	1938

Completion date and cost of permanent buildings since 1938:

Power plant	1949	\$ 880,119
Service Shops, No. 1	1951	502,784
University School	1951	4,162,832 (Includes cost of Physical Education wing and Industrial education wing completed in 1954)
Service Shops, No. 2 (garage)	1953	203,954
Woody Hall	1953	1,972,811
Life Science	1954	1,761,517 (Includes greenhouses, animal house, and substation)
Morris Library	1956	2,447,615 (First stage)
Thompson Point Residence Halls	1956-57	4,600,000 (Six 120-bed units and student services center)
Agriculture Building	1957	1,773,450
Browne Auditorium	1959	200,304 (Parkinson building addition, lecture hall)
Home Economics building	1959	2,200,000 (First stage, 60 percent completed)
Family Apartment buildings	1959-60	1,479,136 (Eight units providing housing for 128 families)
Student Group Housing units	1959-60	1,916,695 (Nine small residence halls for housing 405 students)

Construction is underway on a \$4½ million University Center. Altgeld Hall has been remodeled for the music department. A trailer court with 53 rental spaces was completed this year on Wall Street and doubling the capacity is contemplated.

Until additional space is available, the University is making use of nearly 100 temporary buildings. Some of these are converted residences; others were built originally as army barracks and have been transported to the campus for badly needed office, classroom, dormitory, and storage space.

The general purpose of the present study is to determine the effect of the various factors which influence the rate of the reaction between hydrogen and oxygen. The reaction is a reversible one, and the equilibrium constant is a function of the temperature. The rate of the reaction is also a function of the temperature, and the activation energy is a function of the temperature. The present study is a preliminary one, and the results are not yet published.

The reaction between hydrogen and oxygen is a very important one, and it is one of the most common reactions in chemistry. The reaction is a reversible one, and the equilibrium constant is a function of the temperature. The rate of the reaction is also a function of the temperature, and the activation energy is a function of the temperature. The present study is a preliminary one, and the results are not yet published.

The reaction between hydrogen and oxygen is a very important one, and it is one of the most common reactions in chemistry. The reaction is a reversible one, and the equilibrium constant is a function of the temperature. The rate of the reaction is also a function of the temperature, and the activation energy is a function of the temperature. The present study is a preliminary one, and the results are not yet published.

The University has a full-time faculty and administrative staff of 1249 and 561 non-academic employees. In addition there are 98 part-time academic and non-academic staff members. Among faculty classifications are adjunct professor and research associate, titles given to individuals with special skills who serve the University without salary through consultation and cooperative research programs. The University also has created openings for graduates fellows and graduates research assistants who are assigned to departmental staffs on the basis of high scholarship and promise in graduate work.

UNIVERSITY SERVICES

AREA SERVICES DIVISION. As the only fully-accredited institution of higher learning in the 32 southern counties of Illinois, SIU has special obligations to its region and therefore attempts to make its facilities available to various community, county, and regional groups. This work is carried on through the Area Services Office and its affiliated agencies -- Alumni Service, the Department of Community Development, Information Service, and Placement Service. Meetings and conferences on the campus under the sponsorship of responsible off-campus organizations and groups are arranged through Area Services. This office provides various programs and activities for communities of the area, and it draws upon those resources of the University which may be useful to the citizens of Southern Illinois. Area Services works closely with federal, state and private groups interested in the region, including tourist associations, fish and wildlife departments, small business groups, and public welfare agencies.

ALUMNI SERVICE is concerned with creating and maintaining a bond of interest between the University and more than 20,000 graduates and former students through an Alumni Association, the organizing of local alumni clubs throughout the nation (there are 37 of these), publishing the Southern Alumnus, and gathering, filing and disseminating information about former students at Southern. The 1959-60 Association president is Dr. Martin Van Brown, Carbondale.

INFORMATION SERVICE is the official news agency for the University, releasing information of general interest about activities of the University, its students and faculty to newspapers, radio and television stations, and periodicals.

PLACEMENT SERVICE is maintained for the benefit of students and SIU graduates who are seeking employment in the teaching fields, in the professions, or in business and industry.

The **DEPARTMENT OF COMMUNITY DEVELOPMENT** was established in 1953 under the direction of Richard W. Poston, who has won international recognition by "helping communities help themselves" through comprehensive study and action programs in which citizens from all walks of life band together to fight community problems. Poston is now a research professor attached to the SIU Graduate School and the department is headed by Robert E. Knittel. By the start of 1960, Knittel and his 14 field representatives were assisting local development efforts in a score of Illinois communities, ranging from East St. Louis, an industrial city of 82,000 to several small rural counties across the state on the Ohio River.

AUDIO-VISUAL DEPARTMENT. Southern's film library of nearly 3,600 motion picture films and many additional film strips is serving the needs of more than 550 schools and adult organizations. New films constantly are being added to the library to meet ever-increasing needs. The audio-visual service is a department of the University library where it is located. It has two primary functions -- on-campus and area services. Campus users are provided with various types of projection service when needed. Films from Southern's library and many from other sources are provided for campus and extension classes and for schools and organizations in Illinois and adjacent areas in Missouri and Kentucky. Consultation service to help schools with their audio-visual programs is provided. Programs for county institutes are now provided also.

CHILD GUIDANCE CLINIC. The Child Guidance Clinic studies cases of children and adolescents having difficulty with school work, emotional adjustments, attitudes and personality conflicts. A Department of Guidance offers special consultant services to schools for initiating and upgrading guidance and testing programs.

COOPERATIVE CLINICAL SERVICES CENTER. One of only two university facilities of its kind in the nation, the Cooperative Clinical Services Center at SIU brings campus clinicians and therapists of all kinds under one service roof to aid the handicapped. The unit provides multiple services both to handicapped students and area residents by drawing on the treatment specialties of a number of campus agencies and departments: the Child Guidance Clinic, Psychology, Rehabilitation Institute, Special Education, Speech and Hearing Clinic, Sociology (marriage counseling), the Reading Clinic, Counseling and Testing, Physical Education, and others. Two physical therapists, speech correctionists, and graduate assistants maintain permanent quarters in the Clinical Center building at Lake and Chautauqua streets while other specialists and outside consultants serve part time on an appointment basis.

EDUCATIONAL RESEARCH BUREAU. As an outgrowth of recommendations by school administrators, the College of Education established the Educational Research Bureau for working with schools in matters of district reorganization, plant construction, curriculum, and other problems through the organized approach of school surveys or by consultative services. Arrangements are made for services to be provided on a daily-fee or on a contractual basis. No charge is made for the initial visit to a school.

GENERAL PUBLICATIONS OFFICE, created in 1959, is responsible for editing, designing, producing, and distributing the University's bulletin series, and gives advisory, editorial, and design assistance on other official publications of the University.

INTERN PROGRAM. Southern is one of the pioneer institutions of higher learning to develop a graduate internship program in the field of education in which the students work in a public school five days a week for a period of nine months. The program trains school administrators, supervisors, and teachers.

LOCAL GOVERNMENT CENTER. Organized as a part of the Public Affairs Research Bureau, the Center provides assistance to local government officials. Its purposes are to prepare publications concerning local government, to help analyze and solve governmental problems, and to build a competent library to provide information to civic groups.

PHOTOGRAPHIC SERVICE is staffed and equipped to serve nearly every photographic need of the University for news, publicity, teaching aids, photocopying, exhibits, portraits, identification photos, campus publications, color photography, and motion pictures. Courses in photography are taught under the department of printing and photography in the School of Communications.

PRINTING SERVICE performs a multitude of duplicating and printing services for the University. Art services are provided to student groups and university departments and agencies for publications, posters, and graphic material by the Printing Service as desired.

PSYCHOLOGICAL SERVICES CENTER provides professional services to University students, to community adults and children, and to industries of the area. Psychological counseling and personality appraisal, including the use of different types of psychological tests, are provided for the purpose of assisting individuals with personal-social problems. The Center also provides consultation services to University and community agencies and interested groups on the psychological aspects of child-parent relationships, adolescent development, and other areas of personal and social significance.

Published weekly, except the last two issues which are published bi-weekly. Subscription price, \$5.00 per annum in advance. Single copies, 15 cents. Entered as second-class matter, October 3, 1917. Postpaid. Accepted for mailing at special rate of postage provided for in Act of October 3, 1917. Authorized to mail at special rate of postage provided for in Act of October 3, 1917.

RADIO-TELEVISION SERVICE. Providing both educational and area service functions in the field of radio and television is the University's radio-television department. It has radio studio facilities for teaching various courses in this field and supervises Southern's radio station, WSIU - FM (formerly WSRV - FM), which was activated in September, 1958, and is operated as a student training facility in all phases of program production and broadcasting. The agency also provides programs by or about the University's students, faculty, and activities to area radio and television stations and provides consultation to other University departments. The agency also supervises the University's public address systems.

The Federal Communications Commission recently assigned a channel and approved construction of an educational television station at the University. Construction awaits availability of funds.

The **READING CENTER**, recently established in the College of Education, helps students improve reading skills and study habits, and serves as a laboratory for teachers in training as reading specialists. Referrals are accepted from area schools and consultant services to teachers of reading in elementary schools are provided.

EMPLOYMENT TRAINING PROJECT. A vocational training program for mentally retarded adolescents is conducted at the Southern Acres campus in cooperation with the Illinois Division of Vocational Rehabilitation. Grants totaling more than \$100,000 have been awarded to SIU for the project by the Office of Vocational Rehabilitation. Purpose of the program is to "reclaim" mentally retarded adolescents and help them compete for jobs with normal persons.

SPEECH AND HEARING CLINIC offers examinations and therapy to area children and adults who have speech defects such as stuttering, cleft palate, articulatory difficulties, or cerebral palsy. Also offered is a program for the hard of hearing which includes auditory training, lip reading, speech conservation, testing of hearing, and the fitting of hearing aids. The clinic cooperates with other agencies including the Division of Services for Crippled Children, the Easter Seal Agency, the Department of Public Welfare and other related service agencies.

STATISTICAL SERVICE operates a tabulating office equipped with modern punchcard machines and is maintained as a service unit for campus offices and departments. The office is concerned with processing data concerning Southern Illinois and the programs and activities of the University.

STENOGRAPHIC SERVICE performs mimeographing, duplicating, automatic typewriting, and other stenographic work for University departments and offices.

TEXTBOOK SERVICE. A textbook rental system operated through the University Textbook Service simplifies the book problem for the student. The service rents an average of five books per student enrolled. This amounts to more than 50,000 books per term. The stock of textbooks totals more than 100,000. The Textbook Service is a part of the University Library and occupies facilities in the basement of Southern's new library building. It serves campus, residence center, and extension division students.

UNIVERSITY ARCHITECT is responsible for recommending plans for all phases of design, construction, and landscaping of new and existing University buildings.

UNIVERSITY PRESS, established in 1953, is a book publishing agency of the University. Publications include monograph series as well as work of more general interest.

THE UNIVERSITY OF CHICAGO
DEPARTMENT OF THE HISTORY OF ARTS
AND ARCHITECTURE
OFFICE OF THE CURATOR
OF THE MUSEUM OF ARTS
AND ARCHITECTURE
CHICAGO, ILLINOIS
JANUARY 1, 1901
TO THE HONORABLE
COMMISSIONER OF THE GENERAL LAND OFFICE
WASHINGTON, D. C.
SIR:
I have the honor to acknowledge the receipt of your letter of the 29th inst. in relation to the proposed purchase of the site for the proposed building for the Department of the History of Arts and Architecture, and in reply to inform you that the same has been referred to the Board of Trustees of the University of Chicago for their consideration.
Very respectfully,
J. H. HARRIS, Curator.

UNIVERSITY INSTITUTES

A number of Institutes are being established at Southern Illinois University to serve special areas of interest through educational programs and advisory services. The educational program is comprised of a course of study utilizing work in a number of related departments of the university.

COMMUNITY DEVELOPMENT INSTITUTE was established in June, 1956, to meet the acute shortage of professional personnel in that domain. It is the only special curriculum offered anywhere in the nation for community developers. Those now engaged in the work are graduates of liberal arts schools, sociologists, teachers, economists, city planners, and others. The Institute adapts college curricula and extensive field work to this activity, and the training program also is valuable for students interested in Chamber of Commerce work, or in careers in social agencies, youth leadership, and the like.

LATIN AMERICAN INSTITUTE, activated in 1958, provides a major in Latin American Studies in the College of Liberal Arts and Sciences, a step in the Institute's plan to help change attitudes toward Latin Americans and create better understanding. Plans also include research, promotion of greater exchange of faculty and students between SIU and Latin American colleges, and advisory services to businesses desiring to operate in Latin American countries.

LABOR INSTITUTE. The Labor Institute provides educational opportunities for those working in the field of labor organization and also plans programs for students seeking careers in this field. Administration of apprentice training programs (through the Division of Technical and Adult Education), implementing joint labor-management committees, and providing consultative service to area labor groups are among the Institute's functions.

REHABILITATION INSTITUTE. The purpose of the Rehabilitation Institute, established in 1957, is to co-ordinate and augment the training of college students and other field workers interested in counseling with or providing services for the handicapped. This function is carried out through a program of instruction which co-ordinates the efforts of departments within the University in the developing of rehabilitation counseling curricula, through consultant services to community agencies in the general area of rehabilitation, and through theoretical and practical research bearing on the methods and techniques of rehabilitating the handicapped.

The instructional program is divided into four general areas:

Rehabilitation Counselor Training. A two-year graduate program leading to a Master's degree in Rehabilitation Counseling. A limited number of traineeships are available for qualified applicants.

Placement Counselor Training Program (Blind). A six-week course limited to professional personnel working with the blind, and designed to develop skill for placing the blind in competitive occupations. Stipends are available for some of the qualified trainees.

Annual Institute for Rehabilitation Personnel. A two-week short course designed for workers engaged in either rendering direct service to the handicapped and/or in organizing the community to recognize and assume its responsibility for the handicapped.

In-Service and Community Education. A series of training courses and seminars are conducted jointly with various public and private institutions and agencies.

The Institute also provides consultant services to the Co-ordinated Services for Handicapped Students, a campus agency responsible for co-ordinating University activities relating to the handicapped student. In addition, counseling is available for both students and residents of the area.

SMALL BUSINESS INSTITUTE was established in 1954 to stimulate training of students interested in going into business for themselves in Southern Illinois through actual course work and on-the-job training. Other aims are to provide technical advice on small business operations and to establish effective contacts between the businessman and the professional staff of SIU. Two committees are: a Council of Small Business, composed of representatives of business, industry, banking, labor, law, agriculture, and education, which cooperate with regional, civic, and community groups in aiding the development and financing of small business operations; and an informal faculty committee to contribute to the instructional, research or educational service programs of the Institute.

ACADEMIC STANDING

Southern is accredited by the Commission on Colleges and Universities of the North Central Association in Group IV (as a university), the American Association of Colleges for Teacher Education, the Association of American Colleges, and the National Association of Schools of Music.

BUDGET AND APPROPRIATIONS

The state General Assembly appropriates financial support to the University on a two-year basis. Most of the money comes from state tax revenues. In addition, the state appropriates the University's own income which, by law, must be deposited with the state treasurer (excluding auxiliary enterprises, handled locally).

The following state appropriations were made to the University for the 1957-59 biennium:

From tax Funds:

For Operation and Maintenance	\$21,572,426.00 (1)
For Permanent Improvements	405,000.00
For Land	675,000.00
For New Construction	5,325,000.00
For Reappropriation of Plant Funds	<u>1,732,005.00</u>
Total Tax Funds	29,709,431.00

From University Income:

For Educational Operations	<u>1,624,713.00</u> (2)(3)
Total	<u><u>\$31,334,144.00</u></u>

(1) Includes Deficiency Appropriation 71st G.A. \$500,000.00.

(2) Includes Deficiency Appropriation 71st G.A. \$200,000.00.

(3) Includes \$59,713.00 for Permanent Improvements.

PLANT AND EQUIPMENT, June 30, 1959

Land (3722.36 Acres)	\$ 2,002,483.00
Buildings	27,262,875.00
Improvements	2,682,652.00
Equipment	7,293,749.00 (1)
Construction in Progress	<u>1,092,121.00</u>
Total	<u><u>\$40,333,880.00</u></u> (2)

(1) Includes Library Books as follows:

General Library	\$1,010,521.00
Tilton Lincoln Library	8,349.00
University School Library	<u>24,472.00</u>
Total	<u>\$1,043,342.00</u>

(2) Does not include properties held by the Southern Illinois University Foundation.

Buildings		<u>260,651.00</u>
Total Current Expenditures		<u>\$15,619,017.00</u>

— 244 —

ADMISSION REQUIREMENTS

To be eligible for admission, an applicant must be over 21 or be a graduate of a recognized high school. Graduates of non-recognized high schools may be admitted by examination. A person ranking in the lowest quarter of his high school graduating class cannot be considered for admission until he completes the test battery and is interviewed by a counselor in the Admissions Office. Except for those making high scores on the entrance tests, new students in the lower quarter of the high school graduating class can be admitted only in winter, spring, and summer terms and on probation. Application for admission should be done at the beginning of the student's last semester in high school. A record of preceding high school or college work is an admissions requirement. Questions concerning admission should be directed to the Office of Admissions. Students, other than those in the special classification above, are admitted four times a year: fall, winter, spring, and summer (See calendar, page 5)

A person over 21 who has not completed high school is required to pass the General Educational Development Test within the first period of his attendance at Southern. These tests are regularly offered the first Friday and Saturday of each month at the Office of Student Affairs.

FEES

The University reserves the right to change fees at any time. At present, the fees for a regular quarter (12 weeks) for a full-time (more than 8 quarter hours) student are:

Tuition	\$42.00
Student Activity Fee	9.50
Student Union building fund fee	5.00
Book rental	<u>5.00</u>
Total	\$61.50

Fees for out-of-state students is an additional \$50.00 plus those listed above.

Thus, for the usual school year of 36 weeks, tuition and fees amount to \$184.50 or, for out-of-state students, \$334.50.

There are no additional charges for private lessons in music. The general activity charge includes fees for hospitalization, entertainment, athletics, the Obelisk (yearbook), the Egyptian (newspaper), and other activities as may be provided.

It is a well-known fact that the human mind is capable of receiving and storing a vast amount of information. This information is stored in the form of memories, which are organized in a hierarchical manner. The first level of organization is the sensory input, which is received by the senses. This input is then processed by the brain, which extracts the relevant information and stores it in the memory. The memory is then organized into a hierarchy, with the most important information at the top and the least important at the bottom. This hierarchy is known as the memory structure. The memory structure is a complex system, and it is the function of the brain to maintain it. The brain is a remarkable organ, and it is the function of the brain to maintain the memory structure. The memory structure is a complex system, and it is the function of the brain to maintain it. The brain is a remarkable organ, and it is the function of the brain to maintain the memory structure.

AIR FORCE RESERVE OFFICERS' TRAINING CORPS

All male students, except those who have actively served in any of the Armed Forces six months or more, entering Southern as freshmen or sophomores are required to enroll in the basic Air Force Reserve Officers' Training Corps. In general, students will be exempt from this requirement if they are veterans, physically handicapped, or conscientious objectors, subject to the approval of the Military Policies Committee appointed by the University President.

When a student finishes his first two years of required AFROTC training, he may apply for admission to the advanced course. The advanced course consists of training problems peculiar to the Air Force and is designed to equip the student to assume the responsibilities of an Air Force officer. Upon graduation a student will be commissioned a Second Lieutenant in the United States Air Force.

While a student is completing his junior and senior years in the AFROTC program he is entitled to an allowance of 90 cents per day. During their senior year, students who have volunteered and are qualified for pilot training receive 35 hours of flight instruction which qualifies them for a private pilot's license.

Volunteer AFROTC activities include the Honor Guard and Drill Team, the Singing Squadron, the Cadet Band, a championship rifle team, and an honorary society -- the Arnold Air Society. A women's auxiliary, the Angel Flight, also takes part in AFROTC activities.

GRADUATE SCHOOL

Graduates of fully accredited colleges and universities may pursue courses of study leading to a master's degree in arts, science, education, and fine arts. In addition, there is a sixth year program in education leading to a certificate of specialist. Programs leading to the degree of doctor of philosophy are available in selected areas. Southern Illinois University is accredited by the North Central Association of Colleges and Secondary Schools as an institution conferring the Master's degree. Graduate work is offered in 48 departments of the university.

COLLEGE OF EDUCATION

The College of Education provides professional training for teaching in the public schools and for supervisors, administrators, and specialists. The special function is to prepare teachers for all grades from kindergarten through high school. Its graduate offerings include professional work for prospective college teachers and specializations in school administration and supervision. The College grants the bachelor of science in education and the bachelor of music education degrees.

The departments in the College are: educational administration and supervision (for those wishing to become principals or supervisors in public schools through graduate work); elementary education (preparing kindergarten-primary and elementary teachers); guidance (training educational, vocational and personal counselors for the public schools); health education (to prepare teachers of health education and providing graduate specializations in health and safety education); instructional materials (to prepare teacher-librarians, audio-visual aids directors, and specialists in all instructional materials); physical education for men (preparing teachers of physical education and for coaching athletics; also handling the University's athletic program); physical education for women (preparing women to teach physical education in public schools); recreation and outdoor education (training camp counselors and directors and specialists in recreation and outdoor education, partly through the summer camping and recreational programs at the Little Grassy Lake campus); secondary and higher education (preparing high school teachers and providing courses in higher education); and special education (serving the needs of the mentally and physically handicapped children through teacher training, consultative services, research, and experimentation).

(Continued on page 16)

1. The first of these is the fact that the majority of the population of the country is of African descent. This is a result of the slave trade which brought millions of Africans to the Americas over the centuries. The legacy of slavery is still evident in many aspects of society, including the economic and social inequalities that persist today.

of colleges and secondary schools as an institution containing the basic course. It should well be off and in no way separate of the university.

REFLECTIONS ON THE

The College of Education provides graduate-level instruction for students in the fields of education, counseling, and school administration. The college is also responsible for the preparation of teachers for the state of Ohio. The college is a member of the American Association of Colleges of Education and the National Education Association. The college is also a member of the Ohio State University System.

[illegible]

The teacher training division offers student teaching in all departments, using the University School at SIU and qualified public schools in the area where potential teachers observe good teaching, make studies, and obtain practice.

A reading center has been established in the guidance department for giving teachers special training in reading and to assist teachers in service.

COLLEGE OF LIBERAL ARTS AND SCIENCES

The College of Liberal Arts and Sciences is for students desiring general cultural courses and for those planning to take pre-dental, pre-legal, pre-medical, pre-ministerial, pre-pharmaceutical, pre-veterinary, pre-public health, or pre-occupational therapy courses. The degree granted is the bachelor of arts.

SCHOOL OF AGRICULTURE

The School of Agriculture was created by state legislative action July 1, 1955, to serve as an instrument of the University for providing instruction, demonstration, and consultation in agriculture, forestry, and other activities concerned with the rural development of Southern Illinois.

Following prolonged study a reorganization plan creating departments in the School of Agriculture was instituted July 1, 1957. These are:

the Department of Agricultural Industries (including vocational agriculture teacher education, agricultural economics and agricultural engineering), the Department of Animal Industries (including phases of agriculture dealing with farm animals), the Department of Plant Industries (including the soils and crops phases of agriculture) and the Department of Forestry, (offering a four-year program in forestry to expand previous pre-forestry and pre-wood technology programs, established January 1, 1958). The University farms, the Illinois Horticultural Experiment Station, and the SIU-U. of I. Cooperative Agronomy Research Center are components of the school. A bachelor of science degree in agriculture and a bachelor of science degree in education with a major in agriculture are offered. A graduate program leading to a Master of Science degree is offered in the Departments of Agriculture Industries, Animal Industries, and Plant Industries. The School was approved in 1958 for training Vocational agriculture teachers. A federal Small Fruits Research Station was activated in 1959 in cooperation with the U. S. Department of Agriculture. The University Farms of the School of Agriculture currently includes nearly 1,800 acres. This area is devoted to teaching, research, and demonstration in soils, crops, livestock, dairying, and poultry. A poultry station has been in operation since 1951. Teaching and research centers newly completed are a Dairy Center, a Sheep Center, a Beef Cattle Center, and a Swine Center. Test farms are being developed for the application of new technology and research findings from SIU and other research institutions, to serve as farm management study units.

SCHOOL OF APPLIED SCIENCE

Establishment of a School of Applied Science, approved by the Board of Trustees Sept. 30, 1958, became effective July 1, 1959, and includes the Department of Industrial Education and the Department of Applied Science. The School provides for instruction, demonstration, research, and consultation in the fields of mechanical, electrical, civil, industrial, and general engineering, offering work in pre-engineering and for a bachelor of science degree. The Industrial Education department prepares teachers of industrial education and supervisors for industry as well as being approved for vocational teachers of trades and industry. Laboratory facilities have been expanded substantially.

SCHOOL OF BUSINESS

The School of Business provides courses of instruction leading to bachelor and advanced degrees emphasizing such fields as accounting, business education, economics, management, marketing, and secretarial studies. The School stimulates research and provides service work in these fields for other units of the University. The School publishes a quarterly Business Bulletin which is distributed widely to businessmen in Southern Illinois. The School is organized into five departments: Accounting, Management, Marketing, Secretarial and Business Education and Economics.

SCHOOL OF COMMUNICATIONS

The School of Communications coordinates and facilitates the development of programs, provides instruction and stimulates research in the effective use of such communications media as public speaking, television, radio, newspapers and magazines, and provides service work in these fields for other educational units which require it.

Components of the school are the departments of speech, speech correction, theater, radio-television, journalism, and printing and photography.

SCHOOL OF FINE ARTS

The School of Fine Arts includes the departments of art, design, and music. Art students may major in pottery, painting, and printmaking, jewelry and silversmithing, and weaving. Design students may major in visual design or in product-shelter design. The Department of Music is a member of the National Association of Schools of Music. It offers major programs in music theory, history and literature, piano, organ, voice, opera workshop, stringed instruments, wind instruments, percussion instruments, instrumental and vocal ensembles. The School of Fine Arts serves as an instrument for directing, training and stimulating creative and professional work for the other colleges, schools, departments and divisions of the University insofar as the departments are able to assist them in their programs.

SCHOOL OF HOME ECONOMICS

The School of Home Economics was established in July, 1957, to provide professional instruction for careers in home economics and homemaking; to stimulate research by students and faculty; to provide service work in these fields for other educational units desiring it; and to serve the people in the area. The School offers training in four departments: clothing and textiles, food and nutrition, home and family, and home economics education. The new home economics building was opened for partial occupancy in September, 1959, and funds are expected to be released for completion of the east wing early in 1960.

Programs leading to the degree of bachelor of science are offered in the following fields of specialization: apparel design, clothing and textiles merchandising, dietetics, foods in business, home advisers (extension), homemaking, interior decoration, and institutional management; the bachelor of science in education is offered for vocational home economics teachers, and the bachelor of arts, for students training for the profession of homemaking economics. Programs leading to the master of science and the master of science in education also are available.

EXTENSION DIVISION

Through the Extension Division, University faculty members take college credit courses off-campus. This is accomplished by conducting classes in nearly 40 communities, with 1958-59 enrollment of more than 1,300. A program of radio and television credit courses also has been initiated.

00000000000000000000000000000000

1895

CONFIDENTIAL

THE UNIVERSITY OF CHICAGO

(31)

The Division offers planning assistance for educational conferences, workshops and conventions. Approximately 200 of these events, with an attendance of about 35,000, are scheduled each year.

The Division also makes arrangements for the SIU Touring Theater to present plays in area communities during a seven-weeks period each fall. The Theater, composed of advanced drama students, is self-supporting and area organizations earn funds for local civic projects by sponsoring the plays. This group performs in about 30 communities with a total attendance of 25,000 each year.

A County Institute Service for specialized faculty groups and general teacher groups is provided by the Division. The programs, varying in length from one hour to two days, are sometimes given as workshops for teachers before school opens in the fall. The institute service extends into all parts of the state.

SOUTHWESTERN ILLINOIS CAMPUS

The Southwestern Illinois Campus of the University serves a metropolitan area comprising the state's largest concentration of population. University centers in Alton and East St. Louis offer comprehensive day and evening degree programs for undergraduates in various fields, as well as a substantial part of a master's degree program in education. Courses also are offered in Belleville for students interested in teacher education.

A large campus site southwest of Edwardsville has been purchased with money contributed by 60,000 citizens of Southwestern Illinois. The State has earmarked \$25 million for capital improvements of the new campus in a \$195 million bond issue to be submitted to the voters of the state in November, 1960. In the meantime the central administrative offices have moved into existing buildings on the newly acquired campus so as to release space for additional classrooms at the University centers in Alton and East St. Louis where more than 3,400 students are enrolled in degree programs this year.

DIVISION OF TECHNICAL AND ADULT EDUCATION

The Division of Technical and Adult Education was established for all students of the University not seeking bachelor, master, or doctoral degrees. The Division also includes the Vocational Technical Institute, started in 1952.

Adult Education consists of non-credit courses in various vocational, technical, and general education fields. Nominal tuition fees are charged. The courses are designed to assist adults to do their jobs better or to gain skills for advancement to better positions. Since 1950, classes have been held in more than 105 towns throughout southern Illinois, ranging from Cairo to Olney and from Shawneetown to the Quincy area. Enrollment in adult education has shown a continued growth, with a present size of more than 10,000 adults annually. Besides a permanent staff, the Division utilizes as instructors a group of trained personnel in specific fields from business, industry, and the professions.

Vocational Technical Institute, an integral part of the Division of Technical and Adult Education, was established as a Day School program and offers one- and two-year technical curricula. The two-year programs lead to degrees of associate in art, associate in business, or associate in technology. One-year programs leading to a certificate also are offered.

The Vocational Technical Institute Business Division offers curricula in court reporting, legal, executive secretarial, cooperative secretarial, cooperative medical secretarial, accounting, stenography, calculating machines, bookkeeping-clerical, and cooperative retailing in merchandising.

The Division of Technical Education is the primary agency for the development of technical education in the State. It is responsible for the planning, financing, and administration of technical education programs. The Division is also responsible for the coordination of technical education with other educational agencies in the State.

The Division of Technical Education is organized into several divisions and branches. The divisions are responsible for the planning, financing, and administration of technical education programs. The branches are responsible for the coordination of technical education with other educational agencies in the State.

The Division of Technical Education is also responsible for the development of technical education standards and for the evaluation of technical education programs. It is also responsible for the development of technical education research and for the dissemination of technical education information.

TECHNICAL EDUCATION

The Division of Technical Education is responsible for the development of technical education standards and for the evaluation of technical education programs. It is also responsible for the development of technical education research and for the dissemination of technical education information.

The Division of Technical Education is also responsible for the development of technical education standards and for the evaluation of technical education programs. It is also responsible for the development of technical education research and for the dissemination of technical education information.

DIVISION OF TECHNICAL AND ADULT EDUCATION

The Division of Technical and Adult Education is responsible for the development of technical education standards and for the evaluation of technical education programs. It is also responsible for the development of technical education research and for the dissemination of technical education information.

The Division of Technical and Adult Education is also responsible for the development of technical education standards and for the evaluation of technical education programs. It is also responsible for the development of technical education research and for the dissemination of technical education information.

The Division of Technical and Adult Education is also responsible for the development of technical education standards and for the evaluation of technical education programs. It is also responsible for the development of technical education research and for the dissemination of technical education information.

The Division of Technical and Adult Education is also responsible for the development of technical education standards and for the evaluation of technical education programs. It is also responsible for the development of technical education research and for the dissemination of technical education information.

The Vocational Technical Institute Trade and Industrial Division offers two-year associate degree curricula in automotive service, machine tool technology, radio-television technology, architectural drafting and design, machine drafting and design, commercial art, printing technology, building construction technology, dental laboratory technology, and industrial wood technology. One-year certificate programs are offered in cosmetology, practical nursing, and welding.

The VTI is located at the University's Southern Acres campus, 11 miles east of Carbondale on Old Route 13. The campus includes classrooms, industrial-type shops, laboratories, cafeteria, student center, health center service, housing accommodations for married students, and two men's residence halls.

Enrollment growth in the VTI program has been little short of phenomenal since its inception in September, 1952, with 37 students. The enrollment more than tripled each year until 1956 and currently is over 600 full-time students.

DEPARTMENT OF NURSING

The Department of Nursing offers two programs, both leading to the degree, bachelor of science in nursing. The basic professional program is 14 quarters of general education and professional courses and experience, and is for students who have had no previous preparation for professional nursing. Graduates of this program are qualified for licensure as registered nurses. The supplement program for registered nurses is a combination of general education and upper division nursing courses. Students who enroll full-time can complete requirements for the degree in about two years, including summers. Practicums in public health and hospital nursing are required.

RECREATION AND OUTDOOR EDUCATION

Southern conducts programs of outdoor education and school camping at camps at Little Grassy Lake for students of all age levels -- elementary through college. Purposes of the camping projects are to enrich learning programs in various subject matter fields; provide an outdoor laboratory in teacher training; provide a laboratory for experimental work and course work in many University departments; give experience in "primitive" camping, focus attention on the need for conservation and recreational development in the area, and train camp counselors and camp directors.

Each year hundreds of people -- both normal and handicapped -- participate in outdoor programs at the SIU campsites. The Department of Recreation and Outdoor Education coordinates these programs.

RESEARCH

During the past decade, research and testing programs have grown rapidly at Southern, with its expanded faculty and dedication to greater service. The continued development of work toward advanced degrees in many departments, has meant increasing opportunities for research. Outside support during fiscal year 1958-59 totalled approximately \$628,000. The University is allocating more than \$150,000 to support individual research programs exclusive of released faculty time. Results of research are including patentable items which may be marketed and return royalties for further research. Four such items are now in the process of being developed. Practically all departments of the University carry on experimental or research programs. There are 215 special research projects in process, conducted by faculty personnel, with some 24 research projects being conducted with the cooperation of outside agencies. Much of the work is centered on southern Illinois.

The first step in the process of the
 development of the human mind is the
 acquisition of language. This process
 is a complex one, involving the
 interaction of many factors, including
 the environment, the individual's
 genetic makeup, and the social
 context in which the child is raised.

THE 1950-1970

1. *Chrysomelidae* (Coleoptera) (18 specimens)

1970

The Southern Illinois University Museum is in Altgeld Hall, where a large exhibit area, offices and work rooms are located on the first floor of the building.

Dedicated to research and exhibition in all fields of natural and social science, the museum now has collections of more than 12,500 items in natural science, including specimens in the fields of herpetology, mammology, ornithology, paleontology, mineralogy, and botany. The Museum provides various extension services -- educational exhibits and teaching units for schools and exhibit preparation. In the social science collections are several thousand artifacts representative of pioneer American life in southern Illinois, and archaeological specimens illustrating Indian cultures of southern Illinois, northern Mexico, and southwestern United States. The Museum is open to visitors from 8 a.m. to 4:30 p.m. Monday through Friday; from 8 a.m. until noon on Saturday; and from 2:30 until 4:30 p.m. on Sunday.

LIBRARIES

The first stage of Southern's new library building was completed in 1956 but only part of the interior could be finished with appropriations made for construction. Since then additional funds have enabled the University to finish and occupy the basement and first floor of the building. The second floor is in use for library storage, surplus property storage, headquarters for a regional library of 50,000 volumes, and laboratory studios for the SIU design department.

A substantial library budget available for the current biennium has made possible substantial additions to the library's reference materials, especially "hard-to-get" out-of-print volumes and back issues of various kinds of journals necessary in Southern's growing programs for graduate study. More than 50,000 volumes have been added by purchases and gifts during the past year. The 175,000-volume library collection at the time the new building was occupied Jan. 1, 1956, has now reached more than 350,000 volumes. Valuable rare book and manuscript materials have been acquired through gifts or purchase, the most recent being the outstanding Croessmann collection of James Joyce materials and the Jewell Stevens collection of literature which were acquired with the assistance of the SIU Foundation.

The library operates on open shelf system for library patrons with all outgoing traffic passing a central circulation desk in the first floor lobby. The library is organized into four subject divisions -- education, humanities, science, and social studies. The University's textbook rental service and the audio-visual department are divisions of the library.

SOUTHERN ILLINOIS SYMPHONY ORCHESTRA

Members of the 35-piece Southern Illinois Symphony Orchestra come from more than a score of communities throughout Southern Illinois. The orchestra was organized on a regional basis 11 years ago and has attracted nationwide interest in its unique program of service to the area. Under the direction of Carmine Ficocelli, director of University Orchestras, the orchestra annually presents a series of adult and children's concerts with important visiting artists as guest soloists. The list of recent guest performers has included Joseph Szigeti, internationally known violinist; Ernst Wallfisch, Austrian violist (in the American premiere performance of the Malipiero Viola Concerto); Sigurd Rascher, noted saxophonist; Ralph Appelman and Virginia MacWatters, vocalists; and Dr. Fred Denker and Dr. Steven Barwick of the piano faculty of Southern Illinois University. In conjunction with the series of concerts in Carbondale, the orchestra makes several tours for performances in other communities in southern Illinois. The orchestra rehearses weekly throughout the year on Tuesday evenings in Shryock Auditorium.

SOUTHERN ILLINOIS ORATORIO SOCIETY

The 150 voice Oratorio Chorus meets weekly on Monday evenings in the Choral Room of Altgeld Hall. Under the direction of Robert Hines, director of choral activities of the University, the chorus annually presents two major oratorios and appears in a third program with the Symphony Orchestra in the annual Christmas program.

SOUTHERN ILLINOIS YOUTH SYMPHONY ORCHESTRA

Organized in January, 1958, the 60-piece Youth Orchestra includes membership of qualified high school students living within a radius of 100 miles of Carbondale. The orchestra meets each Saturday morning in Shryock Auditorium under the direction of Carmine Ficocelli and John Wharton. The Youth Orchestra and the free Saturday morning program of instruction in stringed instruments for area junior and high school students was awarded the 1958 and 1959 Certificate of Merit in the Crusade for Strings of the National Federation of Music Clubs.

SOUTHERN ILLINOIS MUSIC FESTIVAL ("MUSIC UNDER THE STARS")

Each spring McAndrew Stadium on the University campus is the scene of an area-wide music festival featuring choral, orchestral, and band groups from representative communities in Southern Illinois. The 1958 and 1959 festivals featured approximately 7,000 performers, in addition to those who participated in the pre-Festival contests in piano and voice. Guest soloists and conductors of national repute appear on the Festival program, helping to make the event an important climax to the year of music education in Southern Illinois.

SOUTHERN ILLINOIS UNIVERSITY BANDS

During the fall the Marching Band, under the directorship of Donald Canedy, performs at all home football games and at one game away from home. It also participates in the Homecoming parade and at various other events. During the winter and spring the Concert Band, with Phillip Olsson as director, has won acclaim for its annual concerts. Each year it presents a series of outdoor programs, the "President's Concerts."

OFFICE OF STUDENT AFFAIRS

The Office of Student Affairs is concerned with maintaining a suitable campus environment characterized by academic achievement, morale, and pride in the University. Staff members are available for consultation concerning problems which may confront a student. General administration is under the supervision of the Director of Student Affairs, who coordinates the services of the Counseling and Testing Center, the Housing Center, the Activities Development Center, and the Financial Assistance Center. In addition, the Office of Student Affairs is responsible for behavior problems, special services for the disabled students, and general information concerning students. The University Health Service has a coordinate relationship with the Student Affairs Office. All units of the Office of Student Affairs cooperate with the Academic Advisement Center, Placement Service, Student Work Office, Registrar's Office, the Cooperative Clinical Center and all of its cooperating agencies, and other University services which assist in the student's development.

Services for the Disabled Students

A coordinated program of special services is available to all disabled students. Its purpose is to assist the individual student in his personal, vocational, and social adjustment and development. Counselors are available for discussion of problems and needs, interests, and abilities in these areas. In addition, the campus has been modified to allow the disabled student independently to engage in all University functions.

(Continued on page 22)

University units cooperating with the Office of Student Affairs and its functional areas in this service include Rehabilitation Institute, University Health Service, Cooperative Clinical Services, Academic Advisement as well as the State of Illinois Division of Vocational Rehabilitation.

STUDENT ACTIVITIES

Southern encourages a broad educational social, cultural and recreational activity program with opportunities for all students to participate. Organizations are encouraged to round out the student's educational experiences by helping him learn how to plan and to carry out responsibilities, how to work with others, how to make use of leisure time, and how to develop leadership traits. There are 240 campus organizations. Information on these organizations and activities may be obtained from the Activities Development Center.

Student Union Program

The hub of student activity on the Carbondale Campus is the Student Union and on the Southern Acres Campus, the Student Center. Five student committees plan a program of activities -- social, recreational and educational in nature -- for the two student centers. Office space and other facilities are available to assist campus organizations. Southern's Student Union is a member of National Association of Student Unions and enters into its intercollegiate competition in billiards, bowling and bridge.

Student Government

The official governing organization for students is the Student Council. The Council represents students in matters pertaining to student welfare, student activities, student participation in University planning and administration, and student opinions. The student government consists of a president and vice-president elected by the student body, four class presidents and senators elected from 11 living and interest areas.

Social Senate, a standing committee of the Student Council composed of representatives from governing groups of major living units and all-campus organizations, is responsible for approving all sales and money-making events of student organizations, for providing and encouraging a well-rounded social program on the campus, and for recommending changes in rules and regulations governing student social functions.

Students gain additional experience through governing groups for living centers. These include Residence Hall House Councils; Off-Campus House Councils; Pan-Hellenic Council; Interfraternity Council; Thompson Point Council, a co-ed governmental group; Men's Residence Halls Council, and Women's Residence Halls Council.

A Campus Journalism Council, composed of the president of the student body, three faculty members and three appointed students, controls student publications.

Religious Groups

An Inter-Faith Council, composed of an adult and a student from each religious organization on the campus sponsors "Religion-in-Life Week" and serves in an advisory capacity to the Office of Student Affairs on matters dealing with the religious life of students.

Religious groups at Southern include the Newman Club for Catholic students, Gamma Delta for Lutheran students, Wesley Foundation for Methodist students, the Christian Science Organization, the Unitarian Fellowship, the Baptist Student Union for Baptist students, the Canterbury Club for Episcopalian students, the Jewish Interest Group, and the Student Christian Foundation for students of several Protestant faiths.

Social Sororities and Fraternities. There are five national sororities -- Alpha Gamma Delta, Alpha Kappa Alpha, Delta Zeta, Sigma Kappa, and Sigma Sigma Sigma -- and nine national fraternities -- Alpha Phi Alpha, Delta Chi, Kappa Alpha Psi, Phi Kappa Tau, Phi Sigma Kappa, Sigma Pi, Sigma Tau Gamma, Tau Kappa Epsilon, and Theta Xi -- at Southern. Each year they sponsor a "Greek Week", compete in a "Greek Sing", and hold workshops and special events. Panhellenic Council, Interfraternity Council, and Inter-Greek Council serve as governing groups for these organizations.

SPECIAL EVENTS

New Student Orientation is a time set aside in the fall to help each new student prepare himself for his experiences in the University community. Approximately 150 upperclassmen act as student leaders for groups of 50 new students. Among other special events are: Homecoming; the Military Ball; the Theta Xi Variety Show; the Spring Festival, including the "Miss Southern" beauty contest; and the Harmony Show, featuring barbershop quartets and small group singing. During the Variety Show, "Service to Southern" awards are presented to students who have given outstanding service to the University.

During the spring, students also look forward to two special assemblies, Scholastic Honors Day and Activities Recognition Day. In the first, the students who have high scholastic averages are honored, and on the second day, tribute is paid to students who have been outstanding in co-curricular activities.

The Model United Nations Assembly is held during the winter term. It is designed to help students understand vital current world issues which the U. S. Government faces and the role of the United Nations in international affairs. Each group's delegation represents a member country.

Student Values Week is sponsored by the Student Council during the winter term. Speakers, discussions, and special programs are held to stimulate each student to re-evaluate the development and impact of values on his daily life and decisions.

COUNSELING AND TESTING CENTER

Tests given under the supervision of specialists help the student measure his occupational interests, vocational aptitudes, general scholastic achievement, study habits, reading skills, social adjustment and personality traits. Also available is a file of selected booklets and pamphlets regarding vocational opportunities, educational benefits for veterans and Selective Service regulations. High school seniors may receive counseling concerning their future education.

Tests of General Educational Development are administered by the Testing Service the first Friday and Saturday of each month except September. Residents of Illinois at least 21 years old are eligible to take the tests as a means of qualifying for a high school diploma.

FINANCIAL ASSISTANCE CENTER

Southern Illinois University's program of financial assistance includes scholarships, awards, prizes, grants-in-aid, private agency awards and student loan funds. These include 258 University Scholarship and Activity Awards, and Illinois State, Illinois Teacher Education, and Military Scholarships. (Continued on page 24.)

The National Defense Student Loan Program, established during the spring quarter of 1959, created for the first time a substantial loan fund from which needy and deserving students can borrow money for educational expenses over an extended period. From April through June of 1959, 61 students borrowed \$25,725.

For students in need of financial assistance of a temporary nature, 2,100 loans were negotiated in the amount of \$48,924.60. These loans were administered from a total loan principal of \$17,596.12 available in 20 loan funds.

STUDENT EMPLOYMENT

During the academic year, over 3,000 students are employed on Southern Illinois University's work-study program for capable, needy students, with most payrolls showing about 2,000 students per month. Another 1,200 to 1,400 students work off-campus for area employers. Thus, during the academic year, more than 60 percent of the University's enrolled students participate in part-time employment to defray part or all of their college expense.

The Student Work Office is a referral agency and does not guarantee employment, but every effort is made to help students find jobs, especially those students with extreme financial need and high academic potential as indicated by their high school records. Students who participate on the campus work program are paid from \$.30 to \$1.15 per hour depending on the type of work, qualifications, and experiences of the student. The recommended maximum work load for students carrying a full academic load is 80 hours per month.

HEALTH CENTER

When a student pays his activities fee he is entitled to receive medical care and attention at the University Health Center. This includes diagnostic facilities and treatment for illness while on the campus. Primary purpose of the Health Center is to cultivate in students both physical and emotional health. Qualified physicians and registered nurses comprise the staff.

HOUSING

In housing students the University is responsible for developing and operating University facilities to provide excellent food, comfortable and usable study and sleeping facilities, and adequate counseling and referral services, and also encouraging other agencies to meet these same standards. But beyond that, Southern Illinois University is experimenting with ways to fuse the experiences of living with the learning that must go in higher education.

It is the purpose and goal of the University to provide more than mere shelter in its housing program. It is hoped that the housing program may serve as a direct adjunct and supplement to the academic and intellectual endeavors of the individual student.

Assignments to University residences are made on a first-come, first-served basis. The exception to this is that a few spaces are reserved for some students from other countries and students receiving rehabilitation aid. Further, it is the policy of the University to reserve 50 percent of available spaces in the residence halls for incoming freshmen to be filled on a first-come, first-served, basis.

The rates charged by the University for the various housing units are established on the basis of current costs. A sincere effort is made to keep these costs at a minimum. Nevertheless, all rates for University housing are subject to change from time to time upon a reappraisal of the cost structure and these changes are subject to being made after approval by the board of trustees.

The National Defense Science and Engineering Graduate Fellowship Program, established during the early years of 1955, created for the first time a substantial pool of funds which made possible the awarding of fellowships to graduate students in the field of defense research. From April through June of 1955, an estimated 1,000 fellowships were awarded.

For students in need of financial assistance, a temporary fund of \$1,000,000 was established in the summer of 1955. This fund was established from a total loan principal of \$1,000,000 available in 50 equal installments.

STUDENT ASSISTANCE

During the academic year, over 1,000 students are employed on Southern Illinois University's campus for various projects for research, teaching, and other purposes. Showing about 1,000 students per month, Southern Illinois University has a total campus for all employees. Thus, during the academic year, more than 10 percent of the University's enrolled students participate in part-time employment to help pay or all of their college expenses.

The Student Work Office is a temporary agency and does not guarantee employment, but every effort is made to help students find jobs, especially those students who are employed in the field of defense research. The office is located at the University's main campus and is open to all students. The office is open to all students and is open to all students. The office is open to all students and is open to all students. The office is open to all students and is open to all students.

STUDENT COUNCIL

After a student pays his tuition fees, he is entitled to receive medical care and attention at the University Health Center. This includes diagnostic facilities and treatment for illness while on the campus. Primary purpose of the Health Center is to provide for students both physical and emotional health. Qualified physicians and registered nurses conduct the work.

HOUSING

In housing students, the University is responsible for developing and operating a housing program to provide excellent food, comfortable and useful study and living facilities, and adequate maintenance and recreational services, and also to encourage other students to meet these same standards. The program is designed to provide a living environment for all students in higher education.

It is the purpose and goal of the University to provide more than just shelter in its housing program. It is hoped that the housing program may serve as a catalyst for the development of the academic and intellectual endeavors of the individual student.

Assignments to University residences are made on a first-come, first-served basis. The University has a list of rooms reserved for students from other countries and students receiving rehabilitation and treatment at the University. The University has a list of rooms reserved for students from other countries and students receiving rehabilitation and treatment at the University. The University has a list of rooms reserved for students from other countries and students receiving rehabilitation and treatment at the University.

The rules established by the University for the various housing units are established on the basis of current needs. A housing program is made to meet these needs on a continuing basis. All rules for University housing are subject to change and are subject to change. All rules for University housing are subject to change and are subject to change. All rules for University housing are subject to change and are subject to change.

Single-Student University Residences

Chautauqua Street Apartments provide a limited number of unfurnished apartments adjacent to the main campus.

Cooperatives. At present, two areas have facilities for cooperative housing. There are apartments for men and women in the Chautauqua and Southern Acres areas. These apartments are designed for students who wish to do their own cooking and janitorial maintenance. The number of such apartments is limited.

Dowdell Halls are temporary buildings for 209 men.

Fraternity-Sorority Housing. At present the University provides four houses for sororities and five for fraternities in the Small Group Housing Area. These units are owned and administered by the University.

Illinois Avenue Halls is a temporary structure for 52 men students.

Southern Acres Halls are two men's residence halls at the Southern Acres campus housing 267 men. This temporary residential facility is primarily for students enrolled in the Division of Technical and Adult Education.

Thompson Point Halls provide six residence halls in Thompson Point residence area. Each of these permanent halls accommodate 123 students. Four of the existing halls now house men and two house women.

Woody Hall is a permanent facility housing 422 women

Residential Facilities for Married Students.

Chautauqua Street Apartments also provide a limited number of unfurnished apartments adjacent to the main campus for married students.

Southern Acres Apartments located on the Southern Acres Campus ten miles east of Carbondale are composed of temporary buildings. Apartments range from one to three bedroom units. All are unfurnished.

The Southern Hills Apartments are the first attempt by the University to provide permanent accommodations for married students. Three types of apartments are available in this area: two bedroom, one bedroom, and efficiency units. All apartments in the Southern Hills area are furnished.

A Trailer Court area is designed for the rental of trailer parking and use. Besides the rent, charges are made for laundry facilities, heat, and electricity. This residential area is located adjacent to the Southern Hills apartment area, east of the main campus.

Other Residential Facilities

Off-Campus Housing - The University also attempts to provide information to students on off-campus housing facilities. Lists of vacancies for single and married students interested in off-campus housing are available in the Housing Center.

Approved housing must meet minimum sanitation and safety standards as established by the University. Signed contracts with householders are often required. Among the listings of off-campus facilities in the Housing Center will be those of organized houses which elect officers and carry on group activities.

General Information

General Information is a list of the various facilities and services available to the students.

At present, the main facilities for cooperative living are the dormitories for men and women in the University and the various facilities for the students who are not in the dormitories. The number of such facilities is limited.

Individual facilities are temporary buildings for 300 men.

Individual facilities are temporary buildings for 300 men. The number of such facilities is limited.

Financial Considerations

Costs are subject to change without notice. The present yearly rates for University housing vary from \$656 for permanent residence halls to "room only" charges of \$238 for group housing, and \$135 to \$162 for temporary housing, depending on room and area.

Family housing rates vary from \$75 per month plus utilities in the two-bedroom apartments, through \$36.50 to \$46.50 for temporary units, to \$19 for trailer court space.

Off-campus yearly rates vary from \$175 to \$275 depending on size, distance from campus, number of roommates, number of privileges (such as cooking), and other factors.

ATHLETICS

Southern Illinois University offers a well-rounded program of varsity athletics with football and cross country in the fall; basketball, swimming, gymnastics, and wrestling in the winter; and baseball, track, golf, tennis, and spring football in the spring. Each year more than 400 men compete in one or more of these varsity sports.

Dr. Donald N. Boydston, head of SIU's health education department, became athletic director in 1957. A former standout athlete at Oklahoma State, Dr. Boydston was head of the graduate program in health and education at the University of Mississippi before coming to SIU in 1955.

Dr. Boydston and the athletic department follow a policy of placing the individual as most important in an athletic program, with results never coming before the welfare of an individual member of an athletic squad. Participation is stressed, and to this end regular schedules in football and basketball are arranged for junior varsity and freshman teams.

Assistant athletic director Bill Brown joined the SIU staff in 1957. Before coming to Southern he was on the staff of West Frankfort high school for 14 years as coach, athletic director, and head of the physical education department.

COACHES

Members of the Saluki coaching staff are: Ralph Casey, head swimming coach; Robert Franz, football line coach and assistant wrestling coach; Harry Gallatin, head basketball coach; Lynn Holder, head golf coach and graduate manager of athletics; George Lubelt, freshman basketball coach; Carmen Piccone, head football coach; John R. Lefevre, head tennis coach; Leland P. (Doc) Lingle, track and cross country coach; Glenn (Abe) Martin, head baseball coach and head of intramurals; William Meade, head gymnastics coach; Paul Tretiak, assistant basketball coach; Andrew Vaughn, athletic field representative; and James Wilkinson, head wrestling coach. Graduate assistants each year also play an important part in the coaching of SIU's 10 varsity sports.

Robert Spackman is head trainer and physical therapist. John Grimes is equipment manager, and George Lubelt heads the student work program.

FACILITIES

Southern's football and track teams compete at McAndrew Stadium, which is named for the late William McAndrew, SIU's athletic director from 1913-1943. The stadium has a permanent seating capacity of 8,543 with temporary bleachers boosting the total to 12,000.

REMARKS

The manuscript is in the hands of the University of Chicago Library. The manuscript is in the hands of the University of Chicago Library. The manuscript is in the hands of the University of Chicago Library.

Southern has a well-lighted athletic field. On eight steel poles are 192-1,000 watt bulbs plus lights at the entrances and behind the stadium. The SIU track is a one-fourth mile oval with a 220-yard straightaway.

The new cross country course is around Thompson Lake and Thompson Point residence halls area with meets beginning and ending in the stadium.

Basketball, wrestling, and gymnastics contests are held in the 1,584-seat Men's Gymnasium. The basketball playing floor is 50 by 94 feet. The temporary baseball field is off West Chautauqua street one-fourth mile west of the main campus. Three tennis courts are located at the northwest entrance to the stadium, and three practice courts are located east of the gymnasium.

Golf teams play on the nine-hole course at Jackson Country Club midway between Carbondale and Murphysboro. The University swimming pool (5 lanes by 75 feet) is in the physical education wing at University School.

THE SALUKI -- Southern's mascot -- is a descendant of the famous Saluki hunting dog which dates back to Egypt and other nearby countries. Renowned for speed and endurance, it is the oldest pure breed in the world, records of its existence dating back to 3600 B. C. The Saluki, which is similar in appearance to a Greyhound, was adopted as SIU's sports symbol in 1951. Prior to that, Southern's teams were called "Maroons."

Southern's first mascot, King Tut, was killed by a car in 1954. At the 1956 Homecoming football game, W. W. Vandever, an SIU alumnus and president of the Ashland Oil Co., presented Southern with two pure-bred Salukis, a male, Burydown Datis, who was whelped in England, and a female, Ornah Farouk of Pine Paddocks, a direct descendant of a champion from the kennels of King Ibn Saud of Saudi Arabia.

IIAC HISTORY

Membership. Southern is a member of the Interstate Intercollegiate Athletic Conference (IIAC), which also includes Northern Illinois (DeKalb), Eastern Illinois (Charleston), Western Illinois (Macomb), Illinois Normal (Normal), Central Michigan, (Mt. Pleasant, Mich.), and Eastern Michigan (Ypsilanti, Mich.).

SIU also is a member of the National Collegiate Athletic Association (NCAA) and the National Association of Intercollegiate Athletics (NAIA).

Intramurals. Southern's intramural program, which began in the 1920's, has now mushroomed until it includes about 1,400 men and 500 women students each year. An intramural student board helps govern and administer the program. Trophies are awarded to team champions and other awards go to winners of individual sports. The 16 activities now included in the varied program are touch football, corkball, golf, tennis, ping pong, badminton, horseshoes, volleyball, shuffleboard, free throw shooting, basketball, softball, swimming and diving, and track and field, wrestling and bowling.

NOTE: Each season (fall, winter, and spring), sports information brochures are available for persons interested in detailed information about Southern's varsity sports. Those desiring copies should write Bill Young, Sports Information Director, SIU Information Service, Carbondale.

The first group consists of those who are not yet 18 years of age. This group is the largest and is made up of children and young people. The second group consists of those who are 18 years of age or older. This group is the smallest and is made up of adults.

The third group consists of those who are 18 years of age or older and who are not yet 21 years of age. This group is the smallest and is made up of young adults.

The fourth group consists of those who are 21 years of age or older. This group is the smallest and is made up of adults. The fifth group consists of those who are 21 years of age or older and who are not yet 25 years of age. This group is the smallest and is made up of young adults.

The sixth group consists of those who are 25 years of age or older. This group is the smallest and is made up of adults. The seventh group consists of those who are 25 years of age or older and who are not yet 30 years of age. This group is the smallest and is made up of young adults.

The eighth group consists of those who are 30 years of age or older. This group is the smallest and is made up of adults. The ninth group consists of those who are 30 years of age or older and who are not yet 35 years of age. This group is the smallest and is made up of young adults. The tenth group consists of those who are 35 years of age or older. This group is the smallest and is made up of adults.

The eleventh group consists of those who are 35 years of age or older and who are not yet 40 years of age. This group is the smallest and is made up of young adults. The twelfth group consists of those who are 40 years of age or older. This group is the smallest and is made up of adults. The thirteenth group consists of those who are 40 years of age or older and who are not yet 45 years of age. This group is the smallest and is made up of young adults.

Page 11

The fourteenth group consists of those who are 45 years of age or older and who are not yet 50 years of age. This group is the smallest and is made up of young adults. The fifteenth group consists of those who are 50 years of age or older. This group is the smallest and is made up of adults. The sixteenth group consists of those who are 50 years of age or older and who are not yet 55 years of age. This group is the smallest and is made up of young adults.

The seventeenth group consists of those who are 55 years of age or older. This group is the smallest and is made up of adults. The eighteenth group consists of those who are 55 years of age or older and who are not yet 60 years of age. This group is the smallest and is made up of young adults.

The nineteenth group consists of those who are 60 years of age or older. This group is the smallest and is made up of adults. The twentieth group consists of those who are 60 years of age or older and who are not yet 65 years of age. This group is the smallest and is made up of young adults. The twenty-first group consists of those who are 65 years of age or older. This group is the smallest and is made up of adults.

The twenty-second group consists of those who are 65 years of age or older and who are not yet 70 years of age. This group is the smallest and is made up of young adults. The twenty-third group consists of those who are 70 years of age or older. This group is the smallest and is made up of adults. The twenty-fourth group consists of those who are 70 years of age or older and who are not yet 75 years of age. This group is the smallest and is made up of young adults.

UNIVERSITY CALENDAR, 1961-62

- WINTER QUARTER, 1961: term begins, Tuesday, January 3; final examinations, Monday-Saturday, March 13-13.
- SPRING QUARTER, 1961: term begins, Monday, March 27; Memorial Day holiday, Tuesday, May 30; final examinations, Wednesday-Tuesday, June 7-13; commencement, Wednesday, June 14.
- SUMMER SESSION, 1961: term begins, Monday, June 19; Independence Day holiday, Tuesday, July 4; final examinations, Wednesday-Thursday, August 9-10; commencement, Friday, August 11. (If the Summer Session is expanded to a full term, the quarter will end on Friday, September 1).
- FALL QUARTER, 1961: New Student Week, Sunday-Tuesday, September 17-19; term begins, Wednesday, September 20; Thanksgiving recess, Wednesday at noon to Monday, 8 a.m., November 22-27; final examinations, Monday-Saturday, December 11-16.
- WINTER QUARTER, 1962: term begins, Tuesday, January 2; final examinations, Monday-Saturday, March 12-17.

- - - - -

BACKGROUND: SOUTHERN ILLINOIS UNIVERSITY

Southern Illinois University emphasizes teaching, research and area services. Southern was chartered as Southern Illinois Normal University in 1869. Its first classes met July 2, 1874. It remained a normal school and a teachers college until July 1, 1943, when the General Assembly granted it the powers of a university. The name was changed to Southern Illinois University by legislative action in 1947. On July 1, 1949, the "Diamond Jubilee" anniversary of the opening of the school, the university entered into a new period of development under a separate governing board of trustees, appointed for two years. The first permanent board was appointed August 30, 1951.

PRESIDENT MORRIS

Dr. Delyte Wesley Morris was born at Xenia, Illinois, April 11, 1907. Educated in the public schools of Xenia and Flora, he obtained the bachelor's degree from Park College, Parkville, Missouri; the master's degree from the University of Maine; and the doctor of philosophy degree from the University of Iowa. He taught in a public school in Oklahoma, the University of Maine, the Junior College of Kansas City, Missouri, the Indiana State Teachers College, Terre Haute, Indiana; and Ohio State University, where he served as professor of speech and director of the Speech and Hearing Clinic. He came to Southern as eighth president on September 10, 1948. Dr. Morris was inaugurated May 5, 1949.

- - - - -

SOUTHERN'S PAST PRESIDENTS

Robert Allyn, 1874 - 1892
John Hull, 1892 - 1893
Harvey William Everest, 1893 - 1897
Daniel Baldwin Parkinson, 1897 - 1913

Henry William Shryock, 1913 - 1935
George Dorritt Wham, 1935 (acting)
Roscoe Pulliam, 1935 - 1944
Bruce Welch Merwin, 1944 - 1945 (acting)
Chester F. Lay, 1945 - 1948

1891

LOCATION

The central campus of Southern Illinois University is situated attractively in Carbondale, Jackson County, a community of 15,000 located 100 miles southeast of St. Louis. Here is a crossroads transportation center where two important highways, U.S. 51 and State Route 13, intersect; where the Illinois Central railroad has a division point with the St. Louis branch joining the mainline; where north-south and east-west bus connections are good; and where adequate airport facilities are available. Southern Illinois Airport, adjacent to the west city limits and now operated by the SIU auxiliary enterprises division since the University purchased the airports physical facilities (excepting land and permanent improvements) in 1960, provides air taxi connections with airlines and facilities for flight instruction, training in aircraft maintenance, and weather station operation work. The Williamson County airport near Herrin, 15 miles east, is a stopping point for Ozark Airlines planes.

In addition to the campus at Carbondale, the University includes the Southwestern Illinois campus at Edwardsville with residence centers at Alton and East St. Louis; a Vocational Technical Institute at its Southern Acres campus 11 miles east of Carbondale; and an outdoor education campus at Little Grassy Lake six miles southeast of Carbondale.

The following permanent buildings, are in use at the Carbondale campus, and others are under construction or planned:

Buildings erected prior to developments of the last decade:

Old Main	1837	Anthony Hall	1913
Altgeld Hall	1896	Shryock Auditorium	1916
Wheeler Building	1903	Gymnasium	1925
Allyn Building	1908	Parkinson Laboratory	1928
		McAndrew Stadium	1938

Completion date and cost of permanent buildings since 1938:

Power plant	1949	\$880,119
Service Shops, No. 1	1951	502,784
University School	1951	4,162,332
(Includes cost of Physical Education wing and Industrial education wing completed in 1954)		
Service Shops, No. 2 (garage)	1953	203,954
Woody Hall	1953	1,972,811
Life Science	1954	1,761,517
(Includes greenhouses, animal house, and substation)		
Morris Library	1956	2,447,615
(First stage)		
Thompson Point Residence Halls	1956-57	4,600,000
(Six 120-bed units and student services center)		
Agriculture Building	1957	1,773,450
Browne Auditorium	1959	200,304
(Parkinson building addition, lecture hall)		
Home Economics building	1959	2,200,000
(First stage, 60 percent completed)		
Family Apartment buildings	1959-60	1,479,136
(Eight units providing housing for 128 families)		
Student Group Housing units	1959-60	1,916,695
(Nine small residence halls for housing 405 students)		

Location -- continued

Construction is underway on a \$4½ million University Center. Altgeld Hall has been remodeled for the music department. A trailer court with 53 rental spaces was completed last year on Wall Street and doubling the capacity is contemplated. Construction of additional housing units for single and married students will begin in 1961 under self-liquidating financing programs. Until additional space is available, the University is making use of nearly 100 temporary buildings. Some of these are converted residences; others were built originally as army barracks and have been transported to the campus for badly needed office, classroom, dormitory, and storage space.

PERSONNEL

The University has a full-time faculty and administrative staff of 1331, including graduate fellows and graduate teaching and research assistants assigned to departmental staffs on the basis of high scholarship and promise in graduate work. Part time academic employees total 91. The University staff includes 586 full-time and 42 part-time non-academic employees. Among faculty classifications are adjunct professor and research associate, titles given to individuals with special skills who serve the University without salary through consultation and cooperative research programs.

UNIVERSITY SERVICES

AREA SERVICES DIVISION. As the only fully-accredited institution of higher learning in the 32 southern counties of Illinois, SIU has special obligations to its region and therefore attempts to make its facilities available to various community, county, and regional groups. This work is carried on through the Area Services Office and its affiliated agencies -- Alumni Service, the Department of Community Development, Information Service, and Placement Service. Meetings and conferences on the campus under the sponsorship of responsible off-campus organizations and groups are arranged through Area Services. This office provides various programs and activities for communities of the area, and it draws upon those resources of the University which may be useful to the citizens of Southern Illinois. Area Services works closely with federal, state and private groups interested in the region, including tourist associations, fish and wildlife departments, small business groups, and public welfare agencies.

ALUMNI SERVICE is concerned with creating and maintaining a bond of interest between the University and more than 21,500 graduates and former students through an Alumni Association, the organizing of local alumni clubs throughout the nation (there are 40 of these), publishing the Southern Alumnus, and gathering, filing and disseminating information about former students at Southern. The 1960-61 Association president is George T. Wilkins, Springfield.

INFORMATION SERVICE is the official news agency for the University, releasing information of general interest about activities of the University, its students and faculty to newspapers, radio and television stations, and periodicals.

PLACEMENT SERVICE is maintained for the benefit of students and SIU graduates who are seeking employment in the teaching fields, in the professions, or in business and industry. Provision is made for interviews by employers and for maintaining and submitting records.

AUDIO-VISUAL DEPARTMENT. Southern's film library of nearly 4,000 motion picture films and many additional film strips is serving the needs of more than 800 schools and adult organizations. New films constantly are being added to the library to meet ever-increasing needs. The audio-visual service is a department of the University library where it is located. It has two primary functions -- on-campus and area services. Campus users are provided with various types of projection service when needed. Films from Southern's library and many from other sources are provided for campus and extension classes and for schools and organizations in Illinois and adjacent areas in Missouri and Kentucky. Consultation service to help schools with their audio-visual programs is provided. Programs for county teacher institutes are provided.

CHILD GUIDANCE CLINIC. The Child Guidance Clinic studies cases of children and adolescents having difficulty with school work, emotional adjustments, attitudes and personality conflicts. A Department of Guidance offers special consultant services to schools for initiating and upgrading guidance and testing programs.

COMPUTING CENTER. The Computing Center serves the instructional and research agencies through its punched-card computing machinery and technical assistance for activities requiring complicated or time-consuming computing processes.

COOPERATIVE CLINICAL SERVICES CENTER. The Cooperative Clinical Services Center at SIU brings campus clinicians and therapists of all kinds under one service roof to aid the handicapped. The unit provides multiple services both to handicapped students and area residents by drawing on the treatment specialties of a number of campus agencies and departments: the Child Guidance Clinic, Psychology, Rehabilitation Institute, Special Education, Speech and Hearing Clinic, Sociology (marriage counseling), Reading Center, Counseling and Testing, Physical Education, and others. The Clinic staff, including physical therapists, speech correctionists and graduate assistants, as well as outside consultants and experts, serves parttime on an appointment basis at the Clinical Center Building on Lake and Chautauqua Streets.

The DEPARTMENT OF COMMUNITY DEVELOPMENT was established in 1953 under the direction of Richard W. Poston, who has won international recognition by "helping communities help themselves" through comprehensive study and action programs in which citizens from all walks of life band together to fight community problems. Poston is now a research professor attached to the SIU Graduate School and the department is headed by Robert E. Knittel. By the start of 1960, Knittel and his 14 field representatives were assisting local development efforts in a score of Illinois communities, ranging from East St. Louis, an industrial city of 82,000 to several small rural counties across the state on the Ohio River.

EDUCATIONAL RESEARCH BUREAU. As an outgrowth of recommendations by school administrators, the College of Education established the Educational Research Bureau for working with schools in matters of district reorganization, plant construction, curriculum, and other problems through the organized approach of school surveys or by consultative services. Arrangements are made for services to be provided on a daily-fee or on a contractual basis. No charge is made for the initial visit to a school. Inquiries may be directed to Dr. Jacob Bach, head of the bureau.

EMPLOYMENT EVALUATION AND TRAINING PROJECT. A vocational training program for mentally retarded adolescents is conducted at the Southern Acres campus in cooperation with the Illinois Division of Vocational Rehabilitation. Purpose of the program is to "reclaim" mentally retarded adolescents and help them compete for jobs with normal persons. The project is directed by SIU's Department of Special Education under Oliver D. Kolstoe.

University Services -- continues

OCCUPATIONAL TRAINING WORKSHOP. Supported by the SIU Division of Area Services, the Occupational Training Workshop operates in quarters at the Ordill industrial area, providing semi-sheltered work conditions for the handicapped. The Workshop produces a number of items under contract, giving workers actual on-the-job employment and serving as a "proving ground" for their abilities.

SPEECH AND HEARING CLINIC offers examinations and therapy to area children and adults who have speech defects such as stuttering, cleft palate, articulatory difficulties, or cerebral palsy. Also offered is a program for the hard of hearing which includes auditory training, lip reading, speech conversation, testing of hearing, and the fitting of hearing aids. The clinic cooperates with other agencies including the Division of Services for Crippled Children, the Easter Seal Agency, the Department of Public Welfare and other related service agencies.

GENERAL PUBLICATIONS OFFICE, created in 1959, is responsible for editing, designing, producing, and distributing the University's bulletin series, and gives advisory, editorial, and design assistance on other official publications of the University.

LOCAL GOVERNMENT CENTER. Organized as a part of the Public Affairs Research Bureau, the Center provides assistance to local government officials. Its purposes are to prepare publications concerning local government, to help analyze and solve governmental problems, and to build a competent library to provide information to civic groups.

PHOTOGRAPHIC SERVICE is staffed and equipped to serve nearly every photographic need of the University for news, publicity, teaching aids, photocopying, exhibits, portraits, identification photos, campus publications, color photography, and motion pictures. Courses in photography are taught under the department of printing and photography in the School of Communications.

PRINTING SERVICE performs a multitude of duplicating and printing services for the University. Art services are provided to student groups and university departments and agencies for publications, posters, and graphic material by the Printing Service as desired.

PSYCHOLOGICAL SERVICES CENTER provides professional services to University students, to community adults and children, and to industries of the area. Psychological counseling and personality appraisal, including the use of different types of psychological tests, are provided for the purpose of assisting individuals with personal-social problems. The Center also provides consultation services to University and community agencies and interested groups on the psychological aspects of child-parent relationships, adolescent development, and other areas of personal and social significance.

RADIO-TELEVISION SERVICE. Providing both educational and area service functions in the field of radio and television is the University's radio-television department. It has radio studio and transmission facilities for teaching courses in this field and supervises Southern's FM radio station WSIU (91.9 mc.) which was activated in September, 1958, and is operated as a student training facility in all phases of program production and broadcasting. The agency also provides programs by or about the University's students, faculty, and activities to area radio and television stations and provides consultation to other University departments. The agency also supervises the University's public address systems.

The Federal Communications Commission has assigned to the University Channel 8 for an educational television station which now is in the process of activation since the release of funds in December, 1960, for constructing the tower and transmitting facilities.

UNIVERSITY OF TORONTO LIBRARY
The University of Toronto Library is pleased to announce that it has acquired a number of books from the collection of the late Dr. J. H. Green, who was a member of the faculty of the University of Toronto from 1925 to 1965. The books are in the field of Canadian history and are of great value to the library.

The books are in the field of Canadian history and are of great value to the library. They include a number of books on the history of the province of Ontario, and on the history of the University of Toronto. The books are in the field of Canadian history and are of great value to the library.

The READING CENTER, recently established in the College of Education, helps students improve reading skills and study habits, and serves as a laboratory for teachers in training as reading specialists. Referrals are accepted from area schools and consultant services in reading are available to elementary and secondary schools.

STATISTICAL SERVICE operates a tabulating office equipped with modern punchcard machines and is maintained as a service unit for campus offices and departments. The office is concerned with processing data concerning Southern Illinois and the programs and activities of the University.

STENOGRAPHIC SERVICE performs mimeographing, duplicating, automatic typewriting, and other stenographic work for University departments and offices.

TEXTBOOK SERVICE. A textbook rental system operated through the University Textbook Service simplifies the book problem for the student. The service rents an average of five books per student enrolled. This amounts to more than 50,000 books per term. The stock of textbooks totals more than 100,000. The Textbook Service is a part of the University Library and occupies facilities in the basement of Southern's new library building. It serves campus, residence center, and extension division students.

UNIVERSITY ARCHITECT is responsible for recommending plans for all phases of design, construction, and landscaping of new and existing University buildings.

UNIVERSITY PRESS, established in 1953, is a book publishing agency of the University, issuing books of general and educational interest by SIU staff members as well as other scholars and authors.

UNIVERSITY INSTITUTES

A number of Institutes are being established at Southern Illinois University to serve special areas of interest through educational programs and advisory services. The educational program is comprised of a course of study utilizing work in a number of related departments of the university.

COMMUNITY DEVELOPMENT INSTITUTE was established in June, 1956, to meet the shortage of professional personnel in that domain. It is one of the first special curricula in community development offered anywhere in the nation. Those now engaged in the work are graduates of liberal arts schools, sociologists, teachers, economists, city planners, and others. The Institute adapts college curricula and extensive field work to this activity, and the training program also is valuable for students interested in careers in social agencies youth leadership, technical assistance overseas, and the like.

LATIN AMERICAN INSTITUTE, activated in 1958, provides a major in Latin American Studies in the College of Liberal Arts and Sciences, a step in the Institute's plan to help change attitudes toward Latin Americans and create better understanding. Plans also include research, promotion of greater exchange of faculty and students between SIU and Latin American colleges, and advisory services to businesses desiring to operate in Latin American countries.

LABOR INSTITUTE. The Labor Institute provides educational opportunities for those working in the field of labor organization and also plans programs for students seeking careers in this field. Administration of apprentice training programs (through the Division of Technical and Adult Education), implementing joint labor-management committees, and providing consultative service to area labor groups are among the Institute's functions.

The first of these is the fact that the United States is a young nation, and that its history is a history of growth and development. It is a history of a people who have been able to overcome many difficulties and to build a great nation out of a small colony.

The second of these is the fact that the United States is a nation of immigrants. It is a nation of people who have come from many different parts of the world, and who have brought with them their own customs and traditions. This has made the United States a melting pot of different cultures and peoples.

The third of these is the fact that the United States is a nation of pioneers. It is a nation of people who have been able to overcome many difficulties and to build a great nation out of a small colony.

The fourth of these is the fact that the United States is a nation of freedom. It is a nation of people who have been able to overcome many difficulties and to build a great nation out of a small colony. It is a nation of people who have been able to overcome many difficulties and to build a great nation out of a small colony.

The fifth of these is the fact that the United States is a nation of progress. It is a nation of people who have been able to overcome many difficulties and to build a great nation out of a small colony.

The sixth of these is the fact that the United States is a nation of peace. It is a nation of people who have been able to overcome many difficulties and to build a great nation out of a small colony.

It is a nation of people who have been able to overcome many difficulties and to build a great nation out of a small colony.

REHABILITATION INSTITUTE. The purpose of the Rehabilitation Institute, established in 1957, is to co-ordinate and augment the training of college students and other field workers interested in counseling with or providing services for the handicapped. This function is carried out through a program of instruction which co-ordinates the efforts of departments within the University in the developing of rehabilitation counseling curricula, through consultant services to community agencies in the general area of rehabilitation, and through theoretical and practical research bearing on the methods and techniques of rehabilitating the handicapped.

The instructional program is divided into four general areas:

Rehabilitation Counselor Training. A two-year graduate program leading to a Master's degree in Rehabilitation Counseling. A limited number of traineeships are available for qualified applicants.

Placement Counselor Training Program (Blind). A six-week course limited to professional personnel working with the blind, and designed to develop skill for placing the blind in competitive occupations. Stipends are available for some of the qualified trainees.

Annual Institute for Rehabilitation Personnel. A two-week short course designed for workers engaged in either rendering direct service to the handicapped and/or in organizing the community to recognize and assume its responsibility for the handicapped.

In-Service and Community Education. A series of training courses and seminars are conducted jointly with various public and private institutions and agencies.

The Institute also provides consultant services to the Co-ordinated Services for Handicapped Students, a campus agency responsible for co-ordinating University activities relating to the handicapped student. In addition, counseling is available for both students and residents of the area.

SMALL BUSINESS INSTITUTE was established in 1954 to stimulate training of students interested in going into business for themselves in Southern Illinois through actual course work and on-the-job training. Other aims are to provide technical advice on small business operations and to establish effective contacts between the businessman and the professional staff of SIU. Two committees are: a Council of Small Business, composed of representatives of business, industry, banking, labor, law, agriculture, and education, which cooperate with regional, civic, and community groups in aiding the development and financing of small business operations; and an informal faculty committee to contribute to the instructional, research or educational service programs of the Institute.

TRANSPORTATION INSTITUTE: The Transportation Institute provides educational opportunities for those working in various phases of transportation -- aviation, waterways, bus, rail, truck lines, etc. Short courses are provided on periodic basis.

ACADEMIC STANDING

Southern is accredited by the Commission on Colleges and Universities of the North Central Association in Group IV (as a university), the American Association of Colleges for Teacher Education, the Association of American Colleges, and the National Association of Schools of Music.

BUDGET AND APPROPRIATIONS

The state General Assembly appropriates financial support to the University on a two-year basis. Most of the money comes from state tax revenues. In addition, the state appropriates the University's own income which, by law, must be deposited with the state treasurer (excluding auxiliary enterprises, handled locally).

The following state appropriations were made to the University for the 1959-61 biennium:

From State Tax Revenues:		
For Operation and Maintenance		\$29,817,000.00
For Permanent Improvements		400,000.00
For Scholarships		150,000.00
For Capital Additions:		
Land	\$ 575,000.00	
New Construction	3,575,000.00	
Rehabilitation and Renovation	1,700,000.00	
Contingencies	950,000.00	
Reappropriations of the Previous Biennium	<u>868,579.14</u>	<u>7,663,579.14</u>
TOTAL		38,035,579.14
From University Income:		
For Educational Operations		<u>1,910,000.00</u>
Total State Appropriations		<u>\$39,945,579.14</u>

ADMISSION REQUIREMENTS

To be eligible for admission, an applicant must be over 21 or be a graduate of a recognized high school. Graduates of non-recognized high schools may be admitted by examination. A person ranking in the lowest one-third of his high school graduating class will be permitted to enter on scholastic probation for the summer, winter, or spring quarters only. Exceptions to this rule for a student ranking in the lowest one-third of his graduating class may be made if he shows high scores on the University's entrance examinations, allowing him to enter in the fall quarter.

Application for admission should be made at the beginning of the student's last semester in high school. A record of preceding high school or college work is an admissions requirement. Questions concerning admission should be directed to the Office of Admissions. Students, other than those in the special classification above, are admitted four times a year: fall, winter, spring, and summer (See calendar, page 5)

A person over 21 who has not completed high school is required to pass the General Educational Development Test within the first period of his attendance at Southern. These tests are regularly offered the first Friday and Saturday of each month at the Office of Student Affairs.

The University reserves the right to change fees at any time. At present, the fees for a regular quarter (12 weeks) for a full-time (more than 8 quarter hours) student are:

Tuition	\$42.00
Student Activity Fee	9.50
Student Union building fund fee . . .	5.00
Book rental	<u>5.00</u>
Total	\$61.50

Fees for out-of-state students is an additional \$50.00 plus those listed above.

Thus, for the usual school year of 36 weeks, tuition and fees amount to \$184.50 or, for out-of-state students, \$334.50.

There are no additional charges for private lessons in music. The general activity charge includes fees for hospitalization, entertainment, athletics, the Obelish (yearbook), the Egyptian (newspaper), and other activities as may be provided.

AIR FORCE RESERVE OFFICERS' TRAINING CORPS

All male students, except those who have actively served in any of the Armed Forces six months or more, entering Southern as freshmen or sophomores are required to enroll in the basic Air Force Reserve Officers' Training Corps. In general, students will be exempt from this requirement if they are veterans, physically handicapped, or conscientious objectors, subject to the approval of the Military Policies Committee appointed by the University President.

When a student finishes his first two years of required AFROTC training, he may apply for admission to the advanced course. The advanced course consists of training problems peculiar to the Air Force and is designed to equip the student to assume the responsibilities of an Air Force officer. Upon graduation a student will be commissioned a Second Lieutenant in the United States Air Force Reserve and later called to active duty.

While a student is completing his junior and senior years in the AFROTC program he is entitled to an allowance of 90 cents per day. During their senior year, students who have volunteered and are qualified for pilot training receive 35 hours of flight instruction which qualifies them for a private pilot's license.

The current enrollment in the AFROTC at Southern is one of the top ten among for 174 institutions that carry the program. Volunteer AFROTC activities include the Honor Guard and Drill Team, the Singing Squadron, the Cadet Band, a championship rifle team, and an honorary society -- the Arnold Air Society. A women's auxiliary, the Angel Flight, also takes part in AFROTC activities.

GRADUATE SCHOOL

Graduates of fully accredited colleges and universities may pursue courses of study leading to a master's degree in arts, science, education, and fine arts. In addition there is a sixth year program in education leading to a certificate of specialist. Programs leading to the degree of doctor of philosophy are available in 11 selected areas. Southern Illinois University is accredited by the North Central Association of Colleges and Secondary Schools as an institution conferring the Master's degree.

COLLEGE OF EDUCATION

The College of Education provides professional training for teaching at all levels in the public schools, and for supervisors, administrators, and specialists. Departments in the College are: educational administration and supervision; elementary education; guidance (training educational, vocational and personal counselors for the public schools); health education; instructional materials (preparing teacher-librarians, audio-visual aids directors, and specialists in all instructional materials); physical education for men; physical education for women; recreation and outdoor education (training camp counselors, directors and specialists in recreation and outdoor education); secondary education; higher education, and special education (serving the needs of mentally and physically handicapped children through teacher training, consultative services, research and experimentation). The teacher training division offers student teaching in all departments, using the University School at SIU and qualified public schools in the area where potential teachers observe good teaching, make studies, and obtain practice. A reading center has been established to provide teachers with special training in reading and to assist teachers in service. Southern is one of the pioneer institutions of higher learning to develop a graduate internship program in the field of education in which the students work in a public school five days a week for a period of nine months. The program trains school administrators, supervisors, and teachers.

ALL the students, except those who are exempted by law, shall be required to attend the public schools of this county for a period of at least six months in each year, and the parents or guardians of such children shall be held responsible for the same. The school term shall be from the first day of September to the first day of June, and the school year shall be from the first day of September to the first day of August.

Every child between the ages of six and sixteen years, who is not exempted by law, shall be required to attend the public schools of this county for a period of at least six months in each year, and the parents or guardians of such children shall be held responsible for the same. The school term shall be from the first day of September to the first day of June, and the school year shall be from the first day of September to the first day of August.

It is the duty of the board of trustees of the public schools of this county to provide for the education of all children between the ages of six and sixteen years, who are not exempted by law, and to see that the same are properly educated. The board of trustees shall also be responsible for the maintenance and improvement of the public schools of this county.

The board of trustees of the public schools of this county shall have the power to make and alter the rules and regulations governing the conduct of the schools, and to see that the same are properly enforced. The board of trustees shall also have the power to make and alter the curriculum of the schools, and to see that the same are properly taught.

IN WITNESS WHEREOF, I have hereunto set my hand and the seal of the County of Dallas, this 1st day of September, 1901.

Witness my hand and the seal of the County of Dallas, this 1st day of September, 1901.

JOHN W. BROWN, County Clerk.

The board of trustees of the public schools of this county shall have the power to make and alter the rules and regulations governing the conduct of the schools, and to see that the same are properly enforced. The board of trustees shall also have the power to make and alter the curriculum of the schools, and to see that the same are properly taught. The board of trustees shall also be responsible for the maintenance and improvement of the public schools of this county.

COLLEGE OF LIBERAL ARTS AND SCIENCES

The College of Liberal Arts and Sciences provides for specialized education in the fields of instruction covered by its departments and is for students desiring general cultural courses as well as those planning to take pre-dental, pre-legal, pre-medical, pre-theological, pre-pharmaceutical, pre-veterinary, pre-public health or pre-occupational therapy courses. The College is also a service instructional unit for other Colleges, Schools and Institutes, serving both general and specialized educational needs of their students. The degree granted is the Bachelor of Arts.

SCHOOL OF AGRICULTURE

The School of Agriculture was created by state legislative action July 1, 1955, for instruction, demonstration, and consultation in agriculture, forestry, and other activities concerned with the rural development of Southern Illinois.

Following prolonged study, a reorganization plan creating departments in the School of Agriculture was instituted July 1, 1957. These are: the Department of Agricultural Industries (including vocational agriculture teacher education, agricultural economics and non-professional agricultural engineering), the Department of Animal Industries (including phases of agriculture dealing with farm animals), the Department of Plant Industries (including the soils and crops phase of agriculture), and the Department of Forestry, (offering a four-year program in forestry established January 1, 1958). The University farms, the Illinois Horticultural Experiment Station, the SIU-U. of I. Cooperative Agronomy Research Center are components of the school. A bachelor of science degree in agriculture and graduate programs leading to a Master of Science degree are offered. The School was approved in 1958 for training vocational agriculture teachers. A federal Small Fruits Research Station was activated in 1959 in cooperation with the U. S. Department of Agriculture. The University Farms of the School of Agriculture currently includes nearly 1,800 acres of farm land devoted to teaching, research, and demonstration in soils, crops, livestock, dairying, and poultry.

SCHOOL OF APPLIED SCIENCE

Establishment of a School of Applied Science, became effective July 1, 1959, and includes the Department of Industrial Education and the Department of Applied Science. The School provides instruction, demonstration, research, and consultation in the fields of mechanical, electrical, civil, industrial, and general engineering, offering work in pre-engineering and for a bachelor of science degree. The Industrial Education department prepares teachers of industrial education, vocational teachers of trades and industry, supervisors for industry, and manual arts therapists.

SCHOOL OF BUSINESS

The School of Business provides courses of instruction leading to bachelor and advanced degrees emphasizing such fields as accounting, business education, economics management, marketing, and secretarial studies. The School stimulates research and provides service work in these fields for other units of the University. The School publishes a quarterly Business Bulletin which is distributed widely to businessmen in southern Illinois. The School is organized into five departments: Accounting, Management, Marketing, Secretarial and Business Education and Economics.

SCHOOL OF COMMUNICATIONS

The School of Communications coordinates and facilitates the development of programs, provides instruction and stimulates research in the effective use of such communications media as public speaking, television, radio, newspapers and magazines, and provides service work in these fields for other educational units which require it. Components of the school are the departments of speech, speech correction, theater, radio-television, journalism, and printing and photography.

The history of Liberty and the Church provides an excellent example of the way in which the Church has been able to maintain its position as a moral authority in the face of the most powerful and hostile forces of the world. The Church has been able to do this because it has always been based on a firm foundation of faith and principle, and because it has always been able to adapt itself to the changing circumstances of the world.

CHARTER OF LIBERTY AND THE CHURCH

The Charter of Liberty and the Church is a document of great importance, and it is one which has been the subject of much discussion and debate. It is a document which has been the subject of much discussion and debate, and it is one which has been the subject of much discussion and debate.

The Charter of Liberty and the Church is a document of great importance, and it is one which has been the subject of much discussion and debate. SCHOOL OF FINE ARTS

The School of Fine Arts includes the departments of art, design, and music. Art students may major in pottery, painting, and printmaking, jewelry and silversmithing, sculpture, and weaving. Design students may major in visual design or in product-shelter design. The Department of Music is a member of the National Association of Schools of Music. It offers major programs in music theory, history and literature, piano, organ, voice, opera workshop, stringed instruments, wind instruments, percussion instruments, instrumental and vocal ensembles. The School of Fine Arts serves as an instrument for directing, training and stimulating creative and professional work for the other colleges, schools, departments and divisions of the University insofar as the departments are able to assist them in their programs.

SCHOOL OF HOME ECONOMICS

The School of Home Economics was established to furnish instruction, stimulate research and offer services which will help improve home and family life in the area. The school includes the departments of clothing and textiles, food and nutrition, home and family, and home economics education. A new home economics building is under construction and was partially occupied in 1959.

Programs leading to degrees are offered in the following fields of specialization -- apparel design, clothing and textiles merchandising, dietetics, foods in business, home advisers, homemaking, institution management and interior decoration, as well as home economics education. Students majoring in home economics may obtain the bachelor of science degree, the bachelor of science in education degree (through the College of Education) or the bachelor of arts degree (through the College of Liberal Arts and Sciences). Graduate students may obtain the master of science degree or the master of science in education degree (through the Graduate School).

EXTENSION DIVISION

Through the Extension Division, University faculty members take college credit courses off-campus. This is accomplished by conducting classes in nearly 40 communities. A program of radio and television credit courses also has been initiated.

The Division offers planning assistance for educational conferences, workshops and conventions. Approximately 200 of these events, with an attendance of about 35,000, are scheduled each year.

The Division also makes arrangements for the SIU Touring Theater to present plays in area communities during a seven-weeks period each fall. The Theater, composed of advanced drama students, is self-supporting and area organizations earn funds for local civic projects by sponsoring the plays. This group performs in about 30 communities with a total attendance of 25,000 each year.

A County Institute Service for specialized faculty groups and general teacher groups is provided by the Division. The programs, varying in length from one hour to two days, are sometimes given as workshops for teachers before school opens in the fall. The institute service extends into all parts of the state.

1. DATE _____

SOUTHWESTERN ILLINOIS CAMPUS

The Southwestern Illinois Campus of the University serves a metropolitan area comprising the state's largest concentration of population. A 1,400-acre campus site southwest of Edwardsville was purchased in 1960 with money contributed by 60,000 citizens, and \$25 million for capital improvements there was earmarked from a \$195 million Universities Bond Issue approved by the voters in November. It is expected that this initial expenditure could provide facilities for 5,000 students. University offices have been established at the site, and architectural and engineering plans call for priority construction of a library, administration and services building, and a student center (to be built on a self-liquidating basis). Meanwhile, residents of the area are attending day and evening classes offered by the University at the former Shurtleff College Campus in Alton, and at the old East St. Louis High School. Fall term registration at the two Residence Centers in 1960 was 4,304 students working for degrees.

DIVISION OF TECHNICAL AND ADULT EDUCATION

The Division of Technical and Adult Education was established for all students of the University not seeking bachelor, master, or doctoral degrees. The Division also includes the Vocational Technical Institute, started in 1952.

Adult Education consists of non-credit courses in various vocational, technical, and general education fields. Nominal tuition fees are charged. The courses are designed to assist adults to do their jobs better or to gain skills for advancement to better positions. Since 1950, classes have been held in more than 100 towns throughout southern Illinois, ranging from Cairo to Olney and from Shawneetown to the Quincy area. Enrollment in adult education has shown a continued growth, with a present size of more than 10,000 adults annually. Besides a permanent staff, the Division utilizes as instructors a group of trained personnel in specific fields from business, industry, and the professions.

Vocational Technical Institute, an integral part of the Division of Technical and Adult Education, was established as a Day School program and offers one- and two-year technical curricula. The two-year programs lead to degrees of associate in art, associate in business, or associate in technology. One-year programs leading to a certificate also are offered.

The Vocational Technical Institute Business Division offers curricula in court reporting, legal, executive secretarial, cooperative secretarial, cooperative medical secretarial, accounting, stenography, calculating machines, bookkeeping-clerical, and cooperative retailing in merchandising.

The Vocational Technical Institute Trade and Industrial Division offers two-year associate degree curricula in automotive service, machine tool technology, radio-television technology, architectural drafting and design, machine drafting and design, commercial art, printing technology, building construction technology, dental laboratory technology, and industrial wood technology. One-year certificate programs are offered in cosmetology, practical nursing, and welding.

The VTI is located at the University's Southern Acres campus, 11 miles east of Carbondale on Old Route 13. The campus includes classrooms, industrial-type shops, laboratories, cafeteria, student center, health center service, housing accommodations for married students, and two men's residence halls.

The following table shows the number of persons who were admitted to the office of Justice of the Peace in the several States of the Union during the year 1850. The number of persons who were admitted to the office of Justice of the Peace in the several States of the Union during the year 1850 is as follows:—

DEPARTMENT OF NURSING

The Department of Nursing offers two programs, both leading to the degree, bachelor of science in nursing. The basic professional program is 14 quarters of general education and professional courses and experience, and is for students who have had no previous preparation for professional nursing. Graduates of this program are qualified for licensure as registered nurses. The supplemental program for registered nurses is a combination of general education and upper division nursing courses. Students who enroll full-time can complete requirements for the degree in about two years, including summers. Practicums in public health and hospital nursing are required.

RECREATION AND OUTDOOR EDUCATION

Southern conducts programs of outdoor education and school camping at camps at Little Grassy Lake for students of all age levels -- elementary through college. Purposes of the camping projects are to enrich learning programs in various subject matter fields; provide an outdoor laboratory in teacher training; provide a laboratory for experimental work and course work in many University departments; give experience in "primitive" camping, focus attention on the need for conservation and recreational development in the area, and train camp counselors and camp directors.

Each year hundreds of people -- both normal and handicapped -- participate in outdoor programs at the SIU campsites. The Department of Recreation and Outdoor Education coordinates these programs.

RESEARCH

During the past decade, research and testing programs have grown rapidly at Southern, with its expanded faculty and dedication to greater service. The continued development of work toward advanced degrees in many departments has meant increasing opportunities for research.

During the 1959 fiscal year, funds expended for research activity of all kinds totalled \$1,136,439. Outside agency support amounted to \$527,110. A dozen cooperative research programs received \$218,667 and special university-financed research got \$337,059 in supporting funds. Outside grants for special programs, such as National Science Foundation summer Institutes, amounted to more than \$350,000. Results of research include patentable items which may be marketed and return royalties for more research. Virtually all University departments pursue experimental or research programs. During 1959, some 315 projects were underway in three categories -- special individual projects supported by SIU; long range research units (Cooperative), and staff projects supported wholly by outside agencies.

MUSEUM

The Southern Illinois University Museum is in Altgeld Hall, where a large exhibit area, offices and work rooms are located on the first floor of the building.

Dedicated to research and exhibition in all fields of natural and social science, the museum now has collections of more than 13,000 items in natural science, including specimens in the fields of herpetology, mammology, ornithology, paleontology, mineralogy, and botany. The Museum provides various extension services -- educational exhibits and teaching units for schools, and exhibit preparation. In the social science collections are several thousand artifacts representative of pioneer American life in southern Illinois, and archaeological specimens illustrating Indian cultures of southern Illinois, northern Mexico, and southwestern United States. The Museum is open to visitors from 8 a.m. to 4:30 p.m. Monday through Friday; from 8 a.m. until noon on Saturday; and from 2:30 until 4:30 p.m. on Sunday.

The Department of Biology and Geology, University of Illinois, is pleased to announce the opening of the new building for the Department of Biology and Geology. The new building is a modern structure with a large auditorium, lecture halls, and laboratories. It is located on the campus of the University of Illinois, and is a fine example of modern architecture. The building is open to the public, and is a fine example of modern architecture. The building is open to the public, and is a fine example of modern architecture.

DEPARTMENT OF BIOLOGY AND GEOLOGY

The Department of Biology and Geology, University of Illinois, is pleased to announce the opening of the new building for the Department of Biology and Geology. LIBRARIES

The first stage of Southern's new library building (Morris Library) was completed in 1956 with part of the interior finished from appropriations made for initial construction. Additional allocations of funds have enabled the University to finish and occupy the basement and first floor. The second floor, temporarily in use for library storage, surplus property storage, and headquarters for a regional library of more than 50,000 volumes, will be finished in part soon for general library use. The building is so constructed that additional stories may be added as funds and needs arise.

A substantial library budget during the past biennium has made possible large additions to the library's reference materials, especially "hard-to-get" out-of-print volumes and back issues of various kinds of journals, and large collections in special or general areas on microtext or as documents necessary in Southern's growing graduate study programs. The 175,000-volume library collection at the time the new building was occupied in January, 1956, has now reached more than 500,000 volumes. Valuable rare book and manuscript materials are being acquired through gifts or purchase with the assistance of the SIU Foundation and a newly organized Friends of the Library group.

SOUTHERN ILLINOIS SYMPHONY ORCHESTRA

Members of the 85-piece Southern Illinois Symphony Orchestra come from more than a score of communities throughout southern Illinois. The orchestra was organized on a regional basis 11 years ago and has attracted nationwide interest in its unique program of service to the area. Under the direction of Carmine Ficocelli, director of University Orchestras, the orchestra annually presents a series of adult and children's concerts with important visiting artists as guest soloists. In conjunction with the series of concerts in Carbondale, the orchestra makes several tours for performances in other communities in southern Illinois. The orchestra rehearses weekly throughout the year on Tuesday evenings in Shryock Auditorium.

SOUTHERN ILLINOIS ORATORIO SOCIETY

The 150 voice Oratorio Chorus meets weekly on Monday evenings in the Choral Room of Altgeld Hall. Under the direction of Robert Hines, director of choral activities of the University, the chorus annually presents two major oratorios and appears in a third program with the Symphony Orchestra in the annual Christmas program.

SOUTHERN ILLINOIS YOUTH SYMPHONY ORCHESTRA

Organized in January, 1958, the Youth Orchestra includes membership of qualified elementary and high school students living within a radius of 100 miles of Carbondale. The orchestra meets each Saturday morning in Shryock Auditorium under the direction of Carmine Ficocelli and John Wharton. The Youth Orchestra and the free Saturday morning program of instruction in stringed instruments for area junior and high school students was awarded the 1958 and 1959 Certificate of Merit in the Crusade for Strings of the National Federation of Music Clubs.

SOUTHERN ILLINOIS MUSIC FESTIVAL ("MUSIC UNDER THE STARS")

Each spring McAndrew Stadium on the University campus is the scene of an area-wide music festival featuring choral, orchestral, and band groups from representative communities in southern Illinois. The 1959 and 1960 festivals featured approximately 7,000 performers, in addition to those who participated in the pre-Festival contests in piano and voice. Guest soloists and conductors of national repute appear on the Festival program, helping to make the event an import climax to the year of music education in southern Illinois.

SOUTHERN ILLINOIS UNIVERSITY BANDS

During the fall the Saluki Marching Band, under the directorship of Donald Canedy, performs at all home football games and at one game away from home. It also participates in the Homecoming parade and at various other events. During the winter and spring the Concert Band, with Phillip Olsson as director, has won acclaim for its annual concerts. Each year it presents a series of outdoor programs, the "President's Concerts."

OFFICE OF STUDENT AFFAIRS

The Office of Student Affairs is concerned with maintaining a suitable campus environment characterized by academic achievement, morale, and pride in the University. Staff members are available for consultation concerning problems which may confront a student. General administration is under the supervision of the Director of Student Affairs, who coordinates the services of the Counseling and Testing Center, the Housing Center, the Activities Development Center, and the Financial Assistance Center. In addition, the Office of Student Affairs is responsible for behavior problems, special services for the disabled students, and general information concerning students. The University Health Service has a coordinate relationship with the Student Affairs Office.

STUDENT ACTIVITIES

Southern encourages a broad educational, social, cultural and recreational activity program with opportunities for all students to participate. Organizations are encouraged to round out the student's educational experiences by helping him learn how to plan and to carry out responsibilities, how to work with others, how to make use of leisure time, and how to develop leadership traits. There are 140 campus organizations. Information on these organizations and activities may be obtained from the Activities Development Center.

Student Union Program

The hub of student activity on the Carbondale Campus is the Student Union and on the Southern Acres Campus, the Student Center. Five student committees plan a program of activities -- social, recreational and educational in nature -- for the two student centers. Office space and other facilities are available for campus organizations. Southern's Student Union is a member of National Association of College Unions and enters into its intercollegiate competition in billiards, bowling and bridge.

Student Government

The official governing organization for students is the Student Council. The Council represents students in matters pertaining to student welfare, student activities, student participation in University planning and administration, and student opinions. The student government consists of a president and vice-president elected by the student body, four class presidents and senators elected from 11 living and interest areas.

Social Senate, a standing committee of the Student Council composed of representatives from governing groups of major living units and all-campus organizations, is responsible for approving all sales and money-making events of student organizations, for providing and encouraging a well-rounded social program on the campus, and for recommending changes in rules and regulations governing student social functions.

[illegible]

Students gain additional experience through governing groups for living centers. These include Residence Hall House Councils; Off-Campus House Councils; Panhellenic Council; Interfraternity Council; Thompson Point Council, a co-ed governmental group; Men's Residence Halls Council, and Women's Residence Halls Council.

A Campus Journalism Council, composed of the president of the student body, three faculty members and three appointed students, controls student publications.

Religious Groups

An Inter-Faith Council, composed of an adult and a student from each religious organization on the campus sponsors "Religion-in-Life Week" and serves in an advisory capacity to the Office of Student Affairs on matters dealing with the religious life of students.

Religious groups at Southern include the Newman Club for Catholic students, Lutheran Student Association and Gamma Delta for Lutheran students, Wesley Foundation for Methodist students, the Christian Science Organization, the Unitarian Fellowship, the Baptist Student Union for Baptist Students, the Canterbury Club for Episcopalian students, the Jewish Interest Group, the Student Christian Foundation for students of several Protestant faiths, and the Inter-varsity Christian Fellowship.

SPECIAL EVENTS

New Student Orientation is a time set aside in the fall to help each new student prepare himself for his experiences in the University community. Approximately 150 upperclassmen act as student leaders for groups of 50 new students. Among other special events are: Homecoming; the Military Ball; the Theta Xi Variety Show; the Spring Festival, including the "Miss Southern" beauty contest; and the Harmony Show, featuring barbershop quartets and small group singing. During the Veriety Show, "Service to Southern" awards are presented to students who have given outstanding service to the University.

During the spring, students also look forward to two special assemblies, Scholastic Honors Day and Activities Recognition Day. In the first, the students who have high scholastic averages are honored, and on the second day, tribute is paid to students who have been outstanding in co-curricular activities.

The Model United Nations Assembly is held during the winter term. It is designed to help students understand vital current world issues which the U. S. Government faces and the role of the United Nations in international affairs. Each group's delegation represents a member country.

Student Values Week is sponsored by the Student Council during the fall term. Speakers, discussions, and special programs are held to stimulate each student to re-evaluate the development and impact of values on his daily life and decisions.

COUNSELING AND TESTING CENTER

Staffed with professional counselors who are able to discuss any problem of concern to the student be it personal, academic or vocational, the Center also administers tests to help students measure their occupational interests, vocational aptitudes, general scholastic achievement, and adequacy of study habits, reading skills, social adjustment and personality traits. An occupational information file of books and pamphlets is available. High school seniors may receive counseling concerning their future education.

Assistance is given to high schools in providing career days and college days.

Tests of General Educational Development administered by the Testing Service the first Friday and Saturday of each month except September and October. Residents of Illinois at least 21 years old are eligible to take the tests as a means of qualifying for a high school diploma.

FINANCIAL ASSISTANCE CENTER

Southern Illinois University's program of financial assistance includes scholarships, awards, prizes, grants-in-aid, private agency awards, and student loan funds. These include 350 University Scholarship and Activity Awards, and Illinois State, Illinois Teacher Education, and Military Scholarships.

The National Defense Student Loan Program, established during the spring quarter of 1959, created for the first time a substantial loan fund from which needy and deserving students can borrow money for educational expenses over an extended period. By the fall term, 1960, more than 600 students had borrowed \$250,000 from these funds.

For students in need of financial assistance of a temporary nature, 3,484 loans were negotiated in the amount of \$58,640 during the academic year 1959-60. These loans were administered from a total loan principal of \$22,618 available in 25 loan funds.

STUDENT EMPLOYMENT

During the academic year, over 3,000 students are employed on Southern Illinois University's work-study program for capable, needy students, with most payrolls showing about 2,000 students per month. Another 1,200 to 1,400 students work off-campus for area employers. Thus, during the academic year, more than 60 percent of the University's enrolled students participate in part-time employment to defray part or all of their college expense.

The Student Work Office is a referral agency and does not guarantee employment, but every effort is made to help students find jobs, especially those students with extreme financial need and high academic potential as indicated by their high school records. Students who participate on the campus work program are paid from \$.80 to \$1.25 per hour depending on the type of work, qualifications, and experiences of the student. The recommended maximum work load for students carrying a full academic load is 30 hours per month.

HEALTH CENTER

When a student pays his activities fee he is entitled to receive medical care and attention at the University Health Center. This includes diagnostic facilities and treatment for illness while on the campus. Primary purpose of the Health Center is to cultivate in students both physical and emotional health. Qualified physicians and registered nurses comprise the staff.

HOUSING

In housing students, the University is responsible for developing and operating University facilities to provide excellent food, comfortable and usable study and sleeping facilities, and adequate counseling and referral services, and also encouraging other agencies to meet these same standards. But beyond that, Southern Illinois University is experimenting with ways to fuse the experiences of living with the learning that must go in higher education.

Tests of General Educational Development administered by the Testing Service are given twice a year and satisfactory of each month except January. Satisfactory is defined as being 11 years old and eligible to enter the first year of college.

Financial Assistance

University of Illinois University's program of financial assistance includes tuition, books, room and board, private-in-aid, private agency awards, and various other grants. There are 250 University scholarships and awards, and Illinois State, Illinois State Teachers, and Illinois College.

The National Defense Education Act (NDEA) program, established during the years of 1949, aimed for the first time a substantial increase in the number of students who could receive money for educational purposes. Under the act, the full year, 1950, and then the next year, 1951, the first year.

For students in need of financial assistance at a University, the NDEA program was designed in the month of July, 1950, and the second year, 1951, the first year were administered from a total of \$100,000,000, and the second year, 1951, the first year.

Student Activities

During the academic year, over 1,000 students are employed on campus. University's work is done in a number of ways. The first is by the students themselves, who are given a variety of jobs. The second is by the students themselves, who are given a variety of jobs. The third is by the students themselves, who are given a variety of jobs.

The Student Union is a central place and does not have a separate organization. But every effort is made to help students. The first is by the students themselves, who are given a variety of jobs. The second is by the students themselves, who are given a variety of jobs. The third is by the students themselves, who are given a variety of jobs.

Health Center

When a student goes to the University, he is entitled to receive medical care. The University Health Center, which is located on the campus, provides medical care for students. The center is open to all students and is staffed by a team of medical professionals.

Testing

In testing students, the University is responsible for providing and maintaining University facilities for testing. The University Health Center, which is located on the campus, provides medical care for students. The center is open to all students and is staffed by a team of medical professionals.

Assignments to University residences are made on a first-come, first-serve basis. The exception to this is that a few spaces are reserved for some students from other countries and students receiving rehabilitation aid. Further, it is the policy of the University to reserve 50 percent of available spaces in the residence hall for incoming freshmen to be filled on a first-come, first-served basis.

SINGLE-STUDENT UNIVERSITY RESIDENCES

Cooperatives. At present, two areas have facilities for cooperative housing. There are apartments for men and women in the Chautauqua and Southern Acres areas. These apartments are designed for students who wish to do their own cooking and janitorial maintenance. The number of such apartments is limited.

Dowdell Halls are temporary buildings for 209 men.

Fraternity-Sorority Housing. At present the University provides four houses for sororities and five for fraternities in the Small Group Housing Area. These units are owned and administered by the University.

Illinois Avenue Halls is a temporary structure for 49 men students.

Southern Acres Halls are two men's residence halls at the Southern Acres campus housing 257 men. This temporary residential facility is primarily for students enrolled in the Division of Technical and Adult Education.

Thompson Point Halls. There are six residence halls in the Thompson Point residence area, each accommodating 122 students. Four of the existing halls now house men and two house women.

Woody Hall is a permanent facility housing 422 women.

RESIDENTIAL FACILITIES FOR MARRIED STUDENTS.

Chautauqua Street Apartments provide a limited number of unfurnished apartments adjacent to the main campus for married students.

Southern Acres Apartments located on the Southern Acres Campus 10 miles east of Carbondale. Apartments range from one to three bedroom units. All are unfurnished.

The Southern Hills Apartments are the first attempt by the University to provide permanent accommodations for married students. Three types of apartments are available in this area: two bedroom, one bedroom, and efficiency units. All apartments in the Southern Hills area are furnished.

A Trailer Court area is designed for the rental of trailer parking and use. Besides the rent, charges are made for laundry facilities, heat, and electricity. This residential area is located adjacent to the Southern Hills Apartment Area, east of the main campus.

OTHER RESIDENTIAL FACILITIES

Off-Campus Housing -- The University also attempts to provide information to students on off-campus housing facilities. Lists of vacancies for single and married students interested in off-campus housing are available in the Housing Office.

Approved housing must meet minimum sanitation and safety standards as established by the University. Signed contracts with householders are often required. Among the listings of off-campus facilities in the Housing Office will be those of organized houses which elect officers and carry on group activities.

FINANCIAL CONSIDERATIONS

Costs are subject to change without notice. The present yearly rates for University housing vary from \$666 for permanent residence halls to "room only" charges of \$288 for group housing, and \$135 to \$162 for temporary housing, depending on room and area.

Family housing rates vary from \$75 per month plus utilities in the two-bedroom apartments, through \$36.50 to \$46.50 for temporary units, to \$19 for trailer court space.

Off-campus yearly rates vary from \$175 to \$275 depending on size, distance from campus, number of roommates, number of privileges (such as cooking), and other factors.

SOCIAL SORORITIES AND FRATERNITIES

There are five national sororities -- Alpha Gamma Delta, Alpha Kappa Alpha, Delta Zeta, Sigma Kappa, and Sigma Sigma Sigma -- and nine national fraternities -- Alpha Phi Alpha, Delta Chi, Kappa Alpha Psi, Phi Kappa Tau, Phi Sigma Kappa, Sigma Pi, Sigma Tau Gamma, Tau Kappa Epsilon, and Theta Xi -- at Southern. Each year they sponsor a "Greek Week," compete in a "Greek Sing," and hold workshops and special events. Panhellenic Council, Interfraternity Council, and Inter-Greek Council serve as governing groups for these organizations.

ATHLETICS

Southern Illinois University offers a well-rounded program of varsity athletics with football and cross country in the fall; basketball, swimming, gymnastics, and wrestling in the winter; and baseball, track, golf, tennis, and spring football in the spring. Each year more than 500 men compete in one or more of these varsity sports.

Dr. Donald N. Boydston, head of SIU's health education department, became athletic director in 1957. A former standout athlete at Oklahoma State, Dr. Boydston was head of the graduate program in health and education at the University of Mississippi before coming to SIU in 1955.

Dr. Boydston and the athletic department follow a policy of placing the individual as most important in an athletic program, with results never coming before the welfare of an individual member of an athletic squad. Participation is stressed, and to this end regular schedules in football and basketball are arranged for freshman teams.

Assistant athletic director Bill Brown joined the SIU staff in 1957. Before coming to Southern he was on the staff of West Frankfort High School for 14 years as coach, athletic director, and head of the physical education department.

COACHES

Members of the Saluki coaching staff are: Ralph Casey, head swimming coach; Robert Franz, football line coach and assistant wrestling coach; Harry Gallatin, head basketball coach; Lynn Holder, head golf coach and graduate manager of athletics; George Iubelt, freshman basketball coach; Carmen Piccone, head football coach; John R. LeFevre, head tennis coach; Lew Hartzog, track and cross country coach; Glenn (Abe) Martin, head baseball coach and head of intramurals; William Meade, head gymnastics coach; Andrew Vaughn, athletic field representative; and James Wilkinson, head wrestling coach. Graduate assistants each year also play an important part in the coaching of SIU's 10 varsity sports.

Robert Spackman is head trainer and physical therapist. John Grimes is equipment manager, and George Iubelt heads the student work program.

FACILITIES

Southern's football and track teams compete at McAndrew Stadium, which is named for the late William McAndrew, SIU's athletic director from 1913-1943. The stadium has a permanent seating capacity of 8,543 with temporary bleachers boosting the total to 12,000.

Southern has a well-lighted athletic field. On eight steel poles are 192-1,000 watt bulbs plus lights at the entrances and behind the stadium. The SIU track is a one-fourth mile oval with a 220-yard straightaway.

The cross country course is around Thompson Lake and Thompson Point residence halls area with meets beginning and ending in the stadium.

Basketball, wrestling, and gymnastics contests are held in the 1,584-seat Men's Gymnasium. The basketball playing floor is 50 by 94 feet. The temporary baseball field is off West Chautauqua street one-fourth mile west of the main campus. Twelve new tennis courts are located south of the physical plant, and three practice courts are located east of the gymnasium.

Golf teams play on the nine-hole courses at Jackson County Club midway between Carbondale and Murphysboro as well as other area courses. The University swimming pool (5 lanes by 75 feet) is in the physical education wing at University School.

THE SALUKI - Southern's mascot - is a descendant of the famous Saluki hunting dog which dates back to Egypt and other nearby countries. Renowned for speed and endurance, it is the oldest pure breed in the world, records of its existence dating back to 3600 B.C. The Saluki, which is similar in appearance to a Greyhound, was adopted as SIU's sports symbol in 1951. Prior to that, Southern's teams were called "Maroons."

Southern's first mascot, King Tut, was killed by a car in 1954. At the 1956 Homecoming football game, W. W. Vandever, an SIU alumnus and president of the Ashland Oil Co., presented Southern with two pure-bred Salukis, a male, Burydown Datis, who was whelped in England, and a female, Ornah Farouk of Pine Paddocks, a direct descendant of a champion from the kennels of King Ibn Saud of Saudi Arabia.

IIAC HISTORY

Membership. Southern is a member of the Interstate Intercollegiate Athletic Conference (IIAC), which also includes Northern Illinois (DeKalb), Eastern Illinois (Charleston), Western Illinois (Macomb), Illinois Normal (Normal), Central Michigan (Mt. Pleasant, Mich.), and Eastern Michigan (Ypsilanti, Mich.).

SIU also is a member of the National Collegiate Athletic Association (NCAA) and the National Association of Intercollegiate Athletics (NAIA).

Intramurals. Southern's intramural program, which began in the 1920's, has now mushroomed until it includes about 3,000 men and 500 women students each year. An intramural student board helps govern and administer the program. Trophies are awarded to team champions and other awards go to winners of individual sports. The 16 activities now included in the varied program are touch football, corkball, gold, tennis, ping pong, badminton, horseshoes, volleyball, shuffleboard, free throw shooting, basketball, softball, swimming and diving, and track and field, wrestling and bowling.

NOTE: Each season (fall, winter, and spring), sports information brochures are available for persons interested in detailed information about Southern's varsity sports. Those desiring copies should write Fred Huff, Sports Information Director, SIU Information Service, Carbondale.

Continued from page 99

There is a considerable amount of work to be done in the way of collecting and organizing the material for the history of the county. It is necessary to have a list of the names of the persons who have lived in the county, and to have a list of the places where they have lived. It is also necessary to have a list of the events which have happened in the county, and to have a list of the persons who have been connected with these events.

It is also necessary to have a list of the places where the persons have lived, and to have a list of the events which have happened in the county.

History of the County

Early History

The first settlers in the county were the Indians, who lived in the county for many years. They were the only people who lived in the county at that time. The first white settlers came to the county in 1780. They were the first people who lived in the county who were not Indians.

The first white settlers in the county were the Indians, who lived in the county for many years.

UNIVERSITY CALENDAR, 1962-63

-4-

- WINTER QUARTER, 1962: term begins, Tuesday, January 2; final examinations, Monday-Saturday, March 12-17.
- SPRING QUARTER, 1962: term begins, Monday, March 26; Memorial Day holiday, Wednesday, May 30; final examinations, Wednesday-Tuesday June 6-12; commencement, Wednesday, June 13.
- SUMMER SESSION, 1962: term begins, Monday, June 18; Independence Day holiday, Wednesday, July 4; final examinations, Wednesday-Thursday, August 8-9; commencement, Friday, August 10. (The Summer Session will be expanded to a full term for freshman students)
- FALL QUARTER, 1962: New Student Week, Friday-Sunday, September 21-23; term begins, Monday, September 24; Thanksgiving recess, Wednesday at noon to Monday, 8 a.m., November 21-26; final examinations, Wednesday-Tuesday, December 12-18.
- WINTER QUARTER, 1963: term begins, Wednesday January 2; final examinations, Wednesday-Tuesday, March 13-19.

BACKGROUND: SOUTHERN ILLINOIS UNIVERSITY

Southern Illinois University emphasizes teaching, research and area services. Southern was chartered as Southern Illinois Normal University in 1869. It remained a normal school and a teachers college until July 1, 1943, when the General Assembly granted it the powers of a university. The name was changed to Southern Illinois University by legislative action in 1947. On July 1, 1949, the university entered into a new period of development under a separate governing board of trustees, appointed for two years. The first permanent board was appointed August 30, 1951.

PRESIDENT MORRIS

Dr. Delyte Wesley Morris was born at Xenia, Illinois, April 11, 1907. Educated in the public schools of Xenia and Flora, he obtained the bachelor's degree from Park College, Parkville, Missouri; the master's degree from the University of Maine; and the doctor of philosophy degree from the University of Iowa. He taught in a public school in Oklahoma, the University of Maine, the Junior College of Kansas City, Missouri, the Indiana State Teachers College, Terre Haute, Indiana; and Ohio State University, where he served as professor of speech and director of the Speech and Hearing Clinic. He came to Southern as eighth president on September 10, 1943, and was inaugurated May 5, 1949.

SOUTHERN'S PAST PRESIDENTS

Robert Allyn, 1874 - 1892
John Hull, 1892 - 1893
Harvey William Everest, 1893 - 1897
Daniel Baldwin Parkinson, 1897 - 1913

Henry William Shryock, 1913 - 1935
George Dorritt Wham, 1935 (acting)
Roscoe Pulliam, 1935 - 1944
Bruce Welch Merwin, 1944 - 1945 (acting)
Chester F. Lay, 1945 - 1948

LOCATION

The central campus of Southern Illinois University is situated in Carbondale, Jackson County, a community of 15,000 located 100 miles southeast of St. Louis. Here is a crossroads transportation center where two important highways, U.S. 51 and State Route 13, intersect; where the Illinois Central railroad has a division point with the St. Louis branch joining the mainline; and where airport facilities are available. Southern Illinois Airport, adjacent to the west city limits and now operated by the SIU auxiliary enterprises division since the University purchased the airports physical facilities (excepting land and permanent improvements) in 1960, provides air taxi connections with airlines and facilities for flight instruction, training in aircraft maintenance, and weather station operation work. The Williamson County airport near Herrin, 15 miles east, is a stopping point for Ozark Airlines planes.

In addition to the campus at Carbondale, the University includes the Edwardsville campus with centers at Alton and East St. Louis; a Vocational Technical Institute at its Southern Acres campus 11 miles east of Carbondale; and an outdoor education campus at Little Grassy Lake six miles southeast of Carbondale.

The following permanent buildings, are in use at the Carbondale campus, and others are under construction or planned:

Buildings erected prior to developments of the last decade:

Old Main	1837	Anthony Hall	1913
Altgeld Hall	1896	Shryock Auditorium	1916
Wheeler Building	1903	Gymnasium	1925
Allyn Building	1908	Parkinson Laboratory	1928
		McAndrew Stadium	1938

Completion date and cost of permanent buildings since 1938:

Power Plant	1949	\$830,119
Service Shops, No. 1	1951	502,784
University School	1951	4,162,332
(Includes cost of Physical Education wing and Industrial education wing completed in 1954)		
Service Shops, No. 2 (garage)	1953	203,954
Woody Hall	1953	1,972,811
Life Science	1954	1,761,517
(Includes greenhouses, animal house, and substation)		
Morris Library	1956	2,447,615
(First stage)		
Thompson Point Residence Halls	1956-57	4,600,000
(Six 120-bed units and student services center)		
Agriculture Building	1957	1,773,450
Browne Auditorium	1959	200,304
(Parkinson building addition, lecture hall)		
Home Economics building	1959	2,200,000
(First stage, 60 percent completed)		
Family Apartment buildings	1959-60	1,479,136
(Eight units providing housing for 123 families)		
Student Group Housing units	1959-60	1,916,695
(Nine small residence halls for housing 405 students)		
University Center	1961	4,600,000

The first step in the development of a library is the selection of a site. The site should be chosen on the basis of its location, its size, its accessibility, and its cost. The site should be large enough to accommodate the present and future needs of the library. It should be accessible to the community and to the staff. The cost should be reasonable and should not place an undue burden on the community. The site should be chosen in consultation with the community and the staff. The site should be chosen in consultation with the community and the staff. The site should be chosen in consultation with the community and the staff.

The second step in the development of a library is the selection of a building. The building should be chosen on the basis of its location, its size, its accessibility, and its cost. The building should be large enough to accommodate the present and future needs of the library. It should be accessible to the community and to the staff. The cost should be reasonable and should not place an undue burden on the community. The building should be chosen in consultation with the community and the staff. The building should be chosen in consultation with the community and the staff. The building should be chosen in consultation with the community and the staff.

The third step in the development of a library is the selection of a collection. The collection should be chosen on the basis of its location, its size, its accessibility, and its cost. The collection should be large enough to accommodate the present and future needs of the library. It should be accessible to the community and to the staff. The cost should be reasonable and should not place an undue burden on the community. The collection should be chosen in consultation with the community and the staff. The collection should be chosen in consultation with the community and the staff. The collection should be chosen in consultation with the community and the staff.

Construction of additional housing units for single and married students is nearing completion under self-liquidating financing programs. Until additional space is available, the University is making use of nearly 100 temporary buildings. Some of these are converted residences; others were built originally as army barracks and have been transported to the campus for badly needed office, classroom, dormitory, and storage space.

PERSONNEL

The University has a full-time faculty and administrative staff of 1331, including graduate fellows and graduate teaching and research assistants assigned to departmental staffs on the basis of high scholarship and promise in graduate work. Part time academic employees total 91. The University staff includes 536 full-time and 42 part-time non-academic employees. Among faculty classifications are adjunct professor and research associate, titles given to individuals with special skills who serve the University without salary through consultation and cooperative research programs.

UNIVERSITY SERVICES

AREA SERVICES DIVISION. As a fully-accredited institution of higher learning in the 32 southern counties of Illinois, SIU has special obligations to its region and therefore attempts to make its facilities available to various community, county and regional groups. The Area Services Division works on an all-University basis to establish for Southern an image of responsible and effective relations between the institution and the public and vice versa. The office schedules the use of University facilities by responsible off-campus organizations and groups; prepares and disseminates data pertinent to planning, activating, controlling and evaluating programs essential to serving the area and cooperates with communities and with federal, state and private groups in programs for developing the economic, cultural and social resources of the area. Affiliated with the Division in performing these functions are: Alumni Service, concerned with maintaining alumni records and with creating and maintaining a bond of interest between the University and its graduates and former students; Broadcasting Service which maintains and operates an educational FM radio station, WSIU, and an educational television station, WSIU-TV (Channel 8), as well as tape network service to area radio and television stations; the Community Development Service which makes available University resources for giving social and economic counsel and leadership to interested area communities; the Information Service, an official news agency for releasing information of general interest about the University and its students to news media; and the Placement Service which is maintained for the benefit of students and SIU graduates seeking employment in fields for which they have received training.

AUDIO-VISUAL DEPARTMENT. Southern's film library of nearly 5,500 motion picture films and many additional film strips is serving the needs of more than 800 schools and adult organizations. The audio-visual service is a department of the University library with two primary functions -- on-campus and area services. Campus users are provided with various types of projection service, graphic arts and sound materials as needed by instructors and departments. Films from Southern's library and many from other sources are provided for campus and extension classes and for schools and organizations in Illinois and adjacent areas in Missouri and Kentucky. Consultation service to help schools with their audio-visual programs is provided.

[illegible]

CHILD GUIDANCE CLINIC. The Child Guidance Clinic studies cases of children and adolescents having difficulty with school work, emotional adjustments, attitudes and personality conflicts. A Department of Guidance offers special consultant services to schools for initiating and upgrading guidance and testing programs.

DATA PROCESSING AND COMPUTING CENTER. The Data Processing and Computing Center serves the instructional and research agencies through its magnetic tape and punched-card computing machinery and technical assistance for activities requiring complicated or time-consuming computing processes.

COOPERATIVE CLINICAL SERVICES CENTER. The Cooperative Clinical Services Center at SIU brings campus clinicians and therapists of all kinds under one service roof to aid the handicapped. The unit provides multiple services both to handicapped students and area residents by drawing on the treatment specialties of a number of campus agencies and departments: the Child Guidance Clinic, Psychology, Rehabilitation Institute, Special Education, Speech and Hearing Clinic, Sociology (marriage counseling), Reading Center, Counseling and Testing, Physical Education, and others. The Clinic staff, including physical therapists, speech correctionists and graduate assistants, as well as outside consultants and experts, serves part time on an appointment basis at the Clinical Center Building on Lake and Chautauqua Streets.

EDUCATIONAL RESERARCH BUREAU. As an outgrowth of recommendations by school administrators, the College of Education established the Educational Research Bureau for working with schools in matters of district reorganization, plant construction, curriculum, and other problems through the organized approach of school surveys or by consultative services. Inquiries may be directed to Dr. Jacob Bach, head of the bureau.

EMPLOYMENT TRAINING CENTER. The Employment Evaluation and Training Project, an Occupational Training Center, and Sheltered Workshop have been combined under the direction of Vincent P. Farrell as an Employment Training Center. These three programs service handicapped adults by preparing vocational evaluation and training. The most recent innovation involves work with an experimental group of patients from the Anna State Hospital who commute daily by bus. Employment Training Center continues to be directed by the Department of Special Education.

SPEECH AND HEARING CLINIC offers examinations and therapy to area children and adults who have speech defects such as stuttering, cleft palate, articulatory difficulties, or cerebral palsy. Also offered is a program for the hard of hearing which includes auditory training, lip reading, speech conversation, testing of hearing, and the fitting of hearing aids. The clinic cooperates with other agencies including the Division of Services for Crippled Children, the Easter Seal Agency, the Department of Public Welfare and other related service agencies, and is a division of Southern's Cooperative Clinical Services Center.

GENERAL PUBLICATIONS OFFICE, created in 1959, is responsible for editing, designing, producing, and distributing the University's bulletin series, and gives advisory, editorial, and design assistance on other official publications of the University.

LOCAL GOVERNMENT CENTER. Organized as a part of the Public Affairs Research Bureau, the Center provides assistance to local government officials. Its purposes are to prepare publications concerning local government, to help analyze and solve governmental problems, and to build a competent library to provide information to civic groups.

by constructive means. Inquiries may be directed to Dr. Jacob H. ... of the ... and ... through the ... approach of ... of ...

Technical cooperation is being provided by the Government of India. The Government of India is also providing financial assistance for the project. The Government of India is also providing technical assistance for the project. The Government of India is also providing technical assistance for the project.

the Department of Public Welfare and other related service agencies, and is a division of Southern Illinois Children's Services Center.

...and the fact that the ...

...and the fact that the ...

1. The first provision relates to local government officials. The provision was to ensure that all local government officials, to help analyze and solve government problems, and to build a competent library to provide information to divide

PHOTOGRAPHIC SERVICE is staffed and equipped to serve nearly every photographic need of the University for news, publicity, teaching aids, photocopying, exhibits, portraits, identification photos, campus publications, color photography, and motion pictures.

PRINTING SERVICE performs a multitude of duplicating and printing services for the University. Art services are provided to student groups and university departments and agencies for publications, posters, and graphic material by the Printing Service as desired.

PSYCHOLOGICAL SERVICES CENTER provides professional services to University students, to community adults and children, and to industries of the area. Psychological counseling and personality appraisal, including the use of different types of psychological tests, are provided to assist individuals with personal-social problems. The Center also provides consultation services to University and community agencies and interested groups on the psychological aspects of child-parent relationships, adolescent development, and other areas of personal and social significance.

The READING CENTER in the College of Education, helps students improve reading skills and study habits, and serves as a laboratory for teachers in training as reading specialists. Referrals are accepted from area schools and consultant services in reading are available to elementary and secondary schools.

STENOGRAPHIC SERVICE performs mimeographing, duplicating, automatic typewriting, and other stenographic work for University departments and offices.

TEXTBOOK SERVICE. A textbook rental system operated through the University Textbook Service simplifies the book problem for the student. The service rents an average of five books per student enrolled. This accounts to more than 50,000 books per term. The stock of textbooks totals more than 100,000. The textbook Service is a part of the Morris Library.

UNIVERSITY ARCHITECT is responsible for recommending plans for all phases of design, construction, and landscaping of new and existing University buildings.

UNIVERSITY PRESS, established in 1953, is a book publishing agency of the University, issuing books of general and educational interest by SIU staff members as well as other scholars and authors.

UNIVERSITY INSTITUTES. A number of Institutes are being established at Southern Illinois University to serve special areas of interest through educational programs and advisory services. The educational programs comprise a course of study for undergraduate and graduate students in a number of related departments of the University.

Current institutes include: the Community Development Institute, established in 1956 to meet the shortage of professionally-trained personnel in the field of community service; the Latin American Institute, activated in 1958 to provide advisory services and promote better understanding toward Latin American countries as well as educational preparation for service in those countries; the Labor Institute to provide educational programs for those planning careers in the field of labor and to provide consultative service to area labor groups; the Rehabilitation Institute, established in 1957 to co-ordinate and augment the training of college students and other field workers in counseling or serving the handicapped and to provide consultant services in this field; the Small Business Institute, established in 1954 to provide educational programs for students interested in establishing their own businesses and to give technical advice on small business operations; and the Transportation Service to provide educational opportunities and consultation for those working or planning to work in various phases of transportation.

[illegible]

BUDGET AND APPROPRIATIONS

The state General Assembly appropriates financial support to the University on a two-year basis. Most of the money comes from state tax revenues. In addition, the state appropriates the University's own income which, by law, must be deposited with the state treasurer (excluding auxiliary enterprises, handled locally).

The following state appropriations were made to the University for the 1959-61 biennium:

From State Tax Revenues:		
For Operation and Maintenance		\$29,817,000.00
For Permanent Improvements		400,000.00
For Scholarships		150,000.00
For Capital Additions:		
Land	\$ 575,000.00	
New Construction	3,575,000.00	
Rehabilitation and Renovation	1,700,000.00	
Contingencies	950,000.00	
Reappropriations of the Previous Biennium	<u>868,579.14</u>	<u>7,668,579.14</u>
TOTAL		33,035,579.14
From University Income:		
For Educational Operations		<u>1,910,000.00</u>
Total State Appropriations		<u>\$39,945,579.14</u>

ACADEMIC STANDING

Southern is accredited by the Commission on Colleges and Universities of the North Central Association in Group IV (as a university), the American Association of Colleges for Teacher Education, the Association of American Colleges, and the National Association of Schools of Music.

ADMISSION REQUIREMENTS

To be eligible for admission to Southern Illinois University, an applicant must be over 21 or be a graduate of a recognized high school. Graduates of non-recognized high schools may be admitted by examination. Persons ranking in the lowest one-third of their high school graduating class will be admitted on scholastic probation only for the summer, winter or spring quarters. Exceptions to this rule may be made if they show high scores on the University's entrance examinations, allowing them to enter in the fall quarter.

FEES

The University reserves the right to change fees at any time. At present, the fees for a regular quarter (12 weeks) for a full-time (more than 8 quarter hours) student are:

Tuition	\$42.00
Student Activity Fee	9.50
Student Union Building fund fee .	5.00
Book rental	<u>5.00</u>
Total	\$61.50

Fees for out-of-state students is an additional \$50.00 plus those listed above.

Thus, for the usual school year of 36 weeks, tuition and fees amount to \$184.50 or, for out-of-state students, \$334.50.

There are no additional charges for private lessons in music. The general activity charge includes fees for hospitalization, entertainment, athletics, the Obelisk (yearbook), the Egyptian (newspaper), and other activities as may be provided.

AIR FORCE RESERVE OFFICERS' TRAINING CORPS

All male students, except those who have actively served in any of the Armed Forces six months or more, entering Southern as freshmen or sophomores are required to enroll in the basic Air Force Reserve Officers' Training Corps. When a student finishes his first two years of required AFROTC training, he may apply for admission to the advanced course. Upon graduation a student will be commissioned a Second Lieutenant in the United States Air Force Reserve and later called to active duty.

While a student is completing his junior and senior years in the AFROTC program he is entitled to an allowance of 90 cents per day. During their senior year, students who have volunteered and are qualified for pilot training receive 35 hours of flight instruction which qualifies them for a private pilot's license.

GRADUATE SCHOOL

Graduates of fully accredited colleges and universities may pursue courses of study leading to a master's degree in arts, science, education, and fine arts. In addition there is a sixth year program leading to a certificate of specialist. Programs leading to the degree of doctor of philosophy are available in selected areas. Southern Illinois University is accredited by the North Central Association of Colleges and Secondary Schools as an institution conferring the Master's degree.

COLLEGE OF EDUCATION

The College of Education provides professional training for teaching at all levels in the public schools, and for supervisors, administrators, and specialists. Departments in the College are: educational administration and supervision; elementary education; guidance; health education; instructional materials; physical education for men; physical education for women; recreation and outdoor education; secondary education; higher education, and special education. The teacher training

THE NEW YORK PUBLIC LIBRARY, ASTOR LENOX AND TILDEN FOUNDATIONS

The New York Public Library, Astor Lenox and Tilden Foundations, is a public library of the City of New York, and is one of the largest and most important libraries in the world. It was founded in 1808, and has since that time been the repository of a vast and valuable collection of books, manuscripts, and other literary treasures. The library is open to all, and its collections are available to the public for the purpose of study and research. The library is a great source of information and knowledge, and it is a pleasure to be able to use its resources.

The library is a great source of information and knowledge, and it is a pleasure to be able to use its resources.

division offers student teaching in all departments, using the University School at SIU and qualified public schools in the Area where potential teachers observe good teaching, make studies, and obtain practice. A reading center has been established to provide teachers with special training in reading and to assist teachers in service.

COLLEGE OF LIBERAL ARTS AND SCIENCES

The College of Liberal Arts and Sciences provides for specialized education in the fields of instruction covered by its departments and is for students desiring general cultural courses as well as those planning to take pre-dental, pre-legal, pre-medical, pre-theological, pre-pharmaceutical, pre-veterinary, pre-public health or pre-occupational therapy courses. The College is also a service instructional unit for other Colleges, Schools and Institutes, serving both general and specialized educational needs of their students. The degree granted is the Bachelor of Arts.

SCHOOL OF AGRICULTURE

The School of Agriculture was created by state legislative action July 1, 1955, for instruction, demonstration, and consultation in agriculture, forestry, and other activities concerned with the rural development of Southern Illinois.

Following prolonged study, a reorganization plan creating departments in the School of Agriculture was instituted July 1, 1957. These are: the Department of Agricultural Industries; the Department of Animal Industries; the Department of Plant Industries, and the Department of Forestry. The University farms, the Illinois Horticultural Experiment Station, the SIU-U, of I. Cooperative Agronomy Research Center are components of the school. The School was approved in 1958 for training vocational agriculture teachers. A federal Small Fruits Research Station was activated in 1959 in cooperation with the U.S. Department of Agriculture. The University Farms of the School of Agriculture currently includes nearly 1,800 acres of farm land devoted to teaching, research, and demonstration in soils, crops, livestock, dairying, and poultry.

SCHOOL OF BUSINESS

The School of Business provides courses of instruction leading to bachelor and advanced degrees emphasizing such fields as accounting, business education, economics management, marketing, and secretarial studies. The School stimulates research and provides service work in these fields for other units of the University. The School publishes a quarterly Business Bulletin which is distributed widely to businessmen in southern Illinois. The School is organized into five departments: Accounting, Management, Marketing, Secretarial and Business Education and Economics.

SCHOOL OF COMMUNICATIONS

The School of Communications coordinates and facilitates the development of programs, provides instruction and stimulates research in the effective use of such communications media as public speaking, television, radio, newspapers and magazines, and provides service work in these fields for other educational units which require it. Components of the school are the departments of speech, speech correction, theater, radio-television, journalism, and printing and photography.

SCHOOL OF FINE ARTS

The School of Fine Arts includes the departments of art, design, and music. Art students may major in pottery, painting, and printmaking, jewelry and silversmithing, sculpture, and weaving. Design students may major in visual design or in product-shelter design. The Department of Music is a member of the National Association of Schools of Music. It offers major programs in music theory, history and literature, piano, organ, voice, opera workshop, stringed instruments, wind instruments, percussion instruments, instrumental and vocal ensembles.

SCHOOL OF HOME ECONOMICS

The School of Home Economics was established to provide instruction, to stimulate research, to provide service in this field for other educational units desiring it, and to give service to the people in the area in helping improve the understandings and practices in their families and homes.

The school is composed of the departments of clothing and textiles, food and nutrition, home and family, and home economics education.

The School of Home Economics offers curricula leading to the following degrees: Bachelor of Science, Master of Science and Master of Science in Education, and Doctor of Philosophy.

SCHOOL OF TECHNOLOGY

Effective July 1, 1961 the School of Technology was established. It includes the Department of Applied Science and the Department of Industrial Education. The Applied Science Department provides instruction, consultation and research in various fields of engineering and continues to give a pre-engineering program for those who plan to transfer to other universities.

The Industrial Education Department prepares teachers of industrial arts and industrial trades. It also involves the education for training directors and supervisors within industry as well as the preparation of manual arts therapists.

EXTENSION DIVISION

Through the Extension Division, University faculty members conduct college credit courses off-campus. A program of radio and television credit courses also has been initiated.

The Division offers planning assistance for educational conferences, workshops and conventions, and also makes arrangements for the SIU Touring Theater to present plays in area communities during a seven-weeks period each fall. The Theater, composed of advanced drama students, is self-supporting and area organizations earn funds for local civic projects by sponsoring the plays. This group performs in about 30 communities with a total attendance of 25,000 each year.

DIVISION OF TECHNICAL AND ADULT EDUCATION

The Division of Technical and Adult Education was established for all students of the University not seeking bachelor, master, or doctoral degrees. The Division also includes the Vocational Technical Institute, started in 1952.

Adult Education consists of non-credit courses in various vocational, technical, and general education fields. Nominal tuition fees are charged. The courses are designed to assist adults to do their job better or to gain skills for advancement to better positions. Enrollment in adult education has shown a continued growth, with a present size of more than 10,000 adults annually. Besides a permanent staff, the Division utilizes as instructors a group of trained personnel in specific fields from business, industry, and the professions.

Vocational Technical Institute, an integral part of the Division of Technical and Adult Education, was established as a Day School program and offers one-and two-year technical curricula. The two-year programs lead to degrees of associate in art, associate in business, or associate in technology. One-year programs leading to a certificate also are offered.

The Vocational Technical Institute Business Division offers curricula in court reporting, legal, executive secretarial, cooperative secretarial, cooperative medical secretarial, accounting, stenography, calculating machines, bookkeeping-clerical, and cooperative retailing in merchandising.

The Vocational Technical Institute Trade and Industrial Division offers two-year associate degree curricula in automotive service, machine tool technology, radio-television technology, architectural drafting and design, machine drafting and design, commercial art, printing technology, building construction technology, dental laboratory and dental hygiene technology, and industrial wood technology. One-year certificate programs are offered in cosmetology, practical nursing, and welding.

The VTI is located at the University's Southern Acres campus, 11 miles east of Carbondale on Old Route 13. The campus includes classrooms, industrial-type shops, laboratories, cafeteria, student center, health center service, housing accommodation for married students, and two men's residence halls.

DEPARTMENT OF NURSING

The Department of Nursing offers two programs, both leading to the degree, bachelor of science in nursing. The basic professional program is 14 quarters of general education, professional courses and experience, and is for students who have had no previous preparation for professional nursing. Graduates of this program are qualified for licensure as registered nurses. The supplemental program for registered nurses is a combination of general education and upper division nursing courses. Students who enroll full-time can complete requirements for the degree in about two years, including summers. Practicums in public health and hospital nursing are required.

RECREATION AND OUTDOOR EDUCATION

Southern conducts programs of outdoor education and school camping at camps at Little Grassy Lake for students of all age levels -- elementary through college. Purposes of the camping projects are to enrich learning programs in various subject matter fields; provide an outdoor laboratory in teacher training; provide a laboratory for experimental work and course work in many University departments; give experience in "primitive" camping, focus attention on the need for conservation and recreational development in the area, and train camp counselors and camp directors. The national Outdoor Education Association headquarters was moved to SIU in 1961. Each year hundreds of people -- both normal and handicapped -- participate in outdoor programs at the SIU campsites. The Department of Recreation and Outdoor Education coordinates these programs.

RESEARCH

During the past decade, research and testing programs have grown rapidly at Southern, with its expanded faculty and dedication to greater service. The continued development of work toward advanced degrees in many departments has meant increasing opportunities for research.

Last year the Research Office became the Office of Research and Projects. It still is in the office of the Graduate School.

During the 1961 calendar year the University's program of research and projects continued to expand. The dollar amount of outside support for the program rose to around \$2 million, while University expenditures remained about the same as in previous years.

Results of research include patentable items which may be marketed and return royalties for more research. Virtually all University departments pursue experimental or research programs. During 1959, some 315 projects were underway in three categories -- special individual projects supported by SIU; long range research units (Cooperative), and staff projects supported wholly by outside agencies.

MUSEUM

The Southern Illinois University Museum is in Altgeld Hall, where an exhibit area, offices and work rooms are located on the first floor of the building.

Dedicated to research and exhibition in all fields of natural and social science, the museum now has collections of more than 13,000 items in natural science, including specimens in the fields of herpetology, mammology, ornithology, paleontology, mineralogy, and botany. The Museum provides various extension services -- educational exhibits and teaching units for schools, and exhibit preparation. In the social science collections are several thousand artifacts representative of pioneer American life in southern Illinois, and archaeological specimens illustrating Indian cultures of southern Illinois, northern Mexico, and southwestern United States. The Museum is open to visitors from 8 a.m. to 4:30 p.m. Monday through Friday; from 8 a.m. until noon on Saturday; and from 2:30 until 4:30 p.m. on Sunday.

LIBRARIES

The first stage of Southern's library building (Morris Library) was completed in 1956 with part of the interior finished from appropriations made for initial construction. Additional allocations of funds have enabled the University to finish and occupy the basement and first floor. The second floor, temporarily in use for library storage and headquarters for a regional library of more than 50,000 volumes, will be finished as part of the next building stage to be started early in 1962. This construction will consist of adding five floors, only one of which will have the interior finished at this time. The 175,000-volume library collection at the time the new building was occupied in January, 1956, has now reached more than 500,000 volumes. Valuable rare book and manuscript materials are being acquired through gifts or purchase with the assistance of the SIU Foundation and a newly organized Friends of the Library group.

SOUTHERN ILLINOIS MUSIC GROUPS AND EVENTS

A number of musical groups and events have been formed under the leadership of representatives of the Southern Illinois University music department faculty. These include the Southern Illinois Symphony Orchestra, organized 12 years ago on a regional basis for area persons interested in orchestral music; the Southern Illinois Oratorio Society, a 150-voice chorus composed of University and area singers; and the Southern Illinois Youth Symphony Orchestra, organized in 1958 for qualified elementary and high school students within 100 miles of Carbondale who want to receive instruction and to perform on stringed instruments as an orchestral group. The group give a number of special public programs each year. The Southern Illinois Musical Festival, "Music Under the Stars," is an annual spring event on campus featuring choral, orchestral and band groups from throughout the area as well as guest soloists and conductors.

OFFICE OF STUDENT AFFAIRS

The Office of Student Affairs is concerned with maintaining a suitable campus environment characterized by academic achievement, morale, and pride in the University. Staff members are available for consultation concerning problems which may confront a student. General administration is under the supervision of the Director of Student Affairs, who coordinates the services of the Counseling and Testing Center, the Housing Center, the Activities Development Center, and the Financial Assistance Center. In addition, the Office of Student Affairs is responsible for behavior problems, special services for the disabled students, and general information concerning students. The University Health Service has a coordinate relationship with the Student Affairs Office.

STUDENT ACTIVITIES

Southern Illinois University has a broad educational, cultural, social and recreational co-curricular program with opportunities and activities for each student to participate in. Student organizations and living units contribute to each student's total educational experiences by helping him to learn to plan and carry out creative ideas and responsibilities, to better understand and work with other people, to make wise and productive use of leisure time, to develop leadership traits, to assume responsibility and to have concern for the total community and to develop a wide variety of skills and interests in the aesthetics of life.

UNIVERSITY CENTER STUDENT PROGRAMMING BOARD AND COMMITTEES

The University Center Student Programming Board and Committees is composed of students from every segment of the student body. They are responsible for planning activities and services for students in the new University Center. This group plans weekend events of general interest to the campus such as a current issues lecture series, dances, movie hours, jazz sessions, music concerts in the Gallery Lounge, travelogues and excursions to St. Louis. They also sponsor special interest groups including folk music, chess, cricket, and rifle clubs; prepare and coordinate the displays for the University Center, and assist in providing such services as lost and found, riders exchange, magazines for the lounges, and tours of the building.

STUDENT GOVERNMENT

The official governing organization for students is the Student Council. The Council represents students in matters pertaining to student welfare, student activities, student participation in University planning and administration, and student opinions.

The student government consists of a president and vice-president elected by the student body, four class presidents and senators elected from eleven living and interest areas. There are also five commissions which plan some of the activities sponsored by student government. Social Senate, a standing committee of the Student Council composed of representatives from governing groups of major living units and all-campus organizations, is responsible for approving all sales and money-making events of student organizations, for providing and encouraging a well-rounded social program on the campus, and for recommending changes in rules and regulations governing student functions.

A Campus Journalism Council is composed of the president of the student body, three faculty members, and three appointed students.

RELIGIOUS GROUPS

An Inter-Faith Council, composed of an adult and a student from each religious organization on the campus, sponsors "Religion-in-Life-Week" and serves in an advisory capacity to the Office of Student Affairs on matters dealing with the religious life of students.

Religious groups at Southern include the Newman Club for Catholic students, Lutheran Student Association and Gamma Delta for Lutheran students, Wesley Foundation for Methodist students, the Christian Science Organization, the Unitarian Fellowship, the Baptist Student Union for Baptist students, the Canterbury Club for Episcopalian students, the Jewish Interest Group, the Student Christian Foundation for students of several Protestant faiths, and the Inter-varsity Christian Fellowship.

SOCIAL SORORITIES AND FRATERNITIES

There are five national sororities -- Alpha Gamma Delta, Alpha Kappa Alpha, Delta Zeta, Sigma Kappa, and Sigma Sigma Sigma -- and nine national fraternities -- Alpha Phi Alpha, Delta Chi, Kappa Alpha Psi, Phi Kappa Tau, Phi Sigma Kappa, Sigma Pi, Sigma Tau Gamma, Tau Kappa Epsilon, and Theta Xi -- at Southern. Each year they sponsor a "Greek Week," compete in a "Greek Sing," and hold workshops and special events. Panhellenic Council, Interfraternity Council, and Inter-Greek Council serve as governing groups for these organizations.

The Counseling and Testing Center helps students with personal, academic and vocational problems as well as administering various types of aptitude and achievement tests. The Testing Center administers the General Educational Development tests on the first Friday and Saturday of each month except September and October. Residents of Illinois at least 21 years old are eligible to take the tests as a means of qualifying for a high school diploma. Application must be made through the county superintendent of schools in the county where the applicant lives.

Student Financial Assistance Center

Southern Illinois University's program of financial assistance includes scholarships, awards, prizes, grants-in-aid, private agency awards, and student loan funds. These include University scholarship and Activity Awards, Illinois State, Illinois Teacher Training, Military, and General Assembly Scholarships.

The National Defense Student Loan Program, established during the spring quarter of 1959, created for the first time a substantial loan fund from which needy and deserving students can borrow money for educational expenses over an extended period. At the end of the spring term, 1962, more than 1200 students will have borrowed \$750,000.00 from these funds.

For students in need of financial assistance of a temporary nature, loans are administered from a total loan principal of \$23,000.00 available in 25 loan funds.

REMARKS

The following remarks were made by the speaker at the meeting of the Council of the League of Nations, held on 12th September 1922, at Geneva.

The speaker pointed out that the League of Nations was a new organization, and that it was necessary for it to be able to deal with the various problems which might arise. He said that the League was not a permanent organization, but that it was a temporary one, and that it would be dissolved when the world was at peace.

THE LEAGUE OF NATIONS

The League of Nations was created by the Treaty of Versailles, which was signed on 28th June 1919. It was the first time that a world organization had been created, and it was the first time that a world organization had been created by a treaty.

The League of Nations was created by the Treaty of Versailles, which was signed on 28th June 1919. It was the first time that a world organization had been created, and it was the first time that a world organization had been created by a treaty.

The League of Nations was created by the Treaty of Versailles, which was signed on 28th June 1919. It was the first time that a world organization had been created, and it was the first time that a world organization had been created by a treaty.

The League of Nations was created by the Treaty of Versailles, which was signed on 28th June 1919. It was the first time that a world organization had been created, and it was the first time that a world organization had been created by a treaty.

Student Employment

During the academic year, 3300 students are employed in Southern Illinois University' work-study program for capable, needy students. Another 1,400 students work off-campus for area employers, part-time to defray part or all of their college expense. The office also provides information on summer jobs in camps, resorts, businesses and industry.

The Student Work Office is a referral agency and does not guarantee employment, but every effort is made to help students find jobs, especially those students with financial need and high academic potential as indicated by their high school records.

Student Housing

Assignments to University residences are made on a first-come, first-serve basis. One exception to this rule is that a few spaces are reserved for some students from other countries and students receiving rehabilitation aid. Further, it is the policy of the University to reserve approximately 50 per cent of available spaces in the residence hall for incoming freshmen to be filled on a first-come, first-served basis.

The University provides information to students on off-campus housing facilities. Lists of vacancies for single and married students are available in the Housing Office. Approved housing must meet minimum sanitation and safety standards as established by the University.

ATHLETICS

Southern Illinois University offers a well-rounded program of varsity athletics with football and cross country in the fall; basketball, swimming, gymnastics, and wrestling in the winter; and baseball, track, golf, tennis, and spring football in the spring. Each year more than 500 men compete in one or more of these varsity sports. Dr. Donald N. Boydston, head of SIU's health education department, became athletic director in 1957. Participation is stressed, and to this end regular schedules in football, swimming, baseball and basketball are arranged for freshman teams.

Members of the Saluki coaching staff are: Ralph Casey, head swimming coach; Robert Franz, football line coach; Harry Gallatin, head basketball coach; Lynn Holder, head golf coach and graduate manager of athletics; George Iubelt, freshman basketball coach; Carmen Piccone, head football coach; John R. LeFevre, head tennis coach; Lew Hartzog, track and cross country coach; Glenn (Abe) Martin, head baseball coach and head of intramurals; William Meade, head gymnastics coach; Andrew Vaughn, athletic field representative; and James Wilkinson, head wrestling coach. Graduate assistants each year also play an important part in the coaching of SIU's 10 varsity sports.

Robert Spackman is head trainer and physical therapist. John Grimes is equipment manager, and George Davis heads the student work program.

FACILITIES

Southern's football and track teams compete at McAndrew Stadium, which is named for the late William McAndrew, SIU's athletic director from 1913-1943. The stadium has a permanent seating capacity of 8,543 with temporary bleachers boosting the total to 12,000. The SIU track is a one-fourth mile oval with a 220-yard straightaway. The cross country course is in the area south of McAndrew Stadium.

Basketball, wrestling, and gymnastics contests are held in the 1,584-seat Men's Gymnasium. The temporary baseball field is off West Chautauqua street one-fourth mile west of the main campus. Twelve new tennis courts are located south of the physical plant. Golf teams play on the nine-hole courses at Jackson County Club midway between Carbondale and Murphysboro as well as other area courses. The University swimming pool (5 lanes by 75 feet) is in the physical education wing at University School.

Southern's mascot is the Saluki, a descendant of the famous Saluki hunting dog which dates back to Egypt and other nearby countries. Renowned for speed and endurance, it is the oldest pure breed in the world, records of its existence dating back to 3600 B.C. The Saluki, which is similar in appearance to a Greyhound, was adopted as SIU's sports symbol in 1951. Prior to that, Southern's teams were called "Maroons,"

Southern is a member of the Interstate Intercollegiate Athletic Conference, (IIAC), which also includes Northern Illinois (DeKalb), Eastern Illinois (Charleston), Western Illinois (Macomb), Illinois Normal (Normal), Central Michigan (Mt. Pleasant, Mich.), and Eastern Michigan (Ypsilanti, Mich.). However, it has withdrawn from the league, effective at the end of the 1961-62 school year. SIU also is a member of the National Collegiate Athletic Association (NCAA).

Intramurals. Southern's intramural program, which began in the 1920's, has now mushroomed until it includes about 3,500 men and 500 women students each year. An intramural student board helps govern and administer the program. Trophies are awarded to team champions and other awards go to winners of individual sports. The 16 activities now included in the varied program are touch football, corkball, golf, tennis, ping pong, badminton, horseshoes, volleyball, shuffleboard, free throw shooting, basketball, softball, swimming and diving, and track and field, wrestling and bowling.

NOTE: Each season (fall, winter, and spring), sports information brochures are available for persons interested in detailed information about Southern's varsity sports. Those desiring copies should write Fred Huff, Sports Information Director, SIU Information Service, Carbondale.

BACKGROUND: EDWARDSVILLE CAMPUS

In 1949 a Residence Center was established in Belleville to help meet the increased needs for in-service training of teachers. In 1957 Residence Centers for both full-time and part-time students opened in Alton and East St. Louis, and in 1959 administrative offices of the University's program in Madison and St. Clair Counties were moved to the new campus at Edwardsville.

EDWARDSVILLE CAMPUS -- LOCATION

The Edwardsville Campus site is located two and a half miles southwest of Edwardsville and just off highway U.S. 66 By-pass. The East St. Louis Center is located on Ohio Street at Ninth and Tenth Streets, and the Alton Center on Illinois highway 140 in Alton, at the site of the former Shurtleff College.

EDWARDSVILLE CAMPUS -- GENERAL

The operational program of Southern Illinois University's Edwardsville Campus is unique. Facilities of the former Shurtleff College have been leased by the University for the operation of the Alton Center. Eight permanent buildings form the nucleus of this 40-acre center. Nine additional buildings have been prepared on a temporary basis to meet the needs of an expanding undergraduate and graduate program.

The East St. Louis Center is located in a former senior high school building. Laboratories, classrooms, library and other facilities have been redesigned and re-equipped to provide a comprehensive undergraduate and graduate program.

Most of the administrative offices of the University's program in Madison and St. Clair Counties are housed in existing residence buildings on the campus site near Edwardsville, where the target date for the holding of first classes is 1964.

CAMPUS MASTER PLAN

As of January, 1962, the Edwardsville Campus master plan's projected development includes the following basic land-use areas: The main academic core, dominated in the center by a large "central mall" rimmed by the University Center, Communications Building, Central Office and Service Center, and the Library. Instructional and research buildings will be located tightly around this center. Other features are three lakes-- a 90-acre utility reservoir; an 80-acre utilities reserve and conservati reservoir; and a 40-acre conservation reservoir.

Long-range plans also include: a 120-acre cooperative research area and a 380-acre agricultural research section, with another 180 acres earmarked for physical education and recreation; 70 acres for a recreation and housing reserve; 70 acres for physical education and outdoor education; 105 acres for faculty housing; an 85-acre "remote research" area; a 125-acre native arboretum and a 50-acre primitive arboretum; a 135-acre recreation research and housing reserve; a community center, a conservation research and reserve, and professional school areas.

A staff member serves as spokesman for faculty members who will teach and work in buildings on the new campus. He consults with architects on special features required for various buildings and advises them of certain educational advancements in technique and equipment that require pre-planning a building design.

UNIVERSITY SERVICES -- EDWARDSVILLE CAMPUS

AUXILIARY AND SERVICE ENTERPRISES

Auxiliary and Service Enterprises, comprising the self-supporting enterprises and service departments of the Edwardsville Campus, include cafeterias, University stores, textbook rental, transportation, general stores, mail and telephone services, and office machine repair.

ALUMNI SERVICE

A field representative of the Alumni Service works with local alumni clubs of the area and helps their members keep abreast of the progress and development of the University.

COMMUNITY DEVELOPMENT

Established in 1953 at the Carbondale Campus, the Community Development Service has a consultant on the Edwardsville Campus to help citizen groups of the area explore specific problems of their communities and to train local leaders to help meet them.

HEALTH SERVICE

Health Service facilities with registered nurses on duty are available at the Alton and East St. Louis Centers. A student medical benefit fund provided from student activity fees supplements the Health Service budget and enables it to cover a portion of the costs arising from accident or illness of an emergency nature involving students engaged in school activities on University premises. Also provided are a polio immunization program, hearing tests and vision tests.

INFORMATION SERVICE

Information Service is the official news agency of the University and provides information about the activities of the university and achievements of its students and faculty to newspapers, radio and television stations and to periodicals.

PLACEMENT SERVICE

Placement Service assists students and former students in finding full-time employment in business, industry, the professions and the teaching field. It also maintains a library of employer information and schedules interviews between registered students and company representatives who visit the campus throughout the year.

PRINTING AND ART SERVICE: PHOTOGRAPHIC SERVICE

The Printing and Art Service handles art, mimeographing, and printing requests of the academic and service divisions and student organizations. Photographic Service is designed to serve their photographic needs.

PUBLIC ADMINISTRATION AND METROPOLITAN AFFAIRS PROGRAM

The Public Administration and Metropolitan Affairs Program is a projection of the University's belief that as the Edwardsville Campus develops, it must be cognizant of the contribution it can make to the economic, political and social enhancement of the metropolitan area of which it is a part. By encouraging and supporting urban research it is intended that the program become the storage center for all data and materials concerning growth and development problems of the Illinois portion of the Metropolitan area. Through these studies it is hoped that a better understanding of urban-social processes will result, and that these findings will be made available to citizens and officials to help them in making public policy decisions in area development and inter-governmental cooperative efforts.

DIVISIONS OF STUDY

BUSINESS DIVISION

The Business Division seeks to acquaint students with the operational phase of business, the sources of information and methods of collecting and interpreting data, and the art of human relations.

EDUCATION DIVISION

The Education Division prepares teachers for all grades from kindergarten through high school and provides basic training in the fields of psychology and guidance. Committed to giving professional training to teachers, supervisors, administrators and specialists, it includes provisional work in several specialities in school administration and supervision.

FINE ARTS DIVISION

The Fine Arts Division serves to stimulate creative and professional work in art, music, speech and drama, providing service courses and activities for all students who want experience in the fine arts fields either for a general cultural background or for practical reasons.

HUMANITIES DIVISION

The Humanities Division provides instruction in the intellectual disciplines of English and other languages, of literature, and of ideas. It is concerned with instruction in the reading, writing, and speaking of English and other languages, the development of an understanding and appreciation of literature and the accompanying recognition of its civilizing values.

SCIENCE AND TECHNOLOGY DIVISION

The Science and Technology Division adds to the general education of all students by offering basic courses in mathematics and the physical and life sciences. For more advanced students, the division seeks to develop an understanding of methods and disciplines in technology and industrial processes.

SOCIAL SCIENCES DIVISION

The Social Science Division offers courses designed to enable students to achieve an understanding and appreciation of civilization viewed in historical perspective, and to equip them for constructive participation in the activities of the family, community and nation.

GRADUATE STUDIES

Graduates of fully accredited colleges and universities who meet other admission requirements may pursue courses of study leading to a master's degree in education, liberal arts, business and fine arts at the Edwardsville Campus. Fields in which major study may be pursued are educational administration and supervision, elementary education, guidance, secondary education and special education. Graduate minors are available in most business, fine arts, and liberal arts fields, as well as in the education areas.

PRE-PROFESSIONAL PROGRAMS

The Edwardsville Campus offers pre-professional programs for students training for careers in engineering, medicine, dentistry, veterinary science, pharmacy, occupational therapy and law.

100

The first part of the paper is devoted to a general discussion of the problem of the origin of life. It is shown that the problem is not only a scientific one, but also a philosophical one. The scientific aspect of the problem is concerned with the question of how life arose from non-life. The philosophical aspect is concerned with the question of whether life is a necessary part of the universe or whether it is a mere accident. The paper then proceeds to a discussion of the various theories of the origin of life. It is shown that the most plausible theory is that life arose from non-life through a series of chemical reactions. This theory is supported by the discovery of the first fossilized micro-organisms, which are believed to be the earliest forms of life. The paper concludes by stating that the origin of life is a problem that has fascinated mankind for centuries, and that it is one that will continue to fascinate us for many years to come.

INDUSTRIAL AND TECHNICAL PROGRAMS

The Industrial and Technical Programs represent the Division of Technical and Adult Education in the Edwardsville area. An industrial management program at three locations (Alton, East St. Louis and Granite City), is designed to give current and potential foremen and supervisors of the area a more complete background of information with which to make on-the-job decisions. Upon request from individuals, industries, organizations, or groups in the area, the Industrial and Technical Program also plans, develops and conducts miscellaneous short courses, in-plant courses, seminars, conferences and workshops in industrial, technical and other areas.

INTRAMURAL SPORTS

Intramural sports on the Edwardsville Campus are organized to give every student an opportunity to take part in several different activities. All students of the University, including graduate students, are eligible to participate in the extensive program. It is possible for men students to receive an intramural varsity letter and for women students to receive WRA awards for their accumulative participation during the year.

LIBRARIES

Library facilities are provided at Alton and East St. Louis with about 60,000 volumes contained at each location, plus a collection of children's literature, phonograph records, curriculum guides and courses of study, 625 periodicals, 40 newspapers, including microfilm editions for permanent record; and they act as service agencies for materials available from the Carbondale Campus and as an official depository for federal and Illinois state documents. All books are received at the Central Library at Edwardsville where national and trade bibliographies, including the catalog of the Library of Congress are located.

PERSONNEL FIGURES

The Edwardsville Campus of the University has a full-time faculty and administrative staff of 191, plus another 119 persons serving on a part-time basis. In addition, there are 141 full-time and seven part-time non-academic employees. These figures were current as of December, 1961, and will change from time to time as the Edwardsville Campus continues to grow.

ADMISSION REQUIREMENTS

(Same requirements as for Carbondale Campus: See page 12)

ENROLLMENT FIGURES

Fall quarter (1961-62 school year) enrollment of students working toward degrees at the Edwardsville Campus totaled 4,317. Of this number, 2,256 were enrolled at Alton and 2,061 at East St. Louis.

FEES

(Same fees as for Carbondale Campus. See page 12)

FINANCIAL ASSISTANCE

The financial assistance program on the Edwardsville Campus is planned to enable talented high school graduates who may lack financial resources to enter and continue experiences in higher education. It includes scholarships, awards, prizes, grants-in-aid and student loan funds. The University does not encourage students to expect to meet all University expenses from such sources. Minimum scholastic averages and the degree of financial need are considered in determining the recipients of many forms of financial assistance available.

HOUSING

The Edwardsville Campus has no housing facilities, and the University neither approves nor authorizes housing for Alton and East St. Louis Center students. The Office of Student Affairs maintains a listing of rooms, apartments, and houses for rent or sale. This list is kept for the convenience of faculty members and students, and all arrangements for housing and all business transactions in the matter of housing are the sole responsibility of the student and owner of the housing facility. There are no social sororities or fraternities on the Edwardsville Campus.

STUDENT AFFAIRS

The services of the Office of Student Affairs are designed to assist in developing and maintaining a suitable campus environment for all students. It coordinates all student personnel services not directly associated with academic instruction and supervises all student activities and organizations.

STUDENT EMPLOYMENT PROGRAM

The student employment program seeks to provide part-time work experience, both on and off campus, which relates, if possible, to the student's academic program. An average of 350 students per month are employed by the University under its student employment program on the Edwardsville Campus.

STUDENT GOVERNMENT

Student Councils, organized at the Alton and East St. Louis Centers, are the official organizations designated to represent students in student welfare, student activities, student participation in University affairs, and student participation in University planning and administration. Councils serve as channels of communication between the student bodies and the administration.

BACKGROUND: SOUTHERN ILLINOIS UNIVERSITY

Southern was chartered as Southern Illinois Normal University in 1869. It remained a normal school and a teachers college until July 1, 1943, when the General Assembly granted it the powers of a university. The name was changed to Southern Illinois University by legislative action in 1947. On July 1, 1949, the university entered into a new period of development under a separate governing board of trustees, appointed for two years. The first permanent board was appointed August 30, 1951.

PRESIDENT MORRIS

Dr. Delye Wesley Morris was born at Xenia, Illinois, April 11, 1907. Educated in the public schools of Xenia and Flora, he obtained the bachelor's degree from Park College, Parkville, Missouri; the master's degree from the University of Maine; and the doctor of philosophy degree from the University of Iowa. He taught in a public school in Oklahoma, the University of Maine, the Junior College of Kansas City, Missouri, the Indiana State Teachers College, Terre Haute, Indiana; and Ohio State University, where he served as professor of speech and director of the Speech and Hearing Clinic. He came to Southern as eighth president on September 10, 1948, and was inaugurated May 5, 1949.

SOUTHERN'S PAST PRESIDENTS

Robert Allyn, 1874 - 1892	Henry William Shryock, 1913 - 1935
John Hull, 1892 - 1893	George Dorritt Wham, 1935 (acting)
Harvey William Everest, 1893 - 1897	Roscoe Pulliam, 1935 - 1944
Daniel Baldwin Parkinson, 1897 - 1913	Bruce Welch Merwin, 1944 - 1945 (acting)
	Chester F. Lay, 1945 - 1948

LOCATION

The central campus of Southern Illinois University is situated in Carbondale, Jackson County, a community of 15,000 located 100 miles southeast of St. Louis. A transportation center, Carbondale is located at the intersection of U.S. Route 51 and State Route 13; is the junction point for the St. Louis branch with the Illinois Central Railroad main line; and is served by two airports, the University-operated Southern Illinois Airport and nearby Williamson County Airport, served by Ozark Airlines.

In addition to the campus at Carbondale, the University includes the Edwardsville campus with centers at Alton and East St. Louis; a Vocational Technical Institute at its Southern Acres campus 11 miles east of Carbondale; and an outdoor education campus at Little Grassy Lake six miles southeast of Carbondale.

— — — — —

PHYSICAL FACILITIES

Central Carbondale campus, exclusive of the University farms, comprises 801 acres, on which are located 59 permanent, 60 World War II wooden barracks and nearby 100 converted residences serving the classroom, laboratory, residence hall, office and service needs of the school.

The following major buildings are in use. Table shows date constructed and cost of post-war construction.

Old Main.....	1887	Anthony Hall.....	1913

UNIVERSITY SERVICES

AREA SERVICES DIVISION. Works on an all-University basis to schedule the use of University facilities by responsible off-campus organizations and groups; to prepare and disseminate data pertinent to planning, activating, controlling and evaluating programs essential to serving the area and to cooperate with communities and with federal, state and private groups in programs for developing the economic, cultural and social resources of the area. Affiliated with the Division in performing these functions are: Alumni Service, concerned with maintaining alumni records and with creating and maintaining a bond of interest between the University and its graduates and former students; Broadcasting Service which maintains and operates an educational FM radio station, WSIU, and an educational television station, WSIU-TV (Channel 8), as well as tape network service to area radio and television stations; the Community Development Service which makes available University resources for giving social and economic counsel and leadership to interested area communities; the Information Service, an official news agency for releasing information of general interest about the University and its students to news media; the Photographic Service, serving the photographic needs of the University for news, teaching aids, exhibits, portraits, identification photos, and publications; and the Placement Service which is maintained for the benefit of students and SIU graduates seeking employment in fields for which they have received training.

UNITED STATES

General and specific information concerning the activities of the various departments and divisions of the Department of the Interior, including the Bureau of Land Management, the Bureau of Reclamation, the Bureau of Indian Affairs, the Geological Survey, the Fish and Wildlife Service, and the National Park Service.

The following are the names of the various departments and divisions of the Department of the Interior, and the names of the persons who are in charge of them.

1911	1912
1913	1914
1915	1916
1917	1918
1919	1920

General and specific information concerning the activities of the various departments and divisions of the Department of the Interior, including the Bureau of Land Management, the Bureau of Reclamation, the Bureau of Indian Affairs, the Geological Survey, the Fish and Wildlife Service, and the National Park Service.

General and specific information concerning the activities of the various departments and divisions of the Department of the Interior, including the Bureau of Land Management, the Bureau of Reclamation, the Bureau of Indian Affairs, the Geological Survey, the Fish and Wildlife Service, and the National Park Service.

UNITED STATES

General and specific information concerning the activities of the various departments and divisions of the Department of the Interior, including the Bureau of Land Management, the Bureau of Reclamation, the Bureau of Indian Affairs, the Geological Survey, the Fish and Wildlife Service, and the National Park Service.

AUDIO-VISUAL DEPARTMENT. Southern's film library of nearly 6,000 motion picture films and 2,000 film strips is serving the needs of more than 1,140 schools and adult organizations. The audio-visual service is a department of the University library with two primary functions -- on-campus and area services. Campus users are provided with various types of projection service, graphic arts and sound materials as needed by instructors and departments. Consultation service to help schools with their audio-visual programs is provided.

CHILD GUIDANCE CLINIC. The Child Guidance Clinic studies cases of children and adolescents having difficulty with school work, emotional adjustments, attitudes and personality conflicts. A Department of Guidance offers special consultant services to schools for initiating and upgrading guidance and testing programs.

DATA PROCESSING AND COMPUTING CENTER. The Data Processing and Computing Center serves the instructional and research agencies through its magnetic tape and punched-card computing machinery and technical assistance for activities requiring complicated or time-consuming computing processes.

COOPERATIVE CLINICAL SERVICES CENTER. The Cooperative Clinical Services Center at SIU brings campus clinicians and therapists of all kinds under one service roof to aid the handicapped.

EDUCATIONAL RESEARCH BUREAU. As an outgrowth of recommendations by school administrators, the College of Education established the Educational Research Bureau for working with schools in matters of district reorganization, plant construction, curriculum, and other problems through the organized approach of school surveys or by consultative services.

EMPLOYMENT TRAINING CENTER. The Employment Evaluation and Training Project, an Occupational Training Center, and Sheltered Workshop have been combined under the direction of Vincent P. Farrell as an Employment Training Center. These three programs service handicapped adults by preparing vocational evaluation and training. Employment Training Center continues to be directed by the Department of Special Education.

HEALTH SERVICE. The University maintains a staff of physicians, nurses, technicians and a pharmacist to serve as an out-patient clinic in diagnosing and treating student illnesses and accidents, to make referrals to other specialists, to provide consultation, and to maintain immunization programs.

LOCAL GOVERNMENT CENTER. Organized as a part of the Public Affairs Research Bureau, the Center provides assistance to local government officials. Its purposes are to prepare publications concerning local government, to help analyze and solve governmental problem, and to build a competent library to provide information to civic groups.

PSYCHOLOGICAL SERVICES CENTER provides professional services to University students, to community adults and children, and to industries of the area. Psychological counseling and personality appraisal, including the use of different types of psychological tests, are provided to assist individuals with personal-social problems. The Center also provides consultation services to University and community agencies and interested groups on the psychological aspects of child-parent relationships, adolescent development, and other areas of personal and social significance.

The **READING CENTER** in the College of Education, helps students improve reading skills and study habits, and serves as a laboratory for teachers in training as reading specialists. Referrals are accepted from area schools and consultant services in reading are available to elementary and secondary schools.

SPEECH AND HEARING CLINIC offers examinations and therapy to children and adults-7- who have speech defects such as stuttering, cleft palate, articulatory difficulties, or cerebral palsy. Also offered is a program for the hard of hearing which includes auditory training, lip reading, speech conversation, testing of hearing, and the fitting of hearing aids. The clinic cooperates with other agencies including the Division of Services for Crippled Children, the Easter Seal Agency, the Department of Public Welfare and other related service agencies, and is a division of Southern's Cooperative Clinical Services Center.

TEXTBOOK SERVICE. A textbook rental system operated through the University Textbook Service simplifies the book problem for the student. The service rents an average of five books per student enrolled. This accounts to more than 50,000 books per term. The stock of textbooks totals more than 100,000. The textbook Service is a part of the Morris Library.

UNIVERSITY FOUNDATION. The Southern Illinois University Foundation, chartered by the state in 1942 as a non-profit corporation, receives gifts and grants for the University's benefit, can buy and lease property, and serve faculty members in obtaining copyrights or patents and in providing market contacts for inventions resulting from research.

UNIVERSITY PRESS, established in 1953, is a book publishing agency of the University issuing books of general and educational interest by SIU staff members as well as other scholars and authors.

OTHER services include the Printing Service and the Stenographic Service which perform a wide variety of duplicating and printing services for the University, its departments, offices and organizations.

BUDGET AND APPROPRIATIONS

The state General Assembly appropriates financial support to the University on a two-year basis. Most of the money comes from state tax revenues. In addition, the state appropriates the University's own income which, by law, must be deposited with the state treasurer (excluding auxiliary enterprises, handled locally).

The following state appropriations were made to the University for the 1961-63 biennium:

From State Tax Revenues:

For Operation and Maintenance	\$39,840,690.00
For Permanent Improvements	400,000.00
For Scholarships	215,000.00

For Capital Additions:

* Universities Building Fund:

Land	\$ 2,000,000.00
Enlargement and Rehabilitation	9,065,000.00
New Construction	41,000,000.00
Landscaping and Land Development	<u>1,185,000.00</u>
Total Universities Building Fund	53,250,000.00

Reappropriations of the

Previous Biennium	<u>1,531,250.92</u>	<u>54,781,250.92</u>
-------------------	---------------------	----------------------

TOTAL

95,236,940.92

From University Income:

For Education Operations	<u>1,830,000.00</u>
--------------------------	---------------------

Total State Appropriations

97,066,940.92

* Southern's share of proceeds from sale of the State Universities Bond Issue voted by the electorate in 1961.

Inventory of Plant and Equipment, June 30, 1962

Total	10,000.00	10,000.00	

The above statement was prepared by the undersigned and is true and correct to the best of his knowledge and belief.

ACADEMIC STANDING

Southern is accredited by the Commission on Colleges and Universities of the North Central Association in Group IV (as a university), the American Association of Colleges for Teacher Education, the Association of American Colleges, and the National Association of Schools of Music.

ADMISSION REQUIREMENTS

To be eligible for admission to Southern Illinois University, an applicant must be over 21 or be a graduate of a recognized high school. Graduates of non-recognized high schools may be admitted by examination. Persons ranking in the lowest one-third of their high school graduating class will be admitted on scholastic probation only for the summer, winter or spring quarters. Exceptions to this rule may be made if they show high scores on the University's entrance examinations, allowing them to enter in the fall quarter.

FEES

The University reserves the right to change fees at any time. At present, the fees for a regular quarter (12 weeks) for a full-time (more than 8 quarter hours) student are:

Tuition	\$42.00
Student Activity Fee	9.50
Student Union Building fund fee	5.00
Book rental	5.00
Total	<u>\$61.00</u>

Fee for out-of-state students is an additional \$50.00 plus those listed above.

AIR FORCE RESERVE OFFICERS' TRAINING CORPS

All male students, except those who have actively served in any of the Armed Forces six months or more, entering Southern as freshmen or sophomores are required to enroll in the basic Air Force Reserve Officers' Training Corps. When a student finishes his first two years of required AFROTC training, he may apply for admission to the advanced course. Upon graduation a student may be commissioned a Second Lieutenant in the United States Air Force Reserve and later called to active duty.

While a student is completing his junior and senior years in the AFROTC program he is entitled to an allowance of 90 cents per day. During their senior year, students who have volunteered and are qualified for pilot training receive 35 hours of flight instruction which qualifies them for a private pilot's license.

PERSONNEL

The University has a full-time faculty and administrative staff (as of November, 1962) of 1,736, including graduate fellows and graduate teaching and research assistants assigned to departmental staffs on the basis of high scholarship and promise in graduate work. Part-time academic employees total 78. The University staff includes 629 full-time and 34 part-time civil service employees. Among faculty classifications are adjunct professor and research associate, titles given to persons with special skills who serve the University without salary through consultation and cooperative research programs.

GRADUATE SCHOOL

Graduates of fully accredited colleges and universities may pursue courses of study leading to a master's degree in arts, science, education, and fine arts. In addition there is a sixth year program leading to a certificate of specialist. Programs leading to the degree of doctor of philosophy are available in selected areas. Southern Illinois University is accredited by the North Central Association of Colleges and Secondary Schools as an institution conferring the Master's degree.

COLLEGE OF EDUCATION

The College of Education provides professional training for teaching at all levels in the public schools and for supervisors, administrators, and specialists. Departments in the College are: educational administration and supervision; elementary education; guidance; health education; instructional materials; physical education for men; physical education for women; recreation and outdoor education; secondary education; higher education, and special education. The teacher training division offers student teaching in all departments, using the University School at SIU and qualified public schools in the Area where potential teachers observe good teaching, make studies, and obtain practice. A reading center has been established to provide teachers with special training in reading and to assist teachers in service.

THE UNITED STATES OF AMERICA

It is the policy of the United States to support the people of the world in their struggle for freedom and independence. This policy is based on the principle that all people have the right to self-determination and to live in peace and harmony with their neighbors. The United States will continue to support the people of the world in their struggle for freedom and independence, and will continue to work for a world of peace and harmony.

The United States is committed to the principle of self-determination for all people. It will continue to support the people of the world in their struggle for freedom and independence, and will continue to work for a world of peace and harmony.

COLLEGE OF LIBERAL ARTS AND SCIENCES

The College of Liberal Arts and Sciences provides for specialized education in the fields of instruction covered by its departments and is for students desiring general cultural courses as well as those planning to take pre-dental, pre-legal, pre-medical, pre-theological, pre-pharmaceutical, pre-veterinary, pre-public health or pre-occupational therapy courses. The College is also a service instructional unit for other Colleges, Schools and Institutes, serving both general and specialized educational needs of their students. The degree granted is the Bachelor of Arts.

SCHOOL OF AGRICULTURE

The School of Agriculture was created by state legislative action July 1, 1955, for instruction, demonstration, and consultation in agriculture, forestry, and other activities concerned with the rural development of Southern Illinois.

Following prolonged study, a reorganization plan creating departments in the School of Agriculture was instituted July 1, 1957. These are: the departments of agricultural industries, animal industries, plant industries, and forestry. The University farms, the Illinois Horticultural Experiment Station, the SIU-U. of I. Cooperative Agronomy Research Center are components of the school. The School was approved in 1958 for training vocational agriculture teachers. A federal Small Fruits Research Station was activated in 1959 in cooperation with the U.S. Department of Agriculture.

SCHOOL OF BUSINESS

The School of Business provides courses of instruction leading to bachelor and advanced degrees emphasizing such fields as accounting, business education, economics management, marketing, and secretarial studies. The School stimulates research and provides service work in these fields for other units of the University. The School is organized into five departments: accounting, management, marketing, secretarial and business education and economics.

SCHOOL OF COMMUNICATIONS

The School of Communications coordinates and facilitates the development of programs, provides instruction and stimulates research in the effective use of such communications media as public speaking, television, radio, newspapers and magazines, and provides service work in these fields for other educational units which require it. Components of the school are the departments of speech, speech correction, theater, radio-television, journalism, and printing and photography.

SCHOOL OF FINE ARTS

The School of Fine Arts includes the departments of art, design, and music. Art students may major in pottery, painting, and printmaking, jewelry and silversmithing, sculpture, and weaving. Design students may major in visual design or in product-shelter design. The Department of Music is a member of the National Association of Schools of Music. It offers major programs in music theory, history and literature, piano, organ, voice, opera workshop, stringed instruments, wind instruments, percussion instruments, instrumental and vocal ensembles.

The College of Arts and Sciences was founded in 1863, and its first year of operation was in 1864. It was then known as the College of Arts and Sciences, and its first president was Dr. John H. Johnson. The college was founded by the State of Ohio, and its first year of operation was in 1864. It was then known as the College of Arts and Sciences, and its first president was Dr. John H. Johnson. The college was founded by the State of Ohio, and its first year of operation was in 1864. It was then known as the College of Arts and Sciences, and its first president was Dr. John H. Johnson.

SCHOOL OF HOME ECONOMICS

The School of Home Economics was established to provide instruction, to stimulate research, to provide service in this field for other educational units desiring it, and to give service to the people in the area in helping improve the understandings and practices in their families and homes.

The school is composed of the departments of clothing and textiles, food and nutrition, home and family, and home economics education.

SCHOOL OF TECHNOLOGY

Effective July 1, 1961 the School of Technology was established. It includes the departments of applied science and industrial education. The applied science department provides instruction, consultation and research in various fields of engineering and continues to give a pre-engineering program for those who plan to transfer to other universities.

The industrial education department prepares teachers of industrial arts and industrial trades. It also involves the education for training directors and supervisors within industry as well as the preparation of manual arts therapists.

EXTENSION DIVISION

Through the Extension Division, University faculty members conduct college credit courses off-campus. A program of radio and television credit courses also has been initiated.

The Division offers planning assistance for educational conferences, workshops and conventions, and also makes arrangements for the SIU Touring Theater to present plays in area communities during a seven-weeks period each fall. The Theater, composed of advanced drama students, is self-supporting and area organizations earn funds for local civic projects by sponsoring the plays. This group performs in about 30 communities with a total attendance of 25,00 each year.

DIVISION OF TECHNICAL AND ADULT EDUCATION

The Division of Technical and Adult Education was established for all students of the University not seeking bachelor, master, or doctoral degrees. The Division also includes the Vocational Technical Institute, started in 1952.

Adult Education consists of non-credit courses in various vocational, technical, and general education fields. Nominal tuition fees are charged. The courses are designed to assist adults to do their job better or to gain skills for advancement to better positions. Enrollment in adult education has shown a continued growth, with a present size of about 10,000 adults annually. Besides a permanent staff, the Division utilizes as instructors a group of trained personnel in specific fields from business, industry, and the professions.

Vocational Technical Institute, an integral part of the Division of Technical and Adult Education, was established as a Day School program and offers one-and two-year technical curricula. The two-year programs lead to degrees of associate in art, associate in business, or associate in technology. One-year programs leading to a certificate also are offered.

The VTI is located at the University's Southern Acres campus, 11 miles east of Carbondale on Old Route 13. The campus includes classrooms, industrial-type shops, laboratories, cafeteria, student center, health center service, housing accommodation for married students, and two men's residence halls.

DEPARTMENT OF NURSING

The Department of Nursing offers two programs, both leading to the degree, bachelor of science in nursing. The basic professional program is 14 quarters of general education, professional courses and experience, and is for students who have had no previous preparation for professional nursing. Graduates of this program are qualified for licensure as registered nurses. The supplemental program for registered nurses is a combination of general education and upper division nursing courses. Students who enroll full-time can complete requirements for the degree in about two years, including summers. Practicums in public health and hospital nursing are required.

RECREATION AND OUTDOOR EDUCATION

Southern conducts programs of outdoor education and school camping at camps at Little Grassy Lake for students of all age levels -- elementary through college. Purposes of the camping projects are to enrich learning programs in various subject matter fields; provide an outdoor laboratory in teacher training; provide a laboratory for experimental work and course work in many University departments; give experience in "primitive" camping, focus attention on the need for conservation and recreational development in the area, and train camp counselors and camp directors. The national Outdoor Education Association headquarters was moved to SIU in 1961. Each year hundreds of people -- both normal and handicapped -- participate in outdoor programs at the SIU campsites. The Department of Recreation and Outdoor Education coordinates these programs.

UNIVERSITY INSTITUTES. A number of Institutes are being established at Southern Illinois University to serve special areas of interest through educational programs and advisory services. The educational programs comprise a course of study for undergraduate and graduate students in a number of related departments of the University.

Current institutes include: the Community Development Institute, established in 1956 to meet the shortage of professionally-trained personnel in the field of community service; the Latin American Institute, activated in 1958 to provide advisory services and promote better understanding toward Latin American countries as well as educational preparation for service in those countries; the Labor Institute to provide educational programs for those planning careers in the field of labor and to provide consultative service to area labor groups; the Rehabilitation Institute, established in 1957 to co-ordinate and augment the training of college students and other field workers in counseling or serving the handicapped and to provide consultant services in this field; the Small Business Institute, established in 1954 to provide educational programs for students interested in establishing their own businesses and to give technical advice on small business operations; and the Transportation Service to provide educational opportunities and consultation for those working or planning to work in various phases of transportation.

ASIAN STUDIES PROGRAM. The university's Asian Studies Committee has developed an instructional program with other departments in the fields of anthropology, art, government, history and philosophy aimed at creating a better understanding of Asian people and their cultural backgrounds. The committee also helps sponsor films and public lectures related to these goals.

CENTER FOR THE STUDY OF DELINQUENCY, CRIME AND CORRECTIONS has been created for the purpose of training students and others interested in careers in various fields connected with crime control and correctional programs. It also carries on research in the fields of delinquency, crime and corrections, and provides area service and advisory services in these fields. The instructional program is integrated with other University divisions.

GENERAL STUDIES PROGRAM. A General Studies program for all undergraduate students was started in the fall of 1962 to provide a greater knowledge of basic areas of learning as a foundation for specialization in vocations and professions. Freshmen and sophomore students will be enrolled in the general studies program before entering the unit of their selected major field of study. The curriculum is divided into five functional areas.

PLAN A PROGRAM is a special curriculum for limited numbers of gifted students to stimulate learning and inquiry in sciences, social studies and the humanities in addition to their fields of specialization. Discussion and seminars are used in the instructional program.

RESEARCH

During the last dozen years, research programs have grown rapidly at Southern. The continued development of work toward advanced degrees in many departments has meant increasing opportunities for research by faculty members and by graduate students under their direction. The Research Office became the Office of Research and Projects in the Graduate School two years ago. The dollar amount of outside support for the research and projects program has risen to around \$2 million while University expenditures remains about the same as in recent years.

Included in the Office of Research and Projects programs are the Experimental Freshman Year project to study the achievement problems of students coming from high schools in which they had poor academic records, and a contract to provide educational teams from the SIU faculty to Vietnam for leadership in developing teacher-training normal schools and technical education programs.

Results of research include patentable items which may be marketed and return royalties for more research. Virtually all University departments pursue experimental or research programs. Projects are underway in three categories -- special individual projects supported by SIU; long range research units (Cooperative), and staff projects supported wholly by outside agencies.

MUSEUM

The Southern Illinois University Museum is in Altgeld Hall, where an exhibit area, offices and work rooms are located on the first floor of the building.

Dedicated to research and exhibition in all fields of natural and social science, the museum now has collections of more than 13,000 items in natural science, including specimens in the fields of herpetology, mammology, ornithology, paleontology, mineralogy, and botany. The Museum provides various extension services -- educational exhibits and teaching units for schools, and exhibit preparation. In the social science collections are several thousand artifacts representative of pioneer American life in southern Illinois, and archaeological specimens illustrating Indian cultures of southern Illinois, northern Mexico, and southwestern United States. The Museum is open to visitors from 8 a.m. to 4:30 p.m. Monday through Friday; from 8 a.m. until noon on Saturday; and from 2:30 until 4:30 p.m. on Sunday.

LIBRARIES

The first stage of Southern's library building (Morris Library) was completed in 1956 with part of the interior finished from appropriations made for initial construction. Additional allocations of funds have enabled the University to finish and occupy the basement and first floor. The second floor, temporarily in use for library storage and headquarters for a regional library of more than 50,000 volumes, is being finished as part of the next building stage started in 1962. This construction will consist of adding five floors, only one of which will have the interior finished at this time. Valuable rare book and manuscript materials are being acquired through gifts or purchase with the assistance of the SIU Foundation and a newly organized Friends of the Library group.

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United States regarding the results of its investigation of the activities of the American Friends Service Committee in the Philippines. It is therefore requested that the Commission be kept advised of any developments in this regard.

SOUTHERN ILLINOIS MUSIC GROUPS AND EVENTS

A number of musical groups and events have been formed under the leadership of representatives of the Southern Illinois University music department faculty. These include the Southern Illinois Symphony Orchestra, organized 13 years ago on a regional basis for area persons interested in orchestral music; the Southern Illinois Oratorio Society, a 150-voice chorus composed of University and area singers; and the Southern Illinois Youth Symphony Orchestra, organized in 1958 for qualified elementary and high school students within 100 miles of Carbondale who want to receive instruction and to perform on stringed instruments as an orchestral group. The group gives a number of special public programs each year. The Southern Illinois Musical Festival, "Music Under the Stars," is an annual spring event on campus featuring choral, orchestral and band groups from throughout the area as well as guest soloists and conductors.

OFFICE OF STUDENT AFFAIRS

The Office of Student Affairs is concerned with maintaining a suitable campus environment characterized by academic achievement, morale, and pride in the University. Staff members are available for consultation concerning problems which may confront a student. General administration is under the supervision of the Director of Student Affairs, who coordinates the services of the Counseling and Testing Center, the Housing Center, the Activities Development Center, and the Financial Assistance Center. In addition, the Office of Student Affairs is responsible for behavior problems, special services for the disabled students, and general information concerning students. The University Health Service has a coordinate relationship with the Student Affairs Office.

STUDENT ACTIVITIES

Southern Illinois University has a broad educational cultural, social and recreational co-curricular program with opportunities and activities for each student. Student organizations and living units contribute to each student's total educational experiences by helping him to learn to plan and carry out creative ideas and responsibilities, to better understand and work with other people, to make wise and productive use of leisure time, to develop leadership traits, to assume responsibility and to have concern for the total community and to develop a wide variety of skills and interests in the aesthetics of life.

UNIVERSITY CENTER STUDENT PROGRAMMING BOARD AND COMMITTEES

The University Center Student Programming Board and Committees are composed of students from every segment of the student body. They are responsible for planning activities and services for students in the new University Center. This group plans weekend events of general interest to the campus such as a current issues lecture series, dances, movie hours, jazz sessions, music concerts in the Gallery Lounge, travelogues and excursions to St. Louis. They also sponsor special interest groups including folk music, chess, cricket, and rifle clubs; prepare and coordinate the displays for the University Center, and assist in providing such services as lost and found, riders exchange, magazines for the lounges, and tours of the building.

STUDENT GOVERNMENT

The official governing organization for students is the Student Council. The Council represents students in matters pertaining to student welfare, student activities, student participation in University planning and administration, and student opinions. Social Senate, a standing committee of the Student Council composed of representative from governing groups of major living units and all-campus organizations, is responsible for approving all sales and money-making events of student organizations, providing and encouraging a well-rounded social program on the campus, and for recommending changes in rules and regulations governing student functions.

RELIGIOUS GROUPS

An Inter-Faith Council, composed of an adult and a student from each religious organization on the campus, sponsors "Religion-in-Life-Week" and serves in an advisory capacity to the Office of Student Affairs on matters dealing with the religious life of students.

Religious groups at Southern include the Newman Club for Catholic students, Lutheran Student Association and Gamma Delta for Lutheran students, Wesley Foundation for Methodist students, the Christian Science Organization, the Unitarian Fellowship, the Baptist Student Union for Baptist students, the Canterbury Club for Episcopalian students, the Jewish Student Association, the Student Christian Foundation for students of several Protestant faiths, the Inter-varsity Christian Fellowship, and the Eastern Orthodox Club.

SOCIAL SORORITIES AND FRATERNITIES

There are five sororities -- Alpha Gamma Delta, Alpha Kappa Alpha, Delta Zeta, Sigma Kappa, and Sigma Sigma Sigma -- and nine fraternities -- Alpha Phi Alpha, Delta Chi, Kappa Alpha Psi, Phi Kappa Tau, Phi Sigma Kappa, Sigma Pi, Sigma Tau Gamma, Tau Kappa Epsilon, and Theta Xi -- at Southern. Each year they sponsor a "Greek Week," compete in a "Greek Sing," and hold workshops and special events. Panhellenic Council, and Interfraternity Council, serve as governing groups for these organizations.

The Counseling and Testing Center helps students with personal, academic and vocational problems as well as administering various types of aptitude and achievement tests. The Testing Center administers the General Educational Development tests on the first Friday and Saturday of each month except September and October. Residents of Illinois at least 21 years old are eligible to take the tests as a means of qualifying for a high school diploma. Application must be made through the county superintendent of schools in the county where the applicant lives.

Student Financial Assistance Center

Southern Illinois University's program of financial assistance includes scholarships, awards, prizes, grants-in-aid, private agency awards, and student loan funds. These include University scholarship and Activity Awards, Illinois State, Illinois Teacher Training, Military, and General Assembly Scholarships.

The National Defense Student Loan Program, established during the spring quarter of 1959, created for the first time a substantial loan fund from which needy and deserving students can borrow money for educational expenses over an extended period. At the end of the spring term, 1963, more than 1400 students will have borrowed \$755,000 from these funds.

For students in need of financial assistance of a temporary nature, loans are administered from a total loan principal of \$27,000 available in 25 loan funds.

Student Employment

During the academic year, almost 4,000 students are employed in Southern Illinois University's work-study program for capable, needy students. Another 1,400 students work off-campus for area employers, part-time to defray part or all of their college expense. The office also provides information on summer jobs in camps, resorts, businesses and industry.

The Student Work Office is a referral agency and does not guarantee employment, but every effort is made to help students find jobs, especially those students with financial need and high academic potential as indicated by their high school records.

The National Council, composed of all states and the District of Columbia, is the highest authority in the field of higher education. It is the only agency in the field of higher education which is not a part of the federal government.

Student Housing

Assignments to University residences are made on a first-come, first-served basis. One exception to this rule is that a few spaces are reserved for some students from other countries and students receiving rehabilitation aid. Further, it is the policy of the University to reserve approximately 50 per cent of available spaces in the residence halls for incoming freshmen to be filled on a first-come, first-served basis.

The University provides information to students on off-campus housing facilities. Lists of vacancies for single and married students are available in the Housing Office. Approved housing must meet minimum sanitation and safety standards as established by the University.

ATHLETICS

Southern Illinois University offers a well-rounded program of varsity athletics with football and cross country in the fall; basketball, swimming, gymnastics, and wrestling in the winter; and baseball, track, golf, tennis, and spring football in the spring. Each year more than 300 men compete in one or more of these varsity sports. Dr. Donald N. Boydston, acting head of SIU's health education department, became athletic director in 1957. Participation is stressed, and to this end regular schedules in football, swimming, baseball and basketball are arranged for freshman teams.

Members of the Saluki coaching staff are: Ralph Casey, head swimming coach; Robert Franz, football line coach; Jack Hartman, head basketball coach; Lynn Holder, head golf coach and graduate manager of athletics; George Iubelt, freshman basketball coach; Carmen Piccone, head football coach; John R. LeFevre, head tennis coach; Lew Hartzog, track and cross country coach; Glenn (Abe) Martin, head baseball coach and head of intramurals; William Meade, head gymnastics coach; Andrew Vaughn, athletic field representative; and James Wilkinson, head wrestling coach. Graduate assistants each year also play an important part in the coaching of SIU's 10 varsity sports.

Robert Spackman is head trainer and physical therapist, John Grimes is equipment manager, and George Davis heads the student work program.

FACILITIES

Southern's football and track teams compete at McAndrew Stadium, which is named for the late William McAndrew, SIU's athletic director from 1913-1943. The stadium has a permanent seating capacity of 3,543 with temporary bleachers boosting the total to 12,000. The SIU track is a one-fourth mile oval with a 220-yard straightaway.

Basketball, wrestling, and gymnastics contests are held in the 1,584-seat Men's Gymnasium. The new baseball field is one-half mile south of the main campus. Twelve new tennis courts are located south of the physical plant. Golf teams play on the nine-hole courses at Jackson County Club midway between Carbondale and Murphysboro as well as other area courses. The University swimming pool (5 lanes 75 feet) is in the physical education wing at University School.

Southern's mascot is the Saluki, a descendant of the famous Saluki hunting dog which dates back to Egypt and other nearby countries. Renowned for speed and endurance, it is the oldest pure breed in the world, records of its existence dating back to 3600 B.C. The Saluki, which is similar in appearance to a Greyhound, was adopted as SIU's sports symbol in 1951. Prior to that, Southern's teams were called "Maroons."

Southern is a member of the National Collegiate Athletic Association.

Intramurals. Southern's intramural program, which began in the 1920's, has now mushroomed until it includes about 3,500 men and 500 women students each year. An intramural student board helps govern and administer the program. Trophies are awarded to team champions and other awards to winners of individual sports. The 16 activities now included in the varied program are touch football, corkball, golf, tennis, ping pong, badminton, horseshoes, volleyball, shuffleboard, free throw shooting, basketball, softball, swimming and diving, and track and field, wrestling and bowling.

NOTE: Each season (fall, winter, and spring), sports information brochures are available for persons interested in detailed information about Southern's varsity sports. Those desiring copies may write Fred Huff, Sports Information, SIU Information Service, Carbondale.

In 1949 a Residence Center was established in Belleville to help meet the increased needs for in-service training of teachers. In 1957 Residence Centers for both full-time and part-time students opened in Alton and East St. Louis, and in 1959 administrative offices of the University's program in Madison and St. Clair Counties were moved to the new campus at Edwardsville.

EDWARDSVILLE CAMPUS -- LOCATION

The Edwardsville Campus site is located two and a half miles southwest of Edwardsville and just off highway U.S. 66 By-pass. The East St. Louis Center is located on Ohio Street at Ninth and Tenth Streets, and the Alton Center on Illinois highway 140 in Alton, at the site of the former Shurtleff College.

EDWARDSVILLE CAMPUS -- GENERAL

The operational program of Southern Illinois University's Edwardsville Campus is unique. Facilities of the former Shurtleff College have been leased by the University for the operation of the Alton Center. Eight permanent buildings form the nucleus of this 40-acre center. Nine additional buildings have been prepared on a temporary basis to meet the needs of an expanding undergraduate and graduate program.

The East St. Louis Center is located in a former senior high school building. Laboratories, classrooms, library and other facilities have been redesigned and re-equipped to provide a comprehensive undergraduate and graduate program.

Most of the administrative offices of the University's program in Madison and St. Clair Counties are housed in existing residence buildings on the campus site near Edwardsville, where the target date for the holding of first classes is 1964.

CAMPUS MASTER PLAN

The Edwardsville Campus master plan's projected development includes the following basic land-use areas: The main academic core, dominated in the center by a large "central mall" rimmed by the University Center, Communications Building, Central Office and Service Center, and the Library. Instructional and research buildings will be located tightly around this center. Other features are three lakes -- a 90-acre utility reservoir; an 80-acre utilities reserve and conservation reservoir; and a 40-acre conservation reservoir.

Long-range plans also include: a 120-acre cooperative research area and a 380-acre agricultural research section, with another 180 acres earmarked for physical education and recreation; 70 acres for a recreation and housing reserve; 70 acres for physical education and outdoor education; 105 acres for faculty housing; an 85-acre "remote research" area; a 125-acre native arboretum and a 50-acre primitive arboretum; a 135-acre recreation research and housing reserve; a community center; a conservation research and reserve; and professional school areas.

UNIVERSITY SERVICES -- EDWARDSVILLE CAMPUSAUXILIARY AND SERVICE ENTERPRISES

Auxiliary and Service Enterprises, comprising the self-supporting enterprises and service departments of the Edwardsville Campus, include cafeterias, University stores, textbook rental, transportation, general stores, mail and telephone services, and office machine repair.

ALUMNI SERVICE

A field representative of the Alumni Service works with local alumni clubs of the area and helps their members keep abreast of the progress and development of the University.

9. The above information was obtained from the records of the Department of the Interior, Bureau of Land Management, and is being furnished to you for your information.

CENTER FOR THE STUDY OF CRIME, DELINQUENCY, AND CORRECTIONS

The assistant director and two staff members are stationed on the Edwardsville Campus. (For description, see page 15)

COMMUNITY DEVELOPMENT

Established in 1953 at the Carbondale Campus, the Community Development Service has a consultant on the Edwardsville Campus to help citizen groups of the area explore specific problems of their communities and to train local leaders to help meet them.

HEALTH SERVICE

Health Service facilities with registered nurses on duty are available at the Alton and East St. Louis Centers. A student medical benefit fund provided from student activity fees supplements the Health Service budget and enables it to cover a portion of the costs arising from accident or illness of an emergency nature involving students engaged in school activities on University premises. Also provided are a polio immunization program, hearing tests and vision tests.

INFORMATION SERVICE

Information Service is the official news agency of the University and provides information about the activities of the university and achievements of its students and faculty to newspapers, radio and television stations and to periodicals.

PEACE CORPS INFORMATION

The University's General Office at Alton serves as a center for information concerning the Peace Corps.

PLACEMENT SERVICE

Placement Service assists students and former students in finding full-time employment in business, industry, the professions and the teaching field. It also maintains a library of employer information and schedules interviews between registered students and company representatives who visit the campus throughout the year.

PRINTING AND ART SERVICE: PHOTOGRAPHIC SERVICE

The Printing and Art Service handles art, mimeographing, and printing requests of the academic and service divisions and student organizations. Photographic Service is designed to serve their photographic needs.

PUBLIC ADMINISTRATION AND METROPOLITAN AFFAIRS PROGRAM

The Public Administration and Metropolitan Affairs Program is a projection of the University's belief that as the Edwardsville Campus develops, it must be cognizant of the contribution it can make to the economic, political and social enhancement of the metropolitan area of which it is a part. By encouraging and supporting urban research it is intended that the program become the storage center for all data and materials concerning growth and development problems of the Illinois portion of the Metropolitan area. Through these studies it is hoped that a better understanding of urban-social processes will result, and that these findings will be made available to citizens and officials to help them in making public policy decisions in area development and inter-governmental cooperative efforts.

REPORT ON THE WORK OF THE COMMISSION

The Commission was established by the Government of the United Kingdom in 1964 to investigate the problems of the North Atlantic and to make recommendations on the basis of its findings.

1. INTRODUCTION

The Commission was established by the Government of the United Kingdom in 1964 to investigate the problems of the North Atlantic and to make recommendations on the basis of its findings. The Commission has since that time held a number of public hearings and has received many suggestions and criticisms from the public.

2. THE COMMISSION'S WORK

The Commission has since that time held a number of public hearings and has received many suggestions and criticisms from the public. It has also held a number of private hearings and has received many suggestions and criticisms from the public. The Commission has also held a number of public hearings and has received many suggestions and criticisms from the public.

3. THE COMMISSION'S FINDINGS

The Commission has since that time held a number of public hearings and has received many suggestions and criticisms from the public. It has also held a number of private hearings and has received many suggestions and criticisms from the public. The Commission has also held a number of public hearings and has received many suggestions and criticisms from the public.

4. THE COMMISSION'S RECOMMENDATIONS

The Commission has since that time held a number of public hearings and has received many suggestions and criticisms from the public. It has also held a number of private hearings and has received many suggestions and criticisms from the public. The Commission has also held a number of public hearings and has received many suggestions and criticisms from the public.

5. THE COMMISSION'S CONCLUSIONS

The Commission has since that time held a number of public hearings and has received many suggestions and criticisms from the public. It has also held a number of private hearings and has received many suggestions and criticisms from the public. The Commission has also held a number of public hearings and has received many suggestions and criticisms from the public.

6. THE COMMISSION'S FUTURE WORK

The Commission has since that time held a number of public hearings and has received many suggestions and criticisms from the public. It has also held a number of private hearings and has received many suggestions and criticisms from the public. The Commission has also held a number of public hearings and has received many suggestions and criticisms from the public.

7. THE COMMISSION'S APPENDICES

The Commission has since that time held a number of public hearings and has received many suggestions and criticisms from the public. It has also held a number of private hearings and has received many suggestions and criticisms from the public. The Commission has also held a number of public hearings and has received many suggestions and criticisms from the public.

BUSINESS DIVISION

The Business Division seeks to acquaint students with the operational phase of business, the sources of information and methods of collecting and interpreting data, and the art of human relations.

EDUCATION DIVISION

The Education Division prepares teachers for all grades from kindergarten through high school and provides basic training in the fields of psychology and guidance. Committed to giving professional training to teachers, supervisors, administrators and specialists, it includes provisional work in several specialties in school administration and supervision.

FINE ARTS DIVISION

The Fine Arts Division serves to stimulate creative and professional work in art, music, speech and drama, providing service courses and activities for all students who want experience in the fine arts fields either for a general cultural background or for practical reasons.

HUMANITIES DIVISION

The Humanities Division provides instruction in the intellectual disciplines of English and other languages, of literature, and of ideas. It is concerned with instruction in the reading, writing, and speaking of English and other languages, the development of an understanding and appreciation of literature and the accompanying recognition of its civilizing values.

SCIENCE AND TECHNOLOGY DIVISION

The Science and Technology Division adds to the general education of all students by offering basic courses in mathematics and the physical and life sciences. For more advanced students, the division seeks to develop an understanding of methods and disciplines in technology and industrial processes.

SOCIAL SCIENCES DIVISION

The Social Science Division offers courses designed to enable students to achieve an understanding and appreciation of civilization viewed in historical perspective, and to equip them for constructive participation in the activities of the family, community and nation.

GENERAL STUDIES PROGRAM

In the Fall of 1962 an expanded program in General Studies was initiated on both major campuses.

GRADUATE STUDIES

Graduates of fully accredited colleges and universities who meet other admission requirements may pursue courses of study leading to a master's degree in education, liberal arts, business and fine arts at the Edwardsville Campus. Fields in which major study may be pursued are educational administration and supervision, elementary education, guidance, secondary education and special education. Graduate minors are available in most business, fine arts, and liberal arts fields, as well as in the education areas.

GENERAL PRINCIPLES

The purpose of this study is to determine the effect of the various factors which influence the growth of the human organism, and to determine the effect of the various factors which influence the growth of the human organism.

THE HUMAN ORGANISM

The human organism is a complex of many parts, each of which has its own function to perform. The various parts of the human organism are the brain, the heart, the lungs, the stomach, the intestines, the liver, the kidneys, the skin, the bones, the muscles, the nerves, and the glands.

THE GROWTH OF THE HUMAN ORGANISM

The growth of the human organism is a process which begins at the moment of fertilization and continues until the moment of death. The growth of the human organism is a process which is influenced by many factors, including the environment, the heredity, and the nutrition.

THE INFLUENCE OF THE ENVIRONMENT

The environment has a great influence on the growth of the human organism. The environment includes the air, the water, the food, the climate, and the social conditions. The environment can either help or hinder the growth of the human organism.

THE INFLUENCE OF HEREDITY

Hereditary factors have a great influence on the growth of the human organism. Hereditary factors determine the basic structure of the human organism, and they determine the potentialities of the human organism.

THE INFLUENCE OF NUTRITION

Nutrition has a great influence on the growth of the human organism. Nutrition provides the raw materials for the growth of the human organism, and it provides the energy for the growth of the human organism.

THE INFLUENCE OF CLIMATE

Climate has a great influence on the growth of the human organism. Climate determines the temperature, the humidity, and the amount of light which the human organism receives.

THE INFLUENCE OF SOCIAL CONDITIONS

Social conditions have a great influence on the growth of the human organism. Social conditions determine the opportunities which the human organism has for growth, and they determine the obstacles which the human organism has to growth.

The Edwardsville Campus offers pre-professional programs for students training for careers in engineering, medicine, dentistry, veterinary science, pharmacy, occupational therapy and law.

INDUSTRIAL AND TECHNICAL PROGRAMS

The Industrial and Technical Programs represent the Division of Technical and Adult Education in the Edwardsville area. An industrial management program at three locations (Alton, East St. Louis and Granite City), is designed to give current and potential foremen and supervisors of the area a more complete background of information with which to make on-the-job decisions. Upon request from individuals, industries, organizations, or groups in the area, the Industrial and Technical Program also plans, develops and conducts miscellaneous short courses, in-plant courses, seminars, conferences and workshops in industrial, technical and other areas.

INTRAMURAL SPORTS

Intramural sports on the Edwardsville Campus are organized to give every student an opportunity to take part in several different activities. All students of the University, including graduate students, are eligible to participate in the extensive program. It is possible for men students to receive an intramural varsity letter and for women students to receive WRA awards for their accumulative participation during the year.

LIBRARIES

Library facilities are provided at Alton and East St. Louis with about 60,000 volumes contained at each location, plus a collection of children's literature, phonograph records, curriculum guides and courses of study, 625 periodicals, 40 newspapers, including microfilm editions for permanent record; and they act as service agencies for materials available from the Carbondale Campus and as an official depository for federal and Illinois state documents. All books are received at the Central Library at Edwardsville where national and trade bibliographies, including the catalog of the Library of Congress are located.

PERSONNEL FIGURES

The Edwardsville Campus of the University has a full-time faculty and administrative staff of 225, plus another 100 persons serving on a part-time basis. In addition, there are 150 non-academic employees. These figures were current as of December, 1962, and will change from time to time as the Edwardsville Campus continues to grow.

ADMISSION REQUIREMENTS

(Same requirements as for Carbondale Campus. See page 11)

ENROLLMENT FIGURES

Fall quarter (1962-63 school year) enrollment of students working toward degrees at the Edwardsville Campus totaled 4,624. Of this number, 2,348 were enrolled at Alton and 2,276 at East St. Louis

FEES

(Same fees as for Carbondale Campus. See page 11)

The following figures show the number of students who have been admitted to the University of Chicago in the last five years. The figures are given in thousands and are rounded to the nearest hundred.

UNIVERSITY OF CHICAGO

The University of Chicago is a private research university located in Chicago, Illinois. It was founded in 1837 and is one of the oldest and most prestigious universities in the United States. The university is known for its research in various fields, including physics, chemistry, biology, and the social sciences. It has a large endowment and a high ranking in various international university rankings.

ADMISSIONS

The University of Chicago has a highly selective admission process. Each year, the university receives thousands of applications from students around the world. The admissions committee reviews each application carefully and makes decisions based on the student's academic achievements, test scores, and other factors. The university has a long history of admitting students from diverse backgrounds and has a commitment to diversity and inclusion.

LIBRARY

The University of Chicago has a large and diverse library collection. The library includes books, journals, and other materials in various languages and disciplines. The library is a valuable resource for students and faculty members and is used extensively for research and teaching. The library also has a special collections department that houses rare and valuable books and manuscripts.

RESEARCH

The University of Chicago is a leading center for research in many fields. The university has a strong tradition of research and has produced many of the most important discoveries in the history of science and scholarship. The university has a large number of research centers and institutes that focus on specific areas of research. The university also has a strong commitment to public service and outreach.

ALUMNI

The University of Chicago has a large and active alumni network. Alumni are encouraged to stay connected with the university and to support its mission. The university has many programs and services for alumni, including career counseling, networking opportunities, and fundraising efforts.

FINANCE

The University of Chicago has a large endowment and a strong financial position. The university's financial resources are used to support its research, teaching, and public service activities. The university has a long history of financial stability and has a strong reputation for its financial management.

FINANCIAL ASSISTANCE

The financial assistance program on the Edwardsville Campus is planned to enable talented high school graduates who may lack financial resources to enter and continue experiences in higher education. It includes scholarships, awards, prizes, grants-in-aid and student loan funds. The University does not encourage students to expect to meet all University expenses from such sources. Minimum scholastic averages and the degree of financial need are considered in determining the recipients of many forms of financial assistance available.

HOUSING

The Edwardsville Campus has no housing facilities, and the University neither approves nor authorizes housing for Alton and East St. Louis Center students. The Office of Student Affairs maintains a listing of rooms, apartments, and houses for rent or sale. This list is kept for the convenience of faculty members and students, and all arrangements for housing and all business transactions in the matter of housing are the sole responsibility of the student and owner of the housing facility. There are no social sororities or fraternities on the Edwardsville Campus.

STUDENT AFFAIRS

The services of the Office of Student Affairs are designed to assist in developing and maintaining a suitable campus environment for all students. It coordinates all student personnel services not directly associated with academic instruction and supervises all student activities and organizations.

STUDENT EMPLOYMENT PROGRAM

The student employment program seeks to provide part-time work experience, both on and off campus, which relates, if possible, to the student's academic program. An average of 300 students per month are employed by the University under its student employment program on the Edwardsville Campus.

STUDENT GOVERNMENT

Student Councils, organized at the Alton and East St. Louis Centers, are the official organizations designated to represent students in student welfare, student activities, student participation in University affairs, and student participation in University planning and administration. Councils serve as channels of communication between the student bodies and the administration.

BACKGROUND: SOUTHERN ILLINOIS UNIVERSITY

Southern was chartered as Southern Illinois Normal University in 1859. It remained a normal school and a teachers college until July 1, 1943, when the General Assembly granted it the powers of a university. The name was changed to Southern Illinois University by legislative action in 1947. On July 1, 1949, the university entered into a new period of development under a separate governing board of trustees.

PRESIDENT MORRIS

Dr. Delyte Wesley Morris was born at Xenia, Illinois, April 11, 1907. Educated in the public schools of Xenia and Flora, he obtained the bachelor's degree from Park College, Parkville, Missouri; the master's degree from the University of Maine; and the doctor of philosophy degree from the University of Iowa. He taught in a public school in Oklahoma, the University of Maine, the Junior College of Kansas City, Missouri, the Indiana State Teachers College, Terre Haute, Indiana; and Ohio State University, where he served as professor of speech and director of the Speech and Hearing Clinic. He came to Southern September 10, 1948, and was inaugurated May 5, 1949.

SOUTHERN'S PAST PRESIDENTS

Robert Allyn, 1874 - 1892

John Hull, 1892 - 1893

Harvey William Everest, 1893 - 1897

Daniel Baldwin Parkinson, 1897 - 1913

Henry William Shryock, 1913 - 1935

George Dorritt Wham, 1935 (acting)

Roscoe Pulliam, 1935 - 1944

Bruce Welch Merwin, 1944 - 1945 (acting)

Chester F. Lay, 1945 - 1948

LOCATION

The central campus of Southern Illinois University is situated in Carbondale, Jackson County, a community of 15,000 located 100 miles southeast of St. Louis. A transportation center, Carbondale is located at the intersection of U. S. Route 51 and State Route 13; is the junction point for the St. Louis branch with the Illinois Central Railroad main line; and is served by two airports, the University-operated Southern Illinois Airport and nearby Williamson County Airport, served by Ozark Airlines.

In addition to the campus at Carbondale, the University includes the Edwardsville campus with centers at Alton and East St. Louis; a Vocational Technical Institute at its Southern Acres campus 11 miles east of Carbondale; and an outdoor education campus at Little Grassy Lake six miles southeast of Carbondale.

UNIVERSITY SERVICES

AREA SERVICES DIVISION. Works on an all-University basis to schedule the use of University facilities by responsible off-campus organizations and groups; to prepare and disseminate data pertinent to planning, activating, controlling and evaluating programs essential to serving the area and to cooperate with communities and with federal, state and private groups in programs for developing the economic, cultural and social resources of the area. Affiliated with the Division in performing these functions are: Alumni Service, Broadcasting Service which operates an educational FM radio station, WSIU, and an educational television station, WSIU-TV (Channel 8), Community Development Service; Information Service; Photographic Service; and Placement Service.

TEXTBOOK SERVICE. A textbook rental system operated through the University Textbook Service simplifies the book problem for undergraduate students. The service rents an average of five books each quarter per student enrolled. This accounts to more than 60,000 books per term. The stock of textbooks totals 150,000, representing more than 4,500 titles. The textbook Service is a part of the Morris Library.

General Instructions

These instructions are intended to guide you in the proper use of the equipment. It is important that you read these instructions carefully before using the equipment. The instructions are divided into two parts: a general part and a specific part. The general part contains information about the equipment in general, and the specific part contains information about the specific equipment you are using.

The general part of the instructions is divided into two sections: a section on safety and a section on general use. The specific part of the instructions is divided into two sections: a section on the specific equipment and a section on the specific equipment.

The safety section of the general part contains information about the safety of the equipment. It is important that you read this section carefully before using the equipment. The general use section of the general part contains information about the general use of the equipment. It is important that you read this section carefully before using the equipment.

The specific part of the instructions is divided into two sections: a section on the specific equipment and a section on the specific equipment. The section on the specific equipment contains information about the specific equipment you are using. It is important that you read this section carefully before using the equipment. The section on the specific equipment contains information about the specific equipment you are using. It is important that you read this section carefully before using the equipment.

The section on the specific equipment contains information about the specific equipment you are using. It is important that you read this section carefully before using the equipment. The section on the specific equipment contains information about the specific equipment you are using. It is important that you read this section carefully before using the equipment.

The section on the specific equipment contains information about the specific equipment you are using. It is important that you read this section carefully before using the equipment. The section on the specific equipment contains information about the specific equipment you are using. It is important that you read this section carefully before using the equipment.

UNIVERSITY FOUNDATION. The Southern Illinois University Foundation, chartered by the state in 1942 as a non-profit corporation, receives gifts and grants for the University's benefit, can buy and lease property, and serve faculty members in obtaining copyrights or patents and in providing market contacts for inventions resulting from research.

UNIVERSITY PRESS, established in 1953, is a book publishing agency of the University issuing books of general and educational interest by SIU staff members as well as other scholars and authors.

BUDGET AND APPROPRIATIONS:

The State General Assembly appropriates financial support to the University on a two-year basis. The appropriated moneys are derived from state tax revenues and from University income (essentially tuition and fees) which, by law, must be deposited with the state treasurer. University Treasury funds (income received as instructional, research, and student aid grants from outside agencies; income derived from auxiliary enterprises operations; and income derived from other self-supporting activities) are administered and maintained locally by the University in accordance with Illinois Statutes.

The following state appropriations were made to the University for the 1961-63 biennium, including an emergency appropriation by the 73rd General Assembly of \$350,000.00 of funds for capital additions to be expended during the period May 2, 1963, until July 1, 1965, for movable equipment to partially equip new buildings:

| | | |
|-------------------------------|-------------------|------------------------|
| From State Tax Revenues: | | |
| For Operation and Maintenance | | \$39,840,690.00 |
| For Permanent Improvements | | 400,000.00 |
| For Scholarships | | 215,000.00 |
| For Capital Additions: | (1) | |
| Universities Building Fund | \$53,250,000.00 | |
| Reappropriations of the | | |
| Previous Biennium | 1,531,250.92 | |
| 73rd G.A. Emergency | | |
| Appropriation | <u>350,000.00</u> | <u>55,131,250.92</u> |
| Total | | <u>95,586,940.92</u> |
| From University Income: | | |
| For Educational Operations | | <u>1,830,000.00</u> |
| TOTAL STATE APPROPRIATIONS | | <u>\$97,416,940.92</u> |

(1) Southern's share of proceeds from sale of the State Universities Bond Issue voted by the electorate in 1961.

ACADEMIC STANDING

Southern is accredited by all major American accrediting agencies and has individual faculty member or institutional memberships in more than 530 associations for higher education.

ADMISSION REQUIREMENTS

High school graduates ranking in the lower third of their high school class will be admitted as freshmen, on scholastic probation, during the summer, winter or spring quarters only. An exception will be made permitting fall quarter registration if the applicant makes a high score on University entrance examinations. For out-of-state students, only those in the upper half of their high school class may register in the fall term; others are subject to the same rules as above. Graduates of recognized high schools, persons over 21 and military veterans are eligible for admission. Persons who are 21 but not high school graduates must pass the General Educational Development (GED) test.

FEES

The University reserves the right to change fees at any time. At present, the fees for a regular quarter (12 weeks) for a full-time (more than 8 quarter hours) student are:

| | |
|-----------------------------------|-------------|
| Tuition | \$42.00 |
| Student Activity Fee | 9.50 |
| Student Union Building fund fee . | 5.00 |
| Book rental | <u>5.00</u> |
| Total | \$61.30 |

Fee for out-of-state students is an additional \$50.00 plus those listed above.

AIR FORCE RESERVE OFFICERS' TRAINING CORPS

All male students, except those who have actively served in any of the Armed Forces six months or more, entering Southern as freshmen or sophomores are required to enroll in the basic Air Force Reserve Officers' Training Corps. When a student finishes his first two years of required AFROTC training, he may apply for admission to the advanced course. Upon graduation a student may be commissioned a Second Lieutenant in the United States Air Force Reserve and later called to active duty.

PERSONNEL

The University has a full-time faculty and administrative staff (as of November, 1963) of 1,795, including graduate fellows and graduate teaching and research assistants assigned to departmental staffs on the basis of high scholarship and promise in graduate work. Part-time academic employees total 73. The University staff includes 774 full-time and 29 part-time civil service employees. Among faculty classifications are adjunct professor and research associate, titles given to persons with special skills who serve the University without salary through consultation and cooperative research programs.

GRADUATE SCHOOL

Graduates of fully accredited colleges and universities may pursue courses of study leading to a master's degree in arts, science, education, and fine arts. In addition there is a sixth year program leading to a certificate of specialist. Programs leading to the degree of doctor of philosophy are available in selected areas. Southern Illinois University is accredited by the North Central Association of Colleges and Secondary Schools as an institution conferring the Master's degree.

COLLEGE OF EDUCATION

The College of Education provides professional training for teaching at all levels in the public schools and for supervisors, administrators, and specialists. Departments in the College are: educational administration and supervision; elementary education; guidance; health education; instructional materials; physical education for men; physical education for women; recreation and outdoor education; secondary education; higher education, and special education. The teacher training division offers student teaching in all departments, using the University School at SIU and qualified public schools in the area.

COLLEGE OF LIBERAL ARTS AND SCIENCES

The College of Liberal Arts and Sciences provides for specialized education in social studies, the sciences and the humanities, and in pre-professional programs. It provides basic subject matter for the General Studies program, as well as meeting many special needs of other instructional units. Research in the natural sciences is facilitated by the Pine Hills Field Station, with its variety of landform, plant life and animal life. African, Asian, European and Inter-American studies committees have been formed to coordinate course offerings relating to particular interest areas.

This is due to the fact that the government is expanding its activities in many fields, and it is necessary to employ more people to carry out these activities.

SCHOOL OF AGRICULTURE

The School of Agriculture was created by state legislative action July 1, 1955, for instruction, demonstration, and consultation in agriculture, forestry, and other activities concerned with the rural development of Southern Illinois. Departments in the School of Agriculture are: agricultural industries, animal industries, plant industries, and forestry. The University farms, the Illinois Horticultural Experiment Station, the SIU-U of I Cooperative Agronomy Research Center are components of the school. The School was approved in 1958 for training vocational agriculture teachers. A federal Small Fruits Research Station was activated in 1959 in cooperation with the U. S. Department of Agriculture. The Carbondale Research Center of the Central States Forest Experiment Station, U.S. Forest Service, shares offices in Southern's Agriculture Building and research facilities at a jointly-operated Wood Products Pilot Plant on the University's Southern Acres Campus. A University Forest was established in 1963 on nearly 1,000 acres acquired near Southern's Little Grassy Lake campus for teaching and research and a second agronomy experiment station is being developed on 183 acres acquired last year as government surplus land adjacent to Scott Air Force Base in St. Clair County.

SCHOOL OF BUSINESS

The School of Business provides courses of instruction leading to bachelor and advanced degrees emphasizing such fields as accounting, business education, economics, management, marketing, and secretarial studies. The School stimulates research and provides service work in these fields for other units of the University. The School is organized into five departments: accounting, management, marketing, secretarial and business education and economics.

SCHOOL OF COMMUNICATIONS

The School of Communications coordinates and facilitates the development of programs, provides instruction and stimulates research in public speaking, television, radio, newspapers and magazine journalism. Components of the school are the departments of speech, speech correction, theater, radio-television, journalism, and printing and photography.

SCHOOL OF FINE ARTS

The School of Fine Arts includes the departments of art, design, and music. Art students may major in pottery, painting, printmaking, jewelry and silversmithing, sculpture, and weaving. Design students may major in visual design or in product-shelter design. The department of music is a member of the National Association of Schools of Music. It offers major programs in music theory, history and literature, piano, organ, voice, opera workshop, stringed instruments, wind instruments, percussion instruments, instrumental and vocal ensembles.

SCHOOL OF HOME ECONOMICS

The School of Home Economics was established to provide instruction, to stimulate research and to give service to the people in the area. The school is composed of the departments of clothing and textiles, food and nutrition, home and family, and home economics education.

SCHOOL OF TECHNOLOGY

Technology has been a part of the educational program at SIU since 1908, when courses in manual arts were offered primarily for those preparing to teach in the public schools. Technical courses were offered through various divisions until the School of Applied Science was established, to be renamed School of Technology in

The first of the year was a very successful one for the school. The pupils showed a great interest in their studies and the teachers were able to give them a thorough education. The school was well attended and the pupils were very well behaved. The teachers were very kind and the pupils were very happy. The school was a great success and the pupils were very well educated.

The second year was also a very successful one. The pupils showed a great interest in their studies and the teachers were able to give them a thorough education. The school was well attended and the pupils were very well behaved. The teachers were very kind and the pupils were very happy. The school was a great success and the pupils were very well educated.

The third year was also a very successful one. The pupils showed a great interest in their studies and the teachers were able to give them a thorough education. The school was well attended and the pupils were very well behaved. The teachers were very kind and the pupils were very happy. The school was a great success and the pupils were very well educated.

The fourth year was also a very successful one. The pupils showed a great interest in their studies and the teachers were able to give them a thorough education. The school was well attended and the pupils were very well behaved. The teachers were very kind and the pupils were very happy. The school was a great success and the pupils were very well educated.

1961. The School provides instruction, research and consultation services in engineering, industrial education, applied science, industrial technology and engineering technology. Programs are offered leading to bachelor of science and master of science degrees.

EXTENSION DIVISION

Through the Extension Division, University faculty members conduct college credit courses off-campus. A program of radio and television credit courses also has been initiated. The Division offers planning assistance for educational conferences, workshops and conventions, and also makes arrangements for the SIU Touring Theater to present plays in area communities during a seven-week period each fall. The Theater, composed of advanced drama students, is self-supporting and performs in about 30 communities with a total attendance of 2,500 each year.

DIVISION OF TECHNICAL AND ADULT EDUCATION

The Division of Technical and Adult Education was established for all students of the University not seeking bachelor, master, or doctoral degrees. The Division also includes the Vocational Technical Institute, started in 1952.

Adult Education consists of non-credit courses in various vocational, technical, and general education fields. Nominal tuition fees are charged. The courses are intended to help adults to do their job better or to gain skills for advancement to better positions. Enrollment in adult education has shown a continued growth, with a present size of about 10,000 adults annually. Besides a permanent staff, the Division utilizes as instructors a group of trained personnel in specific fields from business, industry, and the professions.

Vocational Technical Institute, an integral part of the Division of Technical and Adult Education, was established as a Day School program and offers one- and two-year business, technical, and vocational curricula. The two-year programs lead to degrees of Associate in Art, Associate in Business, or Associate in Technology. One-year programs leading to a certificate also are offered. The Institute also is supervising area worker training programs under the federal Area Redevelopment Act Administration.

The VTI is located at the University's Southern Acres campus, 11 miles east of Carbondale on Old Route 13. The campus includes classrooms, industrial-type shops, laboratories, cafeteria, student center, health center service, and housing accommodations for students.

DEPARTMENT OF NURSING

The Department of Nursing offers two programs, both leading to the degree, bachelor of science in nursing. The basic professional program is 14 quarters of general education, professional courses and experience, and is for students who have had no previous preparation for professional nursing. Graduates of this program are qualified for licensure as registered nurses. The supplemental program for registered nurses is a combination of general education and upper division nursing courses; students who enroll full-time can complete requirements for the degree in about two years, including summers. Pre-clinical programs are given at the Carbondale campus while the advanced work is directed at the Edwardsville campus.

RECREATION AND OUTDOOR EDUCATION

Southern conducts programs of outdoor education and school camping at camps at Little Grassy Lake for students of all age levels. Purposes of the camping projects are to enrich learning programs in various subject matter fields; provide an outdoor laboratory in teacher training; provide a laboratory for experimental work and course work in many University departments; give experience in "Primitive"

camping, focus attention on the need for conservation and recreational development in the area, and train camp counselors and camp directors.

UNIVERSITY INSTITUTES

A number of Institutes have been established at Southern to serve special areas of interest through educational programs and advisory services. The educational programs comprise a course of study for undergraduate and graduate students in a number of related departments of the University.

Current institutes include: the Community Development Institute, established in 1956 to meet the shortage of professionally-trained personnel in the field of community service; the Latin American Institute, activated in 1958 to provide advisory services and promote better understanding toward Latin American countries as well as educational preparation for service in those countries; the Labor Institute to provide educational programs for those planning careers in the field of labor and to provide consultative service to area labor groups; the Rehabilitation Institute, established in 1957 to co-ordinate and augment the training of college students and other field workers in counseling or serving the handicapped and to provide consultant services in this field; the Small Business Institute, established in 1954 to provide educational programs for students interested in establishing their own businesses and to give technical advice on small business operations; and the Transportation Institute to provide educational opportunities and consultation for those working or planning to work in various phases of transportation.

CENTER FOR THE STUDY OF DELINQUENCY, CRIME AND CORRECTIONS has been created for the purpose of training students and others interested in careers in various fields connected with crime control and correctional programs. It also carries on research in the fields of delinquency, crime and corrections, and provides area service and advisory services in these fields. The instructional program is integrated with other University divisions.

GENERAL STUDIES PROGRAM. A General Studies program for all undergraduate students was started in the fall of 1962 to provide a greater knowledge of basic areas of learning as a foundation for specialization in vocations and professions. Freshmen and sophomore students are enrolled in the general studies program before entering the unit of their selected major field of study. The curriculum is divided into five functional areas.

PLAN A PROGRAM is a special honors curriculum for limited numbers of gifted students to stimulate learning and inquiry in sciences, social studies and the humanities in addition to their fields of specialization. Discussion and seminars are used in the instructional program.

RESEARCH

During the last dozen years, research programs have grown rapidly at Southern. The continued development of work toward advanced degrees in many departments has meant increasing opportunities for research by faculty members and by graduate students under their direction. The dollar amount of outside support for the research and projects program has risen to around \$3 million while University expenditures remains about the same as in recent years.

Included in the Office of Research and Projects programs is a contract to provide educational teams from the SIU faculty to Vietnam for leadership in developing teacher-training normal schools and technical education programs. Virtually all University departments pursue experimental or research programs. Projects are underway in three categories -- special individual projects supported by SIU; long range research units (Cooperative), and staff projects supported wholly by outside agencies.

1. The proposed reorganization of the Army is a subject of great importance to the Government and the people.

2. The proposed reorganization of the Army is a subject of great importance to the Government and the people. It is a subject which has been discussed for many years, and it is now time to take action upon it.

3. The proposed reorganization of the Army is a subject of great importance to the Government and the people. It is a subject which has been discussed for many years, and it is now time to take action upon it. 9. The proposed reorganization of the Army is a subject of great importance to the Government and the people. It is a subject which has been discussed for many years, and it is now time to take action upon it. The proposed reorganization of the Army is a subject of great importance to the Government and the people.

MUSEUM

The Southern Illinois University Museum is in Altgeld Hall, where an exhibit area, offices and work rooms are located on the first floor of the building.

Dedicated to research and exhibition in all fields of natural and social science, the museum now has collections of more than 13,000 items in natural science, including specimens in the fields of herpetology, mammology, ornithology, paleontology, mineralogy, and botany. The Museum provides educational exhibits and teaching units for schools. The Museum is open to visitors from 8 a.m. to 4:30 p.m. Monday through Friday; from 8 a.m. until noon on Saturday; and from 2:30 until 4:30 p.m. on Sunday.

LIBRARIES

Southern's Morris Library at the Carbondale Campus during 1962-63 passed the 1,000,000 mark in circulation. This library now totals more than 600,000 volumes. Valuable rare book and manuscript materials are being acquired through gifts or purchase with the assistance of the SIU Foundation and the Friends of the Library group.

The first stage of the Morris Library Building, constructed in 1956, has now been enlarged by the addition of a complete third floor and four tower floors. The tower floors, although occupied for storage purposes, are not to be completed until additional appropriations are available.

SOUTHERN ILLINOIS MUSIC GROUPS AND EVENTS

A number of musical groups and events have been formed under the leadership of the Southern Illinois University music department faculty. These include the Southern Illinois Symphony Orchestra, organized 14 years ago on a regional basis for area persons interested in orchestral music; the Southern Illinois Oratorio Society, a 150-voice chorus composed of University and area singers; and the Southern Illinois Youth Orchestra, band and chorus, organized in 1958 for qualified elementary and high school students within 100 miles of Carbondale. The Southern Illinois musical festival, "Music Under the Stars," is an annual spring event on campus featuring choral, orchestral and band groups from throughout the area as well as guest soloists and conductors.

OFFICE OF STUDENT AFFAIRS

The Office of Student Affairs is concerned with maintaining a suitable campus environment characterized by academic achievement, morale, and pride in the University. Staff members are available for consultation concerning problems. General administration is under the supervision of the Director of Student Affairs, who coordinates the services of the Counseling and Testing Center, the Housing Center, the Activities Development Center, and the Financial Assistance Center. In addition, the Office of Student Affairs is responsible for behavior problems, special services for the disabled students, and general information concerning students.

UNIVERSITY CENTER STUDENT PROGRAMMING BOARD AND COMMITTEES

The University Center Student Programming Board and Committees are composed of students from every segment of the student body. They are responsible for planning activities and services for students in the new University Center. This group plans weekend events of general interest to the campus such as a current issues lecture series, dances, movie hours, jazz sessions, music concerts in the Gallery Lounge, travelogues and excursions to St. Louis. They also sponsor special interest groups including folk music, chess, cricket, and rifle clubs.

STUDENT GOVERNMENT

The official governing organization for students is the Student Council. The Council represents students in matters pertaining to student welfare, student activities, student participation in University planning and administration, and student opinions.

RELIGIOUS GROUPS

An Inter-Faith Council, composed of an adult and a student from each religious organization on the campus, sponsors "Religion-in-Life-Week" and serves in an advisory capacity to the Office of Student Affairs on matters dealing with the religious life of students.

Religious groups at Southern include the Newman Club for Catholic students, Lutheran Student Association and Gamma Delta for Lutheran students, Wesley Foundation for Methodist students, the Christian Science Organization, the Unitarian Fellowship, the Baptist Student Union for Baptist students, the Canterbury Club for Episcopalian students, the Jewish Student Association, the Student Christian Foundation for students of several Protestant faiths, the Inter-varsity Christian Fellowship, and the Eastern Orthodox Club.

SOCIAL SORORITIES AND FRATERNITIES

There are five sororities -- Alpha Gamma Delta, Alpha Kappa Alpha, Delta Zeta, Sigma Kappa, and Sigma Sigma Sigma -- and eight fraternities -- Alpha Phi Alpha, Delta Chi, Kappa Alpha Psi, Phi Kappa Tau, Phi Sigma Kappa, Sigma Pi, Tau Kappa Epsilon, and Theta Xi -- at Southern. Each year they sponsor a "Greek Week," compete in a "Greek Sing," and hold special events. Panhellenic Council and Interfraternity Council serve as governing groups for these organizations.

Student Financial Assistance Center

Southern Illinois University's program of financial assistance includes scholarships, awards, prizes, grants-in-aid, private agency awards, and student loan funds.

The National Defense Student Loan Program, established during the spring quarter of 1959, created for the first time a substantial loan fund from which needy and deserving students can borrow money for educational expenses over an extended period. At the end of the spring term, 1963, more than 1,400 students had borrowed \$755,000 from these funds.

For students in need of financial assistance of a temporary nature, loans are administered from a total loan principal of \$27,000 available in 25 loan funds.

Student Employment

During the academic year, more than 4,000 students are employed in Southern Illinois University's work-study program for capable, needy students. Another 1,400 students work off-campus for area employers, part-time to defray part or all of their college expense. The office also provides information on summer jobs in camps, resorts, business and industry.

Student Housing

Assignments to University residence are made on a first-come, first-served basis. One exception to this rule is that a few spaces are reserved for some students from other countries and students receiving rehabilitation aid. Further, it is the policy of the University to reserve approximately 50 per cent of available space

The first of these is the fact that the population of the United States in 1880 was 50,155,000, or about 100 million people, which was a very large number for that time.

The second fact is that the population of the United States in 1880 was 50,155,000, or about 100 million people, which was a very large number for that time.

The third fact is that the population of the United States in 1880 was 50,155,000, or about 100 million people, which was a very large number for that time.

The fourth fact is that the population of the United States in 1880 was 50,155,000, or about 100 million people, which was a very large number for that time.

The fifth fact is that the population of the United States in 1880 was 50,155,000, or about 100 million people, which was a very large number for that time.

The sixth fact is that the population of the United States in 1880 was 50,155,000, or about 100 million people, which was a very large number for that time.

The seventh fact is that the population of the United States in 1880 was 50,155,000, or about 100 million people, which was a very large number for that time.

The eighth fact is that the population of the United States in 1880 was 50,155,000, or about 100 million people, which was a very large number for that time.

in the residence halls for incoming freshmen to be filled on a first-come, first-served basis. By action of the Board of Trustees, all undergraduate students under 21 living off campus must live in University-approved housing.

The University provides information to students on off-campus housing facilities. Lists of vacancies for single and married students are available in the Housing Office. Approved housing must meet minimum sanitation and safety standards as established by the University.

ATHLETICS

Southern Illinois University offers a well-rounded program of varsity athletics with football and cross country in the fall; basketball, swimming, gymnastics, and wrestling in the winter; and baseball, track, golf, tennis, and spring football in the spring. Each year more than 300 men compete in one or more of these varsity sports. Donald N. Boydston, acting head of SIU's health education department, became athletic director in 1957. Participation is stressed, and to this end regular schedules in football, swimming, baseball and basketball are arranged for freshman teams.

Members of the Saluki coaching staff are: Ralph Casey, head swimming coach; Don Cross, football line coach; Jack Hartman, head basketball coach; Lynn Holder, head golf coach and graduate manager of athletics; George Iubelt, freshman basketball coach; Donald Shroyer, head football coach; Carl Sexton, head tennis coach; Lew Hartzog, track and cross country coach; Glenn (Abe) Martin, head baseball coach and head of intramurals; William Meade, head gymnastics coach; Andrew Vaughn, athletic field representative; and James Wilkinson, head wrestling coach. Graduate assistants each year also play an important part in the coaching of SIU's 10 varsity sports.

Robert Spackman is head trainer and physical therapist, John Grimes is equipment manager, and George Davis heads the student work program.

FACILITIES

Southern's football and track teams compete at McAndrew Stadium, which is named for the late William McAndrew, SIU's athletic director from 1913-1943. The stadium has a permanent seating capacity of 8,543 with temporary bleachers boosting the total to 12,000. The SIU track is a one-fourth mile oval with a 220-yard straightaway.

Basketball, wrestling, and gymnastics contests are held in the 1,584 seat Men's Gymnasium. The new baseball field is one-half mile south of the main campus. Twelve new tennis courts are located south of the physical plant. Golf teams play on the nine-hole courses at Jackson County Club midway between Carbondale and Murphysboro as well as other area courses. The University swimming pool (5 lanes 75 feet) is in the physical education wing at University School. The new Arena is scheduled for completion in May, 1964 and will become the new home of SIU's basketball, wrestling and gymnastics teams.

Southern's mascot is the Saluki, a descendant of the famous Saluki hunting dog which dates back to Egypt. Renowned for speed and endurance, it is the oldest pure breed in the world, records of its existence dating back to 3600 B.C. The Saluki, which is similar in appearance to a Greyhound, was adopted as SIU's sports symbol in 1951. Prior to that, Southern's teams were called "Maroons."

Southern is a member of the National Collegiate Athletic Association.

Intramurals. Southern's intramural program, which began in the 1920's, has now mushroomed until it includes about 3,500 men and 500 women students each year. An intramural student board helps administer the program. Trophies are awarded to team and individual champions. The 16 activities now included in the varied program are touch football, corkball, golf, tennis, ping pong, badminton, horseshoes, volleyball, shuffleboard, free throw shooting, basketball, softball, swimming and diving, and track and field, wrestling and bowling.

NOTE: Each season (fall, winter, and spring), sports information brochures are available for persons interested in detailed information about Southern's varsity sports. Those desiring copies may write Fred Huff, Sports Information, SIU Information Service, Carbondale.

BACKGROUND: EDWARDSVILLE CAMPUS

In 1957 Instruction Centers for both full-time and part-time students opened in Alton and East St. Louis, and in 1959 administrative offices of the University's program in Madison and St. Clair Counties were moved to the new campus at Edwardsville.

EDWARDSVILLE CAMPUS -- LOCATION

The Edwardsville Campus site is located two and a half miles southwest of Edwardsville and just off highway U.S. 66 By-pass. The East St. Louis Center is located on Ohio Street at Ninth and Tenth Streets, and the Alton Center on Illinois highway 140 in Alton, at the site of the former Shurtleff College.

EDWARDSVILLE CAMPUS -- GENERAL

The operational program of Southern Illinois University's Edwardsville Campus is unique. Facilities of the former Shurtleff College have been leased by the University for the operation of the Alton Center. Eight permanent buildings form the nucleus of the 40-acre center. Nine additional buildings have been prepared on a temporary basis to meet the needs of an expanding undergraduate and graduate program.

The East St. Louis Center is located in a former senior high school building. Laboratories, classrooms, library and other facilities have been redesigned and re-equipped to provide a comprehensive undergraduate and graduate program.

Most of the administrative offices of the University's program in Madison and St. Clair Counties are housed in existing residence buildings on the campus site near Edwardsville, where the target date for the holding of first classes is 1964.

CAMPUS MASTER PLAN

The Edwardsville Campus master plan's projected development includes the following basic land-use areas: The main academic core, dominated in the center by a large "central mall" rimmed by the University Center, Communications Building, Central Office and Service Center, and the Library. Instructional and research buildings will be located tightly around this center. Other features are three lakes -- a 90-acre utility reservoir; an 80-acre utilities reserve and conservation reservoir; and a 40-acre conservation reservoir.

Long-range plans also include: a 120-acre cooperative research area and a 300-acre agricultural research section, with another 130 acres earmarked for physical education and recreation; 70 acres for a recreation and housing reserve; 70 acres for physical education and outdoor education; 105 acres for faculty housing; an 85-acre "remote research" area; a 125-acre native arboretum and a 50-acre primitive arboretum; a 135-acre recreation research and housing reserve; a community center; a conservation research and reserve; and professional school areas.

UNIVERSITY SERVICES -- EDWARDSVILLE CAMPUS

Branch offices of the All-University service functions are located on the Edwardsville Campus; also such Area Services as Alumni, Placement and Community Development Services.

CENTER FOR THE STUDY OF CRIME, DELINQUENCY AND CORRECTIONS

The assistant director and four staff members are stationed on the Edwardsville Campus. (For description, see page 15).

HEALTH SERVICE

Health Service facilities with registered nurses on duty are available at the Alton and East St. Louis Centers.

PUBLIC ADMINISTRATION AND METROPOLITAN AFFAIRS PROGRAM

The Public Administration and Metropolitan Affairs Program is a projection of the University's belief that as the Edwardsville Campus develops, it must be cognizant of the contribution it can make to the economic, political and social enhancement of the metropolitan area of which it is a part. By encouraging and supporting urban research it is intended that the program become the storage center for all data and materials concerning growth and development problems of the Illinois portion of the Metropolitan area.

DIVISIONS OF STUDY

BUSINESS DIVISION

The Business Division seeks to acquaint students with the operational phase of business, the sources of information and methods of collecting and interpreting data, and the art of human relations.

EDUCATION DIVISION

The Education Division prepares teachers for all grades from kindergarten through high school and provides basic training in the fields of psychology and guidance. Committed to giving professional training to teachers, supervisors, administrators and specialists, it includes provisional work in several specialties in school administration and supervision.

FINE ARTS DIVISION

The Fine Arts Division serves to stimulate creative and professional work in art, music, speech and drama, providing service courses and activities for all students who want experience in the fine arts fields either for a general cultural background or for practical reasons.

HUMANITIES DIVISION

The Humanities Division provides instruction in the intellectual disciplines of English and other languages, of literature, and of ideas. It is concerned with instruction in the reading, writing, and speaking of English and other languages, the development of an understanding and appreciation of literature and the accompanying recognition of its civilizing values.

SCIENCE AND TECHNOLOGY DIVISION

The Science and Technology Division adds to the general education of all students by offering basic courses in mathematics and the physical and life sciences. For more advanced students, the division seeks to develop an understanding of methods and disciplines in technology and industrial processes.

SOCIAL SCIENCES DIVISION

The Social Science Division offers courses designed to enable students to achieve an understanding and appreciation of civilization viewed in historical perspective, and to equip them for constructive participation in the activities of the family, community and nation.

GENERAL STUDIES PROGRAM

In the Fall of 1962 an expanded program in General Studies was initiated on both major campuses.

GRADUATE STUDIES

Graduates of fully accredited colleges and universities who meet other admission requirements may pursue courses of study leading to a master's degree in education, liberal arts, business and fine arts at the Edwardsville Campus. Fields in which major study may be pursued are educational administration and supervision, elementary education, guidance, secondary education and special education. Graduate minors are available in most business, fine arts, and liberal arts fields, as well as in the education areas.

PRE-PROFESSIONAL PROGRAMS

The Edwardsville Campus offers pre-professional programs for students training for careers in engineering, medicine, dentistry, veterinary science, pharmacy, occupational therapy and law.

INDUSTRIAL AND TECHNICAL PROGRAMS

The Industrial and Technical Programs represent the Division of Technical and Adult Education in the Edwardsville area. An industrial management program at three locations (Alton, East St. Louis and Granite City), is designed to give current and potential foremen and supervisors of the area a more complete background of information with which to make on-the-job decisions. Upon request from individuals, industries, organizations, or groups in the area, the Industrial and Technical Program also plans, develops and conducts miscellaneous short courses, in-plant courses, seminars, conferences and workshops in industrial, technical and other areas.

INTRAMURAL SPORTS

Intramural sports on the Edwardsville Campus are organized to give every student an opportunity to take part in several different activities. All students of the University, including graduate students, are eligible to participate in the extensive program. It is possible for men students to receive an intramural varsity letter and for women students to receive WRA awards for their accumulative participation during the year.

LIBRARIES

Library facilities are provided at Alton and East St. Louis with about 60,000 volumes contained at each location, plus phonograph records, periodicals, and newspapers. All books are received at the Central Library at Edwardsville where national and trade bibliographies, including the catalog of the Library of Congress are located.

PERSONNEL FIGURES

The Edwardsville Campus of the University has a full-time faculty and administrative staff of 279, plus another 127 persons serving on a part-time basis. In addition, there are 206 non-academic employees.

ENROLLMENT FIGURES

Fall quarter (1963-64 school year) enrollment of students working toward degrees at the Edwardsville Campus totaled 5,707. Of this number, 2,808 were enrolled at Alton and 2,899 at East St. Louis.

FEES

(Same fees as for Carbondale Campus. See page 11.)

FINANCIAL ASSISTANCE

The financial assistance program on the Edwardsville Campus is planned to enable talented high school graduates who may lack financial resources to enter and continue experiences in higher education. It includes scholarships, awards, prizes, grants-in-aid and student loan funds. The University does not encourage students to expect to meet all University expenses from such sources. Minimum scholastic averages and the degree of financial need are considered in determining the recipients of many forms of financial assistance available.

HOUSING

The Edwardsville Campus has no housing facilities, and the University neither approves nor authorizes housing for Alton and East St. Louis Center students. The Office of Student Affairs maintains a listing of rooms, apartments, and houses for rent or sale. This list is kept for the convenience of faculty members and students, and all arrangements for housing and all business transactions in the matter of housing are the sole responsibility of the student and owner of the housing facility. There are no social sororities or fraternities on the Edwardsville Campus.

STUDENT AFFAIRS

The services of the Office of Student Affairs are designed to assist in developing and maintaining a suitable campus environment for all students. It coordinates all student personnel services not directly associated with academic instruction and supervises all student activities and organizations.

STUDENT EMPLOYMENT PROGRAM

The student employment program seeks to provide part-time work experience, both on and off campus, which relates, if possible, to the student's academic program. An average of 500 students per month are employed by the University under its student employment program on the Edwardsville Campus.

STUDENT GOVERNMENT

Student Councils, organized at the Alton and East St. Louis Centers, are the official organizations designated to represent students in student welfare, student activities, student participation in University affairs, and student participation in University planning and administration. Councils serve as channels of communication between the student bodies and the administration.

BACKGROUND: SOUTHERN ILLINOIS UNIVERSITY

Southern was chartered as Southern Illinois Normal University in 1869. It remained a normal school and a teachers college until July 1, 1943, when the General Assembly granted it the powers of a university. The name was changed to Southern Illinois University by legislative action in 1947. On July 1, 1949, the university entered into a new period of development under a separate governing board of trustees.

PRESIDENT MORRIS

Dr. Delyte Wesley Morris was born at Xenia, Illinois, April 11, 1907. Educated in the public schools of Xenia and Flora, he obtained the bachelor's degree from Park College, Parkville, Missouri; the master's degree from the University of Maine; and the doctor of philosophy degree from the University of Iowa. He taught in a public school in Oklahoma, the University of Maine, the Junior College of Kansas City, Missouri, the Indiana State Teachers College, Terre Haute, Indiana; and Ohio State University, where he served as professor of speech and director of the Speech and Hearing Clinic. He came to Southern September 10, 1943, and was inaugurated May 5, 1949.

SOUTHERN'S PRESIDENTS

Robert Allyn, 1874 - 1892

John Hull, 1892 - 1893

Harvey William Everest, 1893 - 1897

Daniel Baldwin Parkinson, 1897 - 1913

Henry William Shryock, 1913 - 1935

George Dorritt Wham, 1935 (acting)

Roscoe Pulliam, 1935 - 1944

Bruce Welch Merwin, 1944 - 1945
(acting)

Chester F. Lay, 1945 - 1948

D.W. Morris, 1948 -

LOCATION

The central campus of Southern Illinois University is situated at Carbondale, Jackson County, a community of 13,000 located 100 miles southeast of St. Louis. A transportation center, Carbondale is located at the intersection of U.S. Route 51 and State Route 13; is the junction point for the St. Louis branch with the Illinois Central Railroad main line; and is served by two airports, the University-operated Southern Illinois Airport and nearby Williamson County Airport, served by Ozark Airlines

In addition to the campus at Carbondale, the University includes the Edwardsville campus with centers at Alton and East St. Louis; a Vocational Technical Institute at its Southern Acres campus 11 miles east of Carbondale; and an outdoor education campus at Little Grassy Lake six miles southeast of Carbondale.

PHYSICAL FACILITIES

Central Carbondale campus, exclusive of the University farms, comprises more than 800 acres on which are located more than 60 permanent buildings and 150 temporary structures serving the classroom, laboratory, residence hall, office and service needs of the school.

The following major buildings are in use. Table shows date constructed and cost of post-war construction.

UNDER CONSTRUCTION--from State Universities Bond Issue Funds

Communications Building
General Classroom Building
Physical Science Building
Technology Group

UNDER CONSTRUCTION--from self-liquidating revenue bonds

University Park Residence Halls (to house 1,342 students)

UNIVERSITY SERVICES

University services are headed by a vice presidency for Area and Student Services. The divisions are the Office of International Services, Office of State and National Services, Office of Communications Media Services, Student Health Services, Student Affairs and Student Special Services.

UNIVERSITY FOUNDATION. The Southern Illinois University Foundation, chartered by the state in 1942 as a non-profit corporation, receives gifts and grants for the University's benefit, can buy and lease property, and serve faculty members in obtaining copyrights or patents and in providing market contacts for inventions resulting from research.

UNIVERSITY PRESS, established in 1953, is a book publishing agency of the University issuing books of general and educational interest by SIU staff members as well as other scholars and authors.

BUDGET AND APPROPRIATIONS:

The State General Assembly appropriates financial support to the University on a two-year basis. The appropriated moneys are derived from state tax revenues and from University income (essentially tuition and fees) which, by law, must be deposited with the state treasurer. University Treasury funds (income received as instructional, research, and student aid grants from outside agencies; income derived from auxiliary enterprises operations; and income derived from other self-supporting activities) are administered and maintained locally by the University in accordance with Illinois Statutes.

The following state appropriations were made to the University for the 1963-65 biennium:

From State Tax Revenues:

| | |
|-------------------------------|------------------|
| For Operation and Maintenance | \$ 53,414,523.00 |
| For Permanent Improvements | 500,000.00 |
| For Schoarships | 200,000.00 |

For Capital Additions:

| | |
|--------------------|-----------------|
| New Appropriations | \$ 2,300,000.00 |
|--------------------|-----------------|

73rd G.A. Emergency

| | |
|---------------|------------|
| Appropriation | 350,000.00 |
|---------------|------------|

Reappropriations of the

Previous Biennium: (1)

| | | |
|----------------------------|---------------|----------------------|
| Universities Building Fund | 44,036,750.92 | <u>46,871,545.10</u> |
|----------------------------|---------------|----------------------|

| | |
|----------------------|-------------------|
| General Revenue Fund | <u>134,794.13</u> |
|----------------------|-------------------|

| | |
|-------|----------------|
| Total | 101,066,063.10 |
|-------|----------------|

From University Income:

| | |
|----------------------------|---------------------|
| For Educational Operations | <u>2,200,000.00</u> |
|----------------------------|---------------------|

| | |
|----------------------------|--------------------------------|
| TOTAL STATE APPROPRIATIONS | <u><u>\$103,266,063.10</u></u> |
|----------------------------|--------------------------------|

(1) Southern's share of proceeds, unexpended and reappropriated at July 1, 1963 of the State Universities Bond Issue voted by the electorate in 1961.

The American Medical Association is a non-profit organization dedicated to the promotion of the health of the people. It is the largest and most influential organization of medical professionals in the United States. The Association's primary purpose is to advance the science and practice of medicine, to improve the health of the community, and to protect the public interest. It does this through a variety of activities, including the publication of the *Annals of the American Medical Association*, the organization of medical conferences, the establishment of medical schools, and the provision of medical services to the public. The Association is also involved in the regulation of the medical profession, the protection of patients' rights, and the promotion of medical research. The *Annals of the American Medical Association* is a leading medical journal, published monthly, which contains the latest research and news in the field of medicine. It is a valuable resource for medical professionals and the general public alike.

ACADEMIC STANDING

Southern is accredited by all major American accrediting agencies and has individual faculty member or institutional memberships in more than 530 associations for higher education.

ADMISSION REQUIREMENTS

High school graduates ranking in the lower third of their high school class will be admitted as freshmen, on scholastic probation, during the summer, winter or spring quarters only. An exception will be made permitting fall quarter registration if the applicant makes a high score on University entrance examinations. For out-of-state students, only those in the upper 40 percent of their high school class may register in the fall term; others are subject to the same rules as above. Graduates of recognized high schools, persons over 21 and military veterans are eligible for admission. Persons who are 21 but not high school graduates must pass the General Educational Development (GED) test.

FEES

The University reserves the right to change fees at any time. At present, the fees for a regular quarter (12 weeks) for a full-time (more than 8 quarter hours) student are:

| | |
|---------------------------------|-------------|
| Tuition | \$42.00 |
| Student Activity Fee. | 10.50 |
| Student Union Building fund fee | 5.00 |
| Book Rental | <u>3.00</u> |
| Total | \$65.50 |

Effective the 1965 fall quarter, an additional fee of \$15 per quarter will be charged, to go into a student welfare and recreational facility building fund.

Fee for out-of-state students is an additional \$30.00 plus those listed above.

REVENUE DEPARTMENT, DISTRICT OF COLUMBIA, OFFICE OF THE COMMISSIONER OF REVENUE, WASHINGTON, D. C.

STATEMENT OF RECEIPTS

For the month of January, 1914, the following receipts were received from the various sources:

From the sale of land, \$100.00
From the sale of bonds, \$200.00
From the sale of stocks, \$300.00
From the sale of real estate, \$400.00
From the sale of personal property, \$500.00
From the sale of intangible property, \$600.00
From the sale of other property, \$700.00
From the sale of other property, \$800.00
From the sale of other property, \$900.00
From the sale of other property, \$1,000.00

Total receipts for the month of January, 1914, \$3,200.00

RECEIVED OF THE DISTRICT OF COLUMBIA
FOR THE MONTH OF JANUARY, 1914
THE FOLLOWING RECEIPTS:

AIR FORCE RESERVE OFFICERS' TRAINING CORPS

All male students, except those who have actively served in any of the Armed Forces six months or more, entering Southern as freshmen or sophomores are required to enroll in the basic Air Force Reserve Officers' Training Corps. When a student finishes his first two years of required AFROTC training, he may apply for admission to the advanced course. Upon graduation a student may be commissioned a Second Lieutenant in the United States Air Force Reserve and later called to active duty.

PERSONNEL

The University, Carbondale campus, has a full-time faculty and administrative staff (as of December, 1964) of 2,134, including graduate fellows and graduate teaching and research assistants assigned to departmental staffs on the basis of high scholarship and promise in graduate work. Part-time academic employees total 100. The University staff includes 854 full-time and 89 part-time civil service employees. Among faculty classifications are adjunct professor and research associate, titles given to persons with special skills who serve the University without salary through consultation and cooperative research programs.

GRADUATE SCHOOL

Graduates of fully accredited colleges and universities may pursue courses of study leading to a master's degree in arts, science, education, and fine arts. In addition there is a sixth year program leading to a certificate of specialist. Programs leading to the degree of doctor of philosophy are available in selected areas. Southern Illinois University is accredited by the North Central Association of Colleges and Secondary Schools as an institution conferring the Master's degree.

COLLEGE OF EDUCATION

The College of Education provides professional training for teaching at all levels in the public schools and for supervisors, administrators, and specialists. Departments in the College are: educational administration and supervision; elementary education; guidance; health education; instructional materials; physical education for men; physical education for women; recreation and outdoor education; secondary education; higher education, and special education. The teacher training division offers student teaching in all departments, using the University School at SIU and qualified public schools in the area.

COLLEGE OF LIBERAL ARTS AND SCIENCES

The College of Liberal Arts and Sciences provides for specialized education in social studies, the sciences and the humanities, and in pre-professional programs. It provides basic subject matter for the General Studies program, as well as meeting many special needs of other instructional units. Research in the natural sciences is facilitated by the Pine Hills Field Station, with its variety of landform, plant life and animal life. African, Asian, European and Inter-American studies committees have been formed to coordinate course offerings relating to particular interest areas.

SCHOOL OF AGRICULTURE

The School of Agriculture was created by state legislative action July 1, 1955, for instruction, demonstration, and consultation in agriculture, forestry, and other activities concerned with the rural development of Southern Illinois. Departments in the School of Agriculture are: agricultural industries, animal industries, plant industries, and forestry. The University farms, the Illinois Horticultural Experiment Station, the SIU-U of I Cooperative Agronomy Research Center are components of the school. The School was approved in 1958 for training vocational agriculture teachers. A federal Small Fruits Research Station was activated in 1959 in cooperation with the U. S. Department of Agriculture. The Carbondale Research Center of the Central States Forest Experiment Station, U.S. Forest Service, shares offices in Southern's Agriculture Building and research facilities at a jointly-operated Wood Products Pilot Plant on the University's Southern Acres Campus. A University Forest was established in 1963 on nearly 1,200 acres acquired near Southern's Little Grassy Lake campus for teaching and research and a second agronomy experiment station is being developed on 133 acres acquired as government surplus land adjacent to Scott Air Force Base in St. Clair County.

SCHOOL OF BUSINESS

The School of Business provides courses of instruction leading to bachelor and advanced degrees emphasizing such fields as accounting, business education, economics, management, marketing, and secretarial studies. The School stimulates research and provides service work in these fields for other units of the University. The School is organized into five departments: accounting, management, marketing, secretarial and business education and economics.

SCHOOL OF COMMUNICATIONS

The School of Communications coordinates and facilitates the development of programs, provides instruction and stimulates research in public speaking, television, radio, newspapers and magazine journalism. Components of the school are the departments of speech, speech correction, theater, radio-television, journalism, and printing and photography.

SCHOOL OF FINE ARTS

The School of Fine Arts includes the departments of art, design, and music. Art students may major in pottery, painting, printmaking, jewelry and silversmithing, sculpture, and weaving. Design students may major in visual design or in product-shelter design. The department of music is a member of the National Association of Schools of Music. It offers major programs in music theory, history and literature, piano, organ, voice, opera workshop, stringed instruments, wind instruments, percussion instruments, instrumental and vocal ensembles.

THE JOURNAL OF THE AMERICAN MEDICAL ASSOCIATION is published weekly, except on Sundays and public holidays, at the office of the Association, 535 North Dearborn Street, Chicago, Ill. SCHOOL OF HOME ECONOMICS

The School of Home Economics was established to provide instruction, to stimulate research and to give service to the people in the area. The school is composed of the departments of clothing and textiles, food and nutrition, home and family, and home economics education.

SCHOOL OF TECHNOLOGY

Technology has been a part of the educational program at SIU since 1903, when courses in manual arts were offered primarily for those preparing to teach in the public schools. Technical courses were offered through various divisions until the School of Applied Science was established, to be renamed School of Technology in 1961. The School provides instruction, research and consultation services in engineering, industrial education, applied science, industrial technology and engineering technology. Programs are offered leading to bachelor of science and master of science degrees.

EXTENSION DIVISION

Through the Extension Division, University faculty members conduct college credit courses off-campus. A program of radio and television credit courses also has been initiated. The Division offers planning assistance for educational conferences, workshops and conventions, and also makes arrangements for the SIU Touring Theater to present plays in area communities during a seven-week period each fall. The Theater, composed of advanced drama students, is self-supporting and performs in about 30 communities with a total attendance of 2,500 each year.

DIVISION OF TECHNICAL AND ADULT EDUCATION

The Division of Technical and Adult Education was established for all students of the University not seeking bachelor, master, or doctoral degrees. The Division also includes the Vocational Technical Institute, started in 1952.

Adult Education consists of non-credit courses in various vocational, technical, and general education fields. Nominal tuition fees are charged. The courses are intended to help adults to do their job better or to gain skills for advancement to better positions. Enrollment in adult education has shown a continued growth, with a present size of 9,000 to 10,000 adults annually. Besides a permanent staff, the Division utilizes as instructors a group of trained personnel in specific fields from business, industry, and the professions.

Vocational Technical Institute, an integral part of the Division of Technical and Adult Education, was established as a Day School program and offers one- and two-year business, technical, and vocational curricula. The two-year programs lead to degrees of Associate in Art, Associate in Business, or Associate in Technology. One-year programs leading to a certificate also are offered. The Institute also is supervising area worker training programs under the federal Area Redevelopment Act and Manpower Development and Training Act.

The VTI is located at the University's Southern Acres campus, 11 miles east of Carbondale on Old Route 13. The campus includes classrooms, industrial-type shops, laboratories, cafeteria, student center, health center service, and housing accommodations for students.

RECREATION AND OUTDOOR EDUCATION

Southern conducts programs of outdoor education and school camping at camps at Little Grassy Lake for students of all age levels. Purposes of the camping projects are to enrich learning programs in various subject matter fields; provide an outdoor laboratory in teacher training; provide a laboratory for experimental work and course work in many University departments; give experience in "primitive" camping, focus attention on the need for conservation and recreational development in the area, and train camp counselors and camp directors.

UNIVERSITY INSTITUTES

A number of Institutes have been established at Southern to serve special areas of interest through educational programs and advisory services. The educational programs comprise a course of study for undergraduate and graduate students in a number of related departments of the University.

Current institutes include: the Community Development Institute, established in 1956 to meet the shortage of professionally-trained personnel in the field of community service; the Latin American Institute, activated in 1958 to provide advisory services and promote better understanding with Latin American countries as well as educational preparation for service in those countries; the Labor Institute, to provide educational programs for those planning careers in the field of labor and to provide consultative service to area labor groups; the Rehabilitation Institute, established in 1957 to co-ordinate and augment the training of college students and other field workers in counseling or serving the handicapped and to provide consultant services in this field; the Small Business Institute, established in 1954 to provide educational programs for students interested in establishing their own businesses and to give technical advice on small business operations; and the Transportation Institute to provide educational opportunities and consultation for those working or planning to work in various phases of transportation.

CENTER FOR THE STUDY OF CRIME, DELINQUENCY AND CORRECTIONS was created for the purpose of training students and others interested in careers in various fields connected with crime control and correctional programs. It also carries on research in the fields of delinquency, crime and correction, and provides area service and advisory services in these fields. The instructional program is integrated with other University divisions.

GENERAL STUDIES PROGRAM. A General Studies program for all undergraduate students was started in the fall of 1962 to provide a greater knowledge of basic areas of learning as a foundation for specialization in vocations and professions. Freshmen and sophomore students are enrolled in the general studies program before entering the unit of their selected major field of study. The curriculum is divided into five functional areas.

PLAN "A" PROGRAM is a special honors curriculum for limited numbers of gifted students to stimulate learning and inquiry in sciences, social studies and the humanities in addition to their fields of specialization. Discussion and seminars are used in the instructional program.

the first of the great principles of the American Revolution was the right of the people to alter or to abolish their government, and to institute a new one, whensoever they shall judge it necessary for their safety and happiness.

CHAPTER I

The first of the great principles of the American Revolution was the right of the people to alter or to abolish their government, and to institute a new one, whensoever they shall judge it necessary for their safety and happiness.

The second of the great principles of the American Revolution was the right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures.

The third of the great principles of the American Revolution was the right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures.

The fourth of the great principles of the American Revolution was the right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures.

The fifth of the great principles of the American Revolution was the right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures.

RESEARCH

During the last dozen years, research programs have grown rapidly at Southern. The continued development of work toward advanced degrees in many departments has meant increasing opportunities for research by faculty members and by graduate students under their direction. The dollar amount of outside support for the research and projects program has risen to around \$3 million while University expenditures remains about the same as in recent years.

Included in the Office of Research and Projects program are contracts to provide SIU educational leadership in developing teacher-training normal schools and technical education programs in Africa and Asia. Virtually all University departments pursue experimental or research programs. Projects are underway in three categories -- special individual projects supported by SIU; long range research units (Cooperative), and staff projects supported wholly by outside agencies.

MUSEUM

The Southern Illinois University Museum is in Altgeld Hall, where an exhibit area, offices and work rooms are located on the first floor of the building.

Dedicated to research and exhibition in all fields of natural and social science, the museum now has collections of more than 13,000 items in natural science, including specimens in the fields of herpetology, mammology, ornithology, paleontology, mineralogy, and botany. The Museum provides educational exhibits and teaching units for schools. The Museum is open to visitors from 8 a.m. to 9 p.m. Monday through Thursday; from 8 a.m. until 5 p.m. on Friday and Saturday; and from 1 to 5 p.m. on Sunday.

LIBRARIES

Southern's Morris Library at the Carbondale Campus during 1963-64 passed the 1,000,000 mark in circulation. This library now totals more than 600,000 volumes. Valuable rare book and manuscript materials are being acquired through gifts or purchase with the assistance of the SIU Foundation and the Friends of the Library group.

The first stage of the Morris Library Building, constructed in 1956, has now been enlarged by the addition of a complete third floor and four tower floors. The tower floors, although occupied for storage purposes, are not to be completed until additional appropriations are available.

TEXTBOOK SERVICE. A textbook rental system operated through the University Textbook Service simplifies the book problem for undergraduate students. The service rents an average of five books each quarter per student enrolled. This accounts to more than 50,000 books per term. The stock of textbooks totals 150,000, representing more than 4,500 titles. The textbook service is a part of the Morris Library.

SOUTHERN ILLINOIS MUSIC GROUPS AND EVENTS

A number of area musical groups and events are conducted by the Southern Illinois University music department. These include the Southern Illinois Symphony Orchestra, the Southern Illinois Oratorio Society and the Southern Illinois Youth Orchestra; choral clinic held each fall for some 300 high school students; and the Southern Illinois musical festival, "Music Under the Stars," an annual spring event featuring choral, orchestra and band groups from throughout the area as well as guest soloists and conductors.

Music students participate in the University Symphony Orchestra, the Southern Illinois Symphony, the Oratorio Society, the University Choir, Chamber Choir and Male Glee Club, the Opera Workshop, the Summer Music Theater, the Saluki Marching Band, the Stage Band, the Concert Band and various special ensembles, the Wind Ensemble, and the Brass Ensemble. Faculty members also perform in the Wind and Brass ensembles, the String Quartet and the Wind Quintet.

UNIVERSITY CENTER STUDENT PROGRAMMING BOARD AND COMMITTEES

The University Center Student Programming Board and Committees are composed of students from every segment of the student body. They are responsible for planning activities and services for students in the University Center. These groups plan weekend events of general interest to the campus such as a current issues lecture series, dances, movie hours, jazz sessions, music concerts in the Gallery Lounge, travelogues and excursions to St. Louis. They also sponsor special interest groups including folk music, chess, cricket, and rifle clubs.

STUDENT GOVERNMENT

The official governing organization for students is the Student Council. The Council represents students in matters pertaining to student welfare, student activities, student participation in University planning and administration, and student opinions.

STUDENT FINANCIAL ASSISTANCE

Southern Illinois University's program of financial assistance includes scholarships, awards, prizes, grants-in-aid, private agency awards, and student loan funds.

The National Defense Student Loan Program, established during the spring quarter of 1959, created for the first time a substantial loan fund from which needy and deserving students can borrow money for educational expenses over an extended period. At the end of the spring term, 1963, more than 1,400 students had borrowed \$755,000 from these funds.

For students in need of financial assistance of a temporary nature, loans are administered from a total loan principal of \$27,000 available in 25 loan funds.

STUDENT EMPLOYMENT

During the academic year, more than 4,000 students are employed in Southern Illinois University's work-study program for capable, needy students, who work to defray part or all of their college expense. The office also provides information on summer jobs in camps, resorts, business and industry.

STUDENT HOUSING

Assignments to University residence halls are made on a first-come, first-serve basis, except that a few spaces are reserved for students from other countries and students receiving rehabilitation aid. It is the policy of the University to reserve approximately 50 per cent of available space in the residence halls for incoming freshmen to be filled on a first-come, first-serve basis. By action of the Board of Trustees, all undergraduate students under 21 living off campus must live in University-approved housing.

The University provides information to students on off-campus housing facilities. Lists of vacancies for single and married students are available in the Housing Office. Approved housing must meet minimum sanitation and safety standards as established by the University.

Approximately 22 per cent of the Carbondale Campus students live in University-operated residence halls; 19 per cent commute from their homes in nearby communities; and the remainder live in privately operated housing in the Carbondale area.

RELIGIOUS GROUPS

An Inter-Faith Council, composed of an adult and a student from each religious organization on the campus, sponsors "Religion-in-Life-Week" and serves in an advisory capacity to the Office of Student Affairs on matters dealing with the religious life of students.

Religious groups at Southern include the Newman Club for Catholic students, Lutheran Student Association and Gamma Delta for Lutheran students, Wesley Foundation for Methodist students, the Christian Science Organization, the Unitarian Fellowship, the Baptist Student Union for Baptist students, the Canterbury Club for Episcopalian students, the Jewish Student Association, the Student Christian Foundation for students of several Protestant faiths, the Inter-varsity Christian Fellowship, the Channing Club for Unitarian-Universalist students, and the Eastern Orthodox Club.

SOCIAL SORORITIES AND FRATERNITIES

There are five sororities -- Alpha Gamma Delta, Alpha Kappa Alpha, Delta Zeta, Sigma Kappa, and Sigma Sigma Sigma -- and eight fraternities -- Alpha Phi Alpha, Delta Chi, Kappa Alpha Psi, Phi Kappa Tau, Phi Sigma Kappa, Sigma Pi, Tau Kappa Epsilon, and Theta Xi -- at Southern. Each year they sponsor a "Greek Week," compete in a "Greek Sing," and hold special events. Panhellenic Council and Interfraternity Council serve as governing groups for these organizations.

ATHLETICS

Southern Illinois University offers a well-rounded program of varsity athletics with football and cross country in the fall; basketball, swimming, gymnastics, and indoor track and wrestling in the winter; and baseball, track, golf, tennis, and spring football in the spring. Each year more than 300 men compete in one or more of these varsity sports. Donald N. Boydston, acting head of SIU's health education department, became athletic director in 1957. Participation is stressed, and to this end regular schedules in football, swimming, baseball, basketball and track are arranged for freshman teams.

Members of the Saluki coaching staff are: Ralph Casey, head swimming coach; Don Cross, football line coach; Jack Hartman, head basketball coach; Lynn Holder, head golf coach; Donald Shroyer, head football coach; Carl Sexton, head tennis coach; Lew Hartzog, track and cross country coach; Glenn (Abe) Martin, head baseball coach and head of intramurals; William Meade, head gymnastics coach; Andrew Vaughn, athletic field representative; and James Wilkinson, head wrestling coach. Graduate assistants each year also play an important part in the coaching of SIU's 10 varsity sports.

Robert Spackman is head trainer and physical therapist, John Grimes is equipment manager, and George Davis heads the student work program.

THE SECRETARY OF THE ARMY
WASHINGTON, D. C.
JANUARY 1, 1900

SIR:
I have the honor to acknowledge the receipt of your letter of the 29th inst.

and in reply to inform you that the same has been forwarded to the proper authorities.

I am, Sir, very respectfully,
Yours,
Very truly,
The Secretary of the Army

Enclosed for you are two copies of a report of the Adjutant General's Office, dated December 15, 1899, in relation to the matter of the proposed purchase of land for the establishment of a new military post at the mouth of the River of the South, in the Territory of New Mexico.

I am, Sir, very respectfully,
Yours,
Very truly,
The Secretary of the Army

I am, Sir, very respectfully,

The Secretary of the Army

FACILITIES

Southern's football and track teams compete at McAndrew Stadium, which is named for the late William McAndrew, SIU's athletic director from 1913-1943. The stadium has a permanent seating capacity of 8,543 with temporary bleachers boosting the total to 12,000. The SIU track is a one-fourth mile oval with a 220-yard straightaway.

Basketball, wrestling, and gymnastics contests are held in the new 10,000-seat SIU Arena. The new baseball field is one-half mile south of the main campus. Twelve new tennis courts are located south of the physical plant. Golf teams play on area courses. The University swimming pool (5 lanes 75 feet) is in the physical education wing at University School.

Southern's mascot is the Saluki, a descendant of the famous Saluki hunting dog which dates back to Egypt. Renowned for speed and endurance, it is the oldest pure breed in the world, records of its existence dating back to 3600 B.C. The Saluki which is similar in appearance to a Greyhound, was adopted as SIU's sports symbol in 1951. Prior to that, Southern's teams were called "Maroons."

Southern is a member of the National Collegiate Athletic Association.

Intramurals. Southern's intramural program, which began in the 1920's, has now mushroomed until it includes about 3,500 men and 500 women students each year. An intramural student board helps administer the program. Trophies are awarded to team and individual champions. The 16 activities now included in the varied program are touch football, corkball, golf, tennis, ping pong, badminton, horseshoes, volleyball, shuffleboard, free throw shooting, basketball, softball, swimming and diving, and track and field, wrestling and bowling.

NOTE: Each season (fall, winter, and spring), sports information brochures are available for persons interested in detailed information about Southern's varsity sports. Those desiring copies may write Fred Huff, Sports Information, SIU Arena, Carbondale.

BACKGROUND: EDWARDSVILLE CAMPUS

In 1957 Instruction Centers for both full-time and part-time students opened in Alton and East St. Louis, and in 1959 administrative offices of the University's program in Madison and St. Clair Counties were moved to the new campus at Edwardsville.

EDWARDSVILLE CAMPUS--LOCATION

The Edwardsville Campus site is located two and a half miles southwest of Edwardsville and just off highway U.S. 56 By-pass. The East St. Louis Center is located on Ohio Street at Ninth and Tenth Streets, and the Alton Center on Illinois highway 140 in Alton, at the site of the former Shurtleff College.

EDWARDSVILLE CAMPUS--GENERAL

The operational program of Southern Illinois University's Edwardsville Campus is unique. Facilities of the former Shurtleff College have been leased by the University for the operation of the Alton Center. Eight permanent buildings form the nucleus of the 40-acre center. Nine additional buildings have been prepared on a temporary basis to meet the needs of an expanding undergraduate and graduate program.

The East St. Louis Center is located in a former senior high school building. Laboratories, classrooms, library and other facilities have been redesigned and re-equipped to provide a comprehensive undergraduate and graduate program.

Most of the administrative offices of the University's program in Madison and St. Clair Counties are housed in existing residence buildings on the campus site near Edwardsville, where the target date for the holding of first classes is the fall of 1965.

CAMPUS MASTER PLAN

The Edwardsville Campus master plan's projected development includes the following basic land-use areas: The main academic core, dominated in the center by a large "central mall" rimmed by the University Center, Communications Building, Central Office and Service Center, and the Library. Instructional and research buildings will be located tightly around this center. Other features are three lakes -- a 90-acre utility reservoir; an 80-acre utilities reserve and conservation reservoir; and a 40-acre conservation reservoir.

Long-range plans also include a 120-acre cooperative research area and a 380-acre agricultural research section, with another 180 acres earmarked for physical education and recreation; 70 acres for a recreation and housing reserve; 70 acres for physical education and outdoor education; 105 acres for faculty housing; an 85-acre "remote research" area; a 125-acre native arboretum and a 50-acre primitive arboretum; a 135-acre recreation research and housing reserve; a community center; a conservation research and reserve; and professional school areas.

UNIVERSITY SERVICES -- EDWARDSVILLE CAMPUS

Branch offices of the University's student and community service functions are located on the Edwardsville Campus

CENTER FOR THE STUDY OF CRIME, DELINQUENCY

The assistant director and eight staff members are stationed on the Edwardsville Campus. (For description, see page 14).

PUBLIC ADMINISTRATION AND METROPOLITAN AFFAIRS PROGRAM

The Public Administration and Metropolitan Affairs Program is a projection of the University's belief that as the Edwardsville Campus develops, it must be cognizant of the contribution it can make to the economic, political and social enhancement of the metropolitan area of which it is a part. By encouraging and supporting urban research it is intended that the program become the storage center for all data and materials concerning growth and development problems of the Illinois portion of the Metropolitan area.

DIVISIONS OF STUDY

BUSINESS DIVISION

The Business Division seeks to acquaint students with the operational phase of business, the sources of information and methods of collecting and interpreting data, and the art of human relations.

EDUCATION DIVISION

The Education Division prepares teachers for all grades from kindergarten through high school and provides basic training in the fields of psychology and guidance. Committed to giving professional training to teachers, supervisors, and administrators and specialists, it includes provisional work in several specialties in school administration and supervision.

FINE ARTS DIVISION

The Fine Arts Division serves to stimulate creative and professional work in art, music, speech and drama, providing service courses and activities for all students who want experience in the fine arts fields either for a general cultural background or for practical reasons.

HUMANITIES DIVISION

The Humanities Division provides instruction in the intellectual disciplines of English and other languages, of literature, and of ideas. It is concerned with instruction in the reading, writing, and speaking of English and other languages, the development of an understanding and appreciation of literature and the accompanying recognition of its civilizing values.

SCIENCE AND TECHNOLOGY DIVISION

The Science and Technology Division adds to the general education of all students by offering basic courses in mathematics and the physical and life sciences. For more advanced students, the division seeks to develop an understanding of methods and disciplines in technology and industrial processes.

SOCIAL SCIENCES DIVISION

The Social Science Division offers courses designed to enable students to achieve an understanding and appreciation of civilization viewed in historical perspective, and to equip them for constructive participation in the activities of the family community and nation.

GENERAL STUDIES PROGRAM

In the fall of 1962, an expanded program in General Studies was initiated on both major campuses.

THE HISTORY OF THE UNITED STATES OF AMERICA

The history of the United States of America is a story of the growth of a great nation from a small colony of English settlers. It is a story of the struggle for freedom and independence, and of the development of a democratic government. The story begins with the first English settlers in 1607, and continues to the present day.

THE EARLY YEARS

1607-1620

The first English settlers in America were the Jamestown colony in 1607. They were sent by the Virginia Company to establish a permanent settlement. The colony was founded on the James River, and was the first English colony in America.

1620-1630

The Pilgrims arrived in 1620 on the Mayflower. They were seeking religious freedom and a better life. They founded the Plymouth colony in Massachusetts. The Pilgrims were the first English settlers in New England.

1630-1640

The Puritans arrived in 1630 on the Massachusetts Bay. They were seeking religious freedom and a better life. They founded the Massachusetts Bay colony in Massachusetts. The Puritans were the first English settlers in New England.

1640-1650

The Quakers arrived in 1640 on the Swedes. They were seeking religious freedom and a better life. They founded the Quaker colony in Pennsylvania. The Quakers were the first English settlers in Pennsylvania.

1650-1660

The Dutch arrived in 1650 on the Dutch. They were seeking religious freedom and a better life. They founded the Dutch colony in New York. The Dutch were the first English settlers in New York.

1660-1670

The French arrived in 1660 on the French. They were seeking religious freedom and a better life. They founded the French colony in Louisiana. The French were the first English settlers in Louisiana.

1670-1680

The Spanish arrived in 1670 on the Spanish. They were seeking religious freedom and a better life. They founded the Spanish colony in Florida. The Spanish were the first English settlers in Florida.

GRADUATE STUDIES

Graduates of fully accredited colleges and universities who meet other admission requirements may pursue courses of study leading to a master's degree in education liberal arts, business and fine arts at the Edwardsville Campus. Fields in which major study may be pursued are educational administration and supervision, elementary education, guidance, secondary education and special education. Graduate minors are available in most business, fine arts, and liberal arts fields, as well as in the education areas.

PRE-PROFESSIONAL PROGRAMS

The Edwardsville Campus offers pre-professional programs for students training for careers in engineering, medicine, dentistry, veterinary science, pharmacy, occupational therapy and law.

TECHNICAL AND ADULT EDUCATION

The Industrial and Technical Programs represent the Division of Technical and Adult Education in the Edwardsville area. An industrial management program at three locations (Alton, East St. Louis and Granite City), is designed to give current and potential foremen and supervisors of the area a more complete background of information with which to make on-the-job decisions. Upon request from individuals, industries, organizations, or groups in the area, the Industrial and Technical Program also plans, develops and conducts miscellaneous short courses, in-plant courses, seminars, conferences and workshops in industrial, technical and other areas.

INTRAMURAL SPORTS

Intramural sports on the Edwardsville Campus are organized to give every student an opportunity to take part in several different activities. All students of the University, including graduate students, are eligible to participate in the extensive program. It is possible for men students to receive an intramural varsity letter and for women students to receive WRA awards for their accumulative participation during the year.

LIBRARIES

Library facilities are provided at Alton, East St. Louis and Edwardsville with about 150,000 volumes, plus phonograph records, periodicals, and newspapers. All books are received at the Central Library at Edwardsville where national and trade bibliographies including the catalog of the Library of Congress, are located.

PERSONNEL FIGURES

The Edwardsville Campus of the University has a full-time faculty and administrative staff of 342, plus another 120 persons serving on a part-time basis. In addition, there are 282 non-academic employees.

ENROLLMENT FIGURES

Fall quarter (1964-65 school year) enrollment of students working toward degrees at the Edwardsville Campus totaled 6,624.

The first of these is the fact that the
population of the United States has increased
from 3,900,000 in 1790 to 62,000,000 in 1900.
This increase has been due to a number of
causes, but the most important is the
immigration of foreign-born people.

The second of these is the fact that the
population of the United States has increased
from 3,900,000 in 1790 to 62,000,000 in 1900.

The third of these is the fact that the
population of the United States has increased
from 3,900,000 in 1790 to 62,000,000 in 1900.
This increase has been due to a number of
causes, but the most important is the
immigration of foreign-born people.

The fourth of these is the fact that the
population of the United States has increased
from 3,900,000 in 1790 to 62,000,000 in 1900.
This increase has been due to a number of
causes, but the most important is the
immigration of foreign-born people.

The fifth of these is the fact that the
population of the United States has increased
from 3,900,000 in 1790 to 62,000,000 in 1900.
This increase has been due to a number of
causes, but the most important is the
immigration of foreign-born people.

The sixth of these is the fact that the
population of the United States has increased
from 3,900,000 in 1790 to 62,000,000 in 1900.
This increase has been due to a number of
causes, but the most important is the
immigration of foreign-born people.

The seventh of these is the fact that the
population of the United States has increased
from 3,900,000 in 1790 to 62,000,000 in 1900.
This increase has been due to a number of
causes, but the most important is the
immigration of foreign-born people.

FEEC

(Same fees as for Carbondale Campus. See page 10.)

FINANCIAL ASSISTANCE

(Same as for the Carbondale Campus. See page 16.)

HOUSING

The Edwardsville Campus has no housing facilities, and the University neither approves nor authorizes housing for Alton and East St. Louis Center students. The Office of Student Affairs maintains a listing of rooms, apartments, and houses for rent or sale. This list is kept for the convenience of faculty members and students, and all arrangements for housing and all business transactions in the matter of housing are the sole responsibility of the student and owner of the housing facility. There are no social sororities or fraternities on the Edwardsville Campus.

BACKGROUND: SOUTHERN ILLINOIS UNIVERSITY

Southern was chartered as Southern Illinois Normal University in 1869. It remained a normal School and a teachers college until July 1, 1943, when the General Assembly granted it the powers of a university. The name was changed to Southern Illinois University by legislative action in 1947. On July 1, 1949, the university entered into a new period of development under a separate governing board of trustees.

PRESIDENT MORRIS

Dr. Delyte Wesley Morris was born at Xenia, Illinois, April 11, 1907. Educated in the public schools of Xenia and Flora, he obtained the bachelor's degree from Park College, Parkville, Missouri; the master's degree from the University of Maine; and the doctor of philosophy degree from the University of Iowa. He taught in a public school in Oklahoma, the University of Maine, the Junior College of Kansas City, Missouri, the Indiana State Teachers College, Terre Haute, Indiana; and Ohio State University, where he served as professor of speech and director of the Speech and Hearing Clinic. He came to Southern September 10, 1948, and was inaugurated May 5, 1949.

LOCATION

The central campus of Southern Illinois University is situated at Carbondale, Jackson County, a community of 20,000 located 100 miles southeast of St. Louis. A transportation center, Carbondale is located at the intersection of U.S. Route 51 and State Route 13; is the junction point for the St. Louis branch with the Illinois Central Railroad main line; and is served by two airports, the University-operated Southern Illinois Airport and nearby Williamson County Airport, served by Ozark Airlines.

In addition to the campus at Carbondale, the University includes the Edwardsville campus with centers at Alton and East St. Louis; a Vocational Technical Institute campus 9 miles east of Carbondale; and an Outdoor Laboratory at Little Grassy Lake six miles southeast of Carbondale.

PHYSICAL FACILITIES

Central Carbondale campus, exclusive of the University farms, comprises more than 800 acres on which are located more than 75 permanent buildings and 200 temporary structures serving the classroom, laboratory, residence hall, office and service needs of the school.

The following major buildings are in use. Table shows date constructed and cost of post-war construction.

UNIVERSITY FOUNDATION. The Southern Illinois University Foundation, chartered by the state in 1942 as a non-profit corporation, receives gifts and grants for the University's benefit, can buy and lease property, and serve faculty members in obtaining copyrights or patents and in providing market contacts for inventions resulting from research.

BUDGET AND APPROPRIATIONS:

The State General Assembly appropriates financial support to the University on a two-year basis. The appropriated moneys are derived from state tax revenues and from University income (essentially tuition and fees) which, by law, must be deposited with the state treasurer. University Treasury funds (income received as instructional, research, and student aid grants from outside agencies; income derived from auxiliary enterprises operations; and income derived from other self-supporting activities) are administered and maintained locally by the University in accordance with Illinois Statutes.

The following state appropriations were made to the University for the 1965-67 biennium:

| | | |
|-------------------------------|------------------------------|-------------------------|
| From State Tax Revenues: | | |
| For Operation and Maintenance | \$ | 79,445,413.00 |
| For Fire Protection | | 88,866.00 |
| For Television Programs | | 400,000.00 |
| For Permanent Improvements | | 600,000.00 |
| For Scholarships | | 500,000.00 |
| For Capital Additions: | | |
| New Appropriations | \$ | 3,305,000.00 |
| Reappropriations of the | | |
| Previous Biennium: | | |
| Universities Building Fund | 14,644,100.65 ⁽¹⁾ | <u>20,228,781.38</u> |
| General Revenue Fund | <u>1,790,814.73</u> | |
| Total | | 100,774,194.38 |
| From University Income: | | |
| For Educational Operations | | <u>4,800,000.00</u> |
| TOTAL STATE APPROPRIATIONS | | <u>\$105,574,194.38</u> |

(1) Southern's share of proceeds, unexpended and reappropriated at July 1, 1965, of the State Universities Bond Issue voted by the electorate in 1961.

| Edwardsville Campus Library | <u>744,906.45</u> |
| | <u>\$3,387,636.29</u> |

(2) Does not include properties of Southern Illinois University's Foundation.

ADMISSION REQUIREMENTS

Illinois high school graduates ranking in the lower third of their high school class will be admitted as freshmen, on scholastic probation, during the summer, winter or spring quarters only. An exception may be made permitting fall quarter registration if the applicant makes a high score on University entrance examinations. For out-of-state students, only those in the upper 40 percent of their high school class may register in the fall term; others will be considered for admission only if they make high entrance examination scores, and then only during a summer quarter and on academic probation. Graduates of recognized high schools, persons over 21 and military veterans are eligible for admission. Persons who are 21 but not high school graduates must pass the General Educational Development (GED) test.

FEES

The University reserves the right to change fees at any time. At present, the fees for a regular quarter (12 weeks) for a full-time (more than 8 quarter hours) student are:

| | |
|---|-------------|
| Tuition | \$42.00 |
| Student Activity Fee | 10.50 |
| Student Union Building fund fee | 5.00 |
| Student Welfare and Recreational Building
fund fee | 15.00 |
| Book Rental | <u>8.00</u> |
| Total | 80.50 |

Fee for out-of-state students is an additional \$80.00 plus those listed above.

PERSONNEL

The University has a full-time faculty and administrative staff on the Carbondale Campus (as of November, 1965) of 3,236, including graduate teaching and research assistants assigned to departmental staffs on the basis of high scholarship and promise in graduate work. Part-time academic employees total 43. The University staff includes, 1,163 full-time and 88 part-time civil service employees. Among faculty classifications are adjunct professor and research associate, titles given to persons with special skills who serve the University without salary through consultation and cooperative research programs.

GRADUATE SCHOOL

Graduates of fully accredited colleges and universities may pursue courses of study leading to a master's degree in arts, science, education, and fine arts. In addition there is a sixth year program leading to a certificate of specialist. Programs leading to the degree of doctor of philosophy are available in selected areas.

COLLEGE OF EDUCATION

The College of Education provides professional training for teaching at all levels in the public schools and for supervisors, administrators, and specialists. Departments in the College are: educational administration and supervision; elementary education; guidance; health education; instructional materials; physical education for men; physical education for women; recreation and outdoor education; secondary education; higher education, and special education. The teacher training division offers student teaching in all departments, using the University School at SIU and qualified public schools in the area.

COLLEGE OF LIBERAL ARTS AND SCIENCES

The College of Liberal Arts and Sciences provides for specialized education in social studies, the sciences and the humanities, and in pre-professional programs. It provides basic subject matter for the General Studies program, as well as meeting many special needs of other instructional units. Research in the natural sciences is facilitated by the Pine Hills Field Station, with its variety of landform, plant life and animal life. African, Asian, European and Inter-American studies committees have been formed to coordinate course offerings relating to particular interest areas.

SCHOOL OF AGRICULTURE

The School of Agriculture was created by state legislative action July 1, 1955, for instruction, demonstration, and consultation in agriculture, forestry, and other activities concerned with the rural development of Southern Illinois. Departments in the School of Agriculture are: agricultural industries, animal industries, plant industries, and forestry, offering work leading to bachelors and masters degrees. The University farms, the Illinois Horticultural Experiment Station, the SIU-U of I Cooperative Agronomy Research Center, and a federal Small Fruits Research Station operated in cooperation with the U.S. Department of Agriculture, are components of the School. The Carbondale Research Center of the Lake States Forest Experiment Station, U.S. Forest Service, shares offices in Southern's Agriculture Building and research facilities at a jointly-operated Wood Products Pilot Plant on the University's Southern Acres Campus.

The first part of the report deals with the general situation of the country. It is a very interesting and informative account of the country and its people. The author has done a great deal of research and has written a very well informed and interesting account of the country and its people. The report is a very good example of a well written and informative report.

The second part of the report deals with the specific details of the country. It is a very interesting and informative account of the country and its people. The author has done a great deal of research and has written a very well informed and interesting account of the country and its people. The report is a very good example of a well written and informative report.

The third part of the report deals with the specific details of the country. It is a very interesting and informative account of the country and its people. The author has done a great deal of research and has written a very well informed and interesting account of the country and its people. The report is a very good example of a well written and informative report.

The fourth part of the report deals with the specific details of the country. It is a very interesting and informative account of the country and its people. The author has done a great deal of research and has written a very well informed and interesting account of the country and its people. The report is a very good example of a well written and informative report.

The fifth part of the report deals with the specific details of the country. It is a very interesting and informative account of the country and its people. The author has done a great deal of research and has written a very well informed and interesting account of the country and its people. The report is a very good example of a well written and informative report.

The sixth part of the report deals with the specific details of the country. It is a very interesting and informative account of the country and its people. The author has done a great deal of research and has written a very well informed and interesting account of the country and its people. The report is a very good example of a well written and informative report.

SCHOOL OF BUSINESS

The School of Business provides courses of instruction leading to bachelor and advanced degrees emphasizing such fields as accounting, business education, economics, management, marketing, and secretarial studies. The School is organized into five departments: accounting, management, marketing, secretarial and business education and economics.

SCHOOL OF COMMUNICATIONS

The School of Communications coordinates and facilitates the development of programs, provides instruction and stimulates research in public speaking, television, radio, newspapers, and magazine journalism. Components of the school are the departments of speech, speech correction, theater, radio-television, journalism, and printing and photography.

SCHOOL OF FINE ARTS

The School of Fine Arts includes the departments of art, design, and music. Art students may major in pottery, painting, printmaking, jewelry and silversmithing, sculpture, and weaving. Design students may major in visual design or in product-shelter design. The department of music, a member of the National Association of Schools of Music, offers major programs in music theory, history and literature, piano, organ, voice, opera workshop, stringed instruments, wind instruments, percussion instruments, instrumental and vocal ensembles.

SCHOOL OF HOME ECONOMICS

The School of Home Economics was established to provide instruction, to stimulate research and to give service to the people in the area. The school is composed of the departments of clothing and textiles, food and nutrition, home and family, and home economics education.

SCHOOL OF TECHNOLOGY

Technology has been a part of the educational program at SIU since 1908, when courses in manual arts were offered primarily for those preparing to teach in the public schools. Technical courses were offered through various divisions until the School of Applied Science was established, to be renamed School of Technology in 1961. The School provides instruction, research and consultation services in engineering, industrial education, applied science, industrial technology and engineering technology. Programs are offered leading to bachelor of science and master of science degrees.

EXTENSION DIVISION

Through the Extension Division, University faculty members conduct college credit courses off-campus, using classroom facilities in the various communities and radio and television. The Division assists in planning and conducting educational conferences and workshops, and makes arrangements for the SIU Touring Theatre to present plays in area communities each year. Through the Extension Division, the University conducts a broad program of college-credit courses in state and federal penal institutions.

THE

DIVISION OF TECHNICAL AND ADULT EDUCATION

Established for all students of the University not seeking bachelor, master or doctoral degrees, the Division of Technical and Adult Education also administers the Vocational Technical Institute.

Through the adult education program, various non-credit evening courses in academic, vocational, technical and cultural fields are conducted in communities throughout Southern Illinois for some 10,000 persons each year. In addition to its permanent staff, the Division has on call a group of instructors drawn from various professional fields.

The Vocational Technical Institute, located on its own campus nine miles east of Carbondale, offers 26 one- and two-year programs in such fields as electronics, drafting, machine tool, business, dental hygiene and technology, and data processing. Associate degrees are awarded for completion of two-year programs, while one-year courses lead to a certificate. Leased from the government since 1952, ground and buildings occupied by the VTI were acquired by the University in 1965 and the first permanent building, a residence hall for 138 men, is under contract.

The Division also supervises area worker training programs under the federal Area Redevelopment Act and Manpower Development and Training Act, using the facilities of local factories and hospitals and its own Manpower Training Center on Route 148 in the Crab Orchard National Wildlife Refuge south of Herrin.

RECREATION AND OUTDOOR EDUCATION

The department conducts undergraduate and graduate programs in parks and recreation management and outdoor education, and cooperates with other University departments in conducting intensive camping projects at the SIU Outdoor Laboratory on Little Grassy Lake.

UNIVERSITY INSTITUTES

A number of Institutes have been established at Southern to serve special areas of interest through educational programs and advisory services. The educational programs comprise a course of study for undergraduate and graduate students in a number of related departments of the University.

Current institutes include: the Community Development Institute to provide community service; the Latin American Institute, to provide advisory services and promote better understanding with Latin American countries as well as educational preparation for service in those countries; the Labor Institute, to provide educational programs for those planning careers in the field of labor and to provide consultative service to area labor groups; the Rehabilitation Institute, to co-ordinate and augment the training of college students and other field workers in counseling or serving the handicapped and to provide consultant services in this field; the Small Business Institute, to provide educational programs for students interested in establishing their own businesses and to give technical advice on small business operations; and the Transportation Institute to provide educational opportunities and consultation for those working or planning to work in various phases of transportation.

CENTER FOR THE STUDY OF CRIME, DELINQUENCY AND CORRECTIONS was created to train students and others interested in careers in various fields connected with crime control and correctional programs. It also carries on research in the fields of delinquency, crime and correction, and provides area service and advisory services in these fields.

GENERAL STUDIES PROGRAM. A General Studies program for all undergraduate students was started in the fall of 1962 to provide a greater knowledge of basic areas of learning as a foundation for specialization in vocations and professions. Freshmen and sophomore students are enrolled in the general studies program before entering the unit of their selected major field of study.

PLAN "A" PROGRAM is a special honors curriculum for limited numbers of gifted students to stimulate learning and inquiry in sciences, social studies and the humanities in addition to their fields of specialization. Discussion and seminars are used in the instructional program.

RESEARCH

Outside research funds granted the University during the past year totalled nearly \$6 million, with 103 separate projects receiving such support. Included in the Office of Research and Projects program are contracts to provide SIU educational leadership in developing teacher-training normal schools and technical education programs in Africa and Asia. Virtually all departments pursue experimental or research programs of some type, many supported jointly by the University and outside agencies.

MUSEUM

The Southern Illinois University Museum is dedicated to research and exhibition in all fields of natural and social science. The museum now has collections of more than 13,000 items in natural science, including specimens in the fields of herpetology, mammology, ornithology, paleontology, mineralogy, and botany. The Museum provides educational exhibits and teaching units for schools. The Museum is open to visitors from 8 a.m. to 9 p.m. Monday through Thursday; from 8 a.m. until 5 p.m. on Friday and Saturday; and from 1 to 5 p.m. on Sunday.

LIBRARIES

Southern's Morris Library at the Carbondale Campus now totals more than 600,000 volumes. Valuable rare book and manuscript materials are being acquired through gifts or purchase with the assistance of the SIU Foundation and the Friends of the Library group. The first stage of the Morris Library Building, constructed in 1956, has now been enlarged by the addition of a complete third floor and four tower floors. The tower floors, although occupied for storage purposes, are not to be completed until additional appropriations are available.

UNIVERSITY CENTER STUDENT PROGRAMMING BOARD AND COMMITTEES

The University Center Student Programming Board and Committees come from all segments of the student body and are responsible for planning activities and services for students in the University Center. These groups plan such events as lectures, dances, movies, jazz sessions, concerts, travelogues and excursions. They also sponsor special interest groups.

STUDENT GOVERNMENT

The official governing organization for students is the Student Council. The Council represents students in matters pertaining to student welfare, activities, participation in University planning and administration, and opinions.

STUDENT FINANCIAL ASSISTANCE

Southern Illinois University's program of financial assistance includes scholarships, awards, prizes, grants-in-aid, private agency awards, and student loan funds. For students in need of temporary aid, loans are administered from a total loan principal of \$27,000 available in 25 loan funds.

STUDENT EMPLOYMENT

More than 4,000 students are employed in the SIU work-study program. The Student Work office also provides information on summer jobs in camps, resorts, business, and industry.

STUDENT HOUSING

Assignments to University residence halls are made on a first-come, first-served basis except that a few spaces are reserved for international students and those receiving rehabilitation aid. All under-graduate students under 21 living off-campus must live in University-approved housing. The University provides information to students about off-campus housing and lists of vacancies are available. Approved housing must meet University standards. There are five sororities and eight fraternities on campus. Each year they sponsor a Greek Week and hold special events.

RELIGIOUS GROUPS

An Inter-Faith Council sponsors "Religion-in-Life Week" and works with the Office of Student Affairs on matters dealing with the religious life of students. There are numerous denominational foundations, clubs, and unions on campus.

AIR FORCE RESERVE OFFICERS' TRAINING CORPS

The Air Force ROTC program, which leads to a commission in the U.S. Air Force Reserve, was changed in 1965. Previously a required program for freshman and sophomore male students and an elective advanced course, there now are two-year and four-year voluntary programs on the Carbondale campus and a two-year program at Edwardsville that also can lead to a commission.

ATHLETICS

Southern Illinois University offers a well-rounded program of varsity athletics with football and cross-country in the fall; basketball, swimming, gymnastics, wrestling and indoor track in the winter; and baseball, track, golf, and tennis in the spring. Each year more than 200 men compete in one or more of these varsity sports. Participation is stressed, and to this end regular schedules in football, swimming, basketball, wrestling, baseball and track are arranged for freshman teams.

Members of the Saluki coaching staff are: head football, Don Shroyer, and assistants Don Cross, Gerry Hart, Frank Chizevsky and Bill Knuckles; head basketball, Jack Hartman, and assistants George Iubelt and Jim Smelser; head swimming, Ralph Casey; head wrestling, Jim Wilkinson; head gymnastics, Bill Meade; track and cross-country, Lew Hartzog; baseball, Joe Lutz; tennis, John LeFevre; and golf, Lynn Holder. Graduate assistants each year also play an important part in coaching. Robert Spackman is head trainer and physical therapist.

FACILITIES

Southern's football and track teams compete at McAndrew Stadium, which is named for the late William McAndrew, SIU's athletic director from 1913-1943. The stadium has a permanent seating capacity of 8,543 with temporary bleachers boosting the total to 12,000. The SIU track is a one-fourth mile oval with a 220-yard straightaway.

Basketball, wrestling, and gymnastics contests are held in the new 10,000-seat SIU Arena. The new baseball field is one-half mile south of the main campus. Twelve new tennis courts are located south of the physical plant. Golf teams play on area courses. The University swimming pool (5 lanes 25 yards) is in the physical education wing at University School.

Southern's mascot is the Saluki, a descendant of the famous Saluki hunting dog which dates back to Egypt. Renowned for speed and endurance, it is the oldest pure breed in the world, records of its existence dating back to 3600 B.C. The Saluki which is similar in appearance to a Greyhound, was adopted as SIU's sports symbol in 1951. Prior to that, Southern's teams were called "Maroons."

Southern is a member of the National Collegiate Athletic Association.

Intramural. Southern's intramural program, which began in the 1920's, has now mushroomed until it includes about 3,500 men and 500 women students each year. An intramural student board helps administer the program. Trophies are awarded to team and individual champions. The 16 activities now included in the varied program are touch football, corkball, golf, tennis, ping pong, badminton, horseshoes, volleyball, shuffleboard, free throw shooting, basketball, softball, swimming and diving, and track and field, wrestling and bowling.

NOTE: Each season (fall, winter, and spring), sports information brochures are available for persons interested in detailed information about Southern's varsity sports. Those desiring copies may write Fred Huff, Sports Information, SIU Arena, Carbondale.

EDWARDSVILLE CAMPUS: BACKGROUND

In 1957 instruction centers were opened by the University in Alton and East St. Louis. The Alton Center, formerly Shurtleff College, is located on a 40-acre site on College Avenue (Illinois Highway 140). There are eight permanent buildings here, and nine others nearby are being used on a temporary basis. Classes in East St. Louis are conducted in a former high school on Ohio Street between Ninth and Tenth. The new Edwardsville campus, which opened for classes in September, 1965, is located two-and-a-half miles southwest of the city off Highway 157. Two buildings, the Lovejoy Library and Peck Classroom Building, are currently in use, and a Science Laboratory, Communications Building, and University Center are scheduled for completion during 1966. Most administrative offices are housed in converted residences on the new campus.

CAMPUS MASTER PLAN

The Edwardsville campus master plan projects development of a main academic core of 255 acres, dominated in the center by a large central mall rimmed by the five buildings in the first phase of construction. Instructional and research buildings will be located tightly around this center. Other features are three lakes--a 77-acre utility reservoir, a 66-acre utilities reserve and conservation reservoir, and a 28-acre conservation reservoir. Another 180 acres are earmarked for physical education and recreation and 350 acres for student and faculty housing. Space is also reserved for a community center, a research or professional school, and an arboretum.

DIVISIONS OF STUDY

BUSINESS DIVISION

The Business Division includes the faculties of accounting, business administration, economics, and secretarial studies.

EDUCATION DIVISION

The Education Division, which prepares teachers, supervisors, administrators and specialists for all grades from kindergarten through high school, is comprised of the faculties of administration and curriculum, guidance, and health, recreation, and physical education.

FINE ARTS DIVISION

The Fine Arts Division's three teaching units are the faculties of art and design, music, and speech and theater.

HUMANITIES DIVISION

The Humanities Division also has three units: English language and literature, foreign language and literature, and philosophical studies.

SCIENCE AND TECHNOLOGY DIVISION

The Science and Technology Division consists of the faculties of applied science, biological sciences and technology, mathematical studies, and physical sciences and technology.

SECTION 1

The first section of the report deals with the general situation of the country. It is a very interesting and informative account of the state of the country at the time of the survey. The author describes the physical features of the country, the climate, the population, and the general state of the country. He also describes the political situation and the state of the economy. The section is well written and is a valuable contribution to the knowledge of the country.

SECTION 2

The second section of the report deals with the detailed description of the country. It is a very detailed and informative account of the country. The author describes the physical features of the country, the climate, the population, and the general state of the country. He also describes the political situation and the state of the economy. The section is well written and is a valuable contribution to the knowledge of the country.

SECTION 3

SECTION 4

The fourth section of the report deals with the detailed description of the country. It is a very detailed and informative account of the country. The author describes the physical features of the country, the climate, the population, and the general state of the country. He also describes the political situation and the state of the economy. The section is well written and is a valuable contribution to the knowledge of the country.

SECTION 5

The fifth section of the report deals with the detailed description of the country. It is a very detailed and informative account of the country. The author describes the physical features of the country, the climate, the population, and the general state of the country. He also describes the political situation and the state of the economy. The section is well written and is a valuable contribution to the knowledge of the country.

SECTION 6

The sixth section of the report deals with the detailed description of the country. It is a very detailed and informative account of the country. The author describes the physical features of the country, the climate, the population, and the general state of the country. He also describes the political situation and the state of the economy. The section is well written and is a valuable contribution to the knowledge of the country.

SECTION 7

The seventh section of the report deals with the detailed description of the country. It is a very detailed and informative account of the country. The author describes the physical features of the country, the climate, the population, and the general state of the country. He also describes the political situation and the state of the economy. The section is well written and is a valuable contribution to the knowledge of the country.

SECTION 8

The eighth section of the report deals with the detailed description of the country. It is a very detailed and informative account of the country. The author describes the physical features of the country, the climate, the population, and the general state of the country. He also describes the political situation and the state of the economy. The section is well written and is a valuable contribution to the knowledge of the country.

SOCIAL SCIENCES DIVISION

The Social Sciences Division includes the faculties of behavioral sciences, earth sciences, historical studies, and government and public affairs.

GENERAL STUDIES PROGRAM

In the fall of 1962, an expanded program in General Studies was initiated on both the Edwardsville and Carbondale campuses.

GRADUATE STUDIES

Graduate students may pursue courses of study in education, liberal arts, business and fine arts at the Edwardsville campus. Students may complete all requirements at Edwardsville for the master's degree in education or English.

PRE-PROFESSIONAL PROGRAMS

The Edwardsville campus offers pre-professional programs for students training for careers in engineering, medicine, dentistry, veterinary science, pharmacy, occupational therapy and law.

TECHNICAL AND ADULT EDUCATION

The Division of Technical and Adult Education plans, develops and conducts miscellaneous short courses, in-plant courses, seminars, conferences and workshops in industrial, technical and other areas. An industrial management program, for example, is offered during the academic year at Alton, East St. Louis and Granite City to help foremen and supervisors improve job performance.

PUBLIC ADMINISTRATION AND METROPOLITAN AFFAIRS PROGRAM

The Public Administration and Metropolitan Affairs Program is a projection of the University's belief that as the Edwardsville campus develops, it must be cognizant of the contribution it can make to the economic, political and social enhancement of the metropolitan area of which it is a part. By encouraging and supporting urban research, it is intended that the program become the storage center for all data and materials concerning growth and development problems of the Illinois portion of the metropolitan area.

INTRAMURAL SPORTS

The Edwardsville campus has no intercollegiate sports program, but intramural sports are organized to give every student an opportunity to take part in several different activities. All students of the University, including graduate students, are eligible to participate.

LIBRARIES

Libraries at Edwardsville, Alton, and East St. Louis currently house about 180,000 volumes with an increase to some 500,000 expected within five years. Also available are phonograph records, periodicals and newspapers. National and trade bibliographies, including the catalog of the Library of Congress, are maintained at the Central Library in Edwardsville.

PERSONNEL FIGURES

During the fall 1965-66 quarter, the Edwardsville campus had 537 full-time and 112 part-time faculty and staff. There were 462 civil service employees and 716 student workers.

ENROLLMENT FIGURES

Fall quarter (1965-66 school year) enrollment of students working toward degrees at the Edwardsville campus totaled 7,148.

FEES

(Same fees as for Carbondale campus. See page 8 .)

FINANCIAL ASSISTANCE

(Same as for the Carbondale campus. See page 13.)

HOUSING

The Edwardsville campus has no housing facilities, but the University lists off-campus rooms, apartments and houses for students, and such housing must meet University regulations and pass state fire inspections.

1800-1810

1800-1810. The first part of the century was marked by a period of relative peace and stability. The British Empire was at its height, and the United States was a young nation. The French Revolution had led to the Napoleonic Wars, but by 1810, the world was beginning to settle into a new order.

1810-1820

1810-1820. This decade was characterized by the War of 1812 between the United States and Great Britain. The war ended in a stalemate, but it solidified the United States' position as an independent nation. The Industrial Revolution was also in full swing, leading to significant changes in society and the economy.

1820-1830

1820-1830. The 1820s and 1830s were a period of rapid industrialization and social change. The United States was experiencing a period of westward expansion, and the Industrial Revolution was transforming the economy and society.

1830-1840

1830-1840. This decade saw the continuation of the Industrial Revolution and the expansion of the United States. The American Civil War was brewing, and the world was on the brink of a new era.

1840-1850

1840-1850. The 1840s and 1850s were a period of intense social and political conflict. The American Civil War was fought, and the world was on the brink of a new era. The Industrial Revolution was transforming the economy and society.
